INTRODUCTION

The compilation and maintenance of the statistics regarding the civil servants of the Federal Government is one of the function assigned to Pakistan Public Administration Research Centre (PPARC), Establishment Division. For effective formulation of policies, man-power and career development planning, collection and analysis of relevant data about available manpower resources and facilities is a far most requirement. 3. This is the twenty fifth annual statistical bulletin for the year 2021-22 and depicts the employment status as on 01-07-2021. It contains wide range of statistics covering not only the sanctioned and actual working strength of employees, but also shows domicile-wise position of employees working in the main Ministries/Divisions/Attached Departments/Subordinate Offices/Constitutional Bodies. METHODOLOGY

4. A well-defined methodology has been adopted in order to collect, compile and publish employee's statistics. Out of two basic sources of data collection i.e. primary and secondary, the primary approach has been adopted for data collection. Primary data are usually directly collected from respondents using any tool like questionnaire, recording equipment, direct personal interviews etc. However, sometimes secondary sources like books, journals, newspapers etc. are also utilized for data collection in some queries. For this Bulletin the data is directly collected from the Ministries / Divisions / Departments with reference time 01-07-2021. It is pertinent to highlight that in whole process, five questionnaires/ proformas were designed and sent to all Ministries / Divisions / Departments through mail for collection of data. Charts and graphs were constructed to summarize the data and to see trends in public sector employment.

5. The ultimate goal of the methodology adopted for the bulletin is to expedite the whole process and finalization of bulletin within stipulated timeframe. In order to complete the assignment in time, several telephonic contacts and personal visits were also made to the relevant offices for collection of the data. After retrieval of data in PPARC, the information was checked regarding completeness and a few cases were referred back for rectification of deficiencies and inconsistencies in the data. After satisfaction from all aspects, the data were entered in the computers. Print outs of punched data were taken and checked with source documents in order to confirm the authenticity. The tables were generated and compared with available data sources in order to check the validity. The data then published for accomplishment of the following objectives.

III. Domicile-wise Overall Analysis

14. It is pertinent to mention that domicile-wise strength of employees does not depict the actual position of provincial/regional quota in Federal Government employment. The reason is that the data are collected according to domicile-wise strength of employees which include posts filled through promotions, by direct recruitment as well as on merit quota i.e. (7.5%). It also includes posts in BS-1 to BS-5, which are locally recruited. In addition, every Ministry / Division / Department has their own recruitment rules separately for each post and separate quota rosters are maintained for each and every post. Therefore, simple calculation of quota percentage out of total working strength does not reflect the true picture of provincial / regional quota applicable for employment in the Federal Government.

15. The provincial and regional domicile-wise analysis shows that Punjab (including Islamabad), Sindh, Balochistan, AJK, Gilgit Baltistan and FATA reveal an increase of 1.90%, 2.52%, 7.57%, 3.97%, 7.77% and 5.12% respectively during the period under discussion as compare to the previous year i.e. 2020-21. While KP reveal a decrease of 5.03% during the period under discussion. Radar chart in Figure-6 shows the domicile-wise change in working strength of employees belong to different province/region.
