WHID – Belgium (version 1)

By Gerard Domènech-Arumí and Paula E. Gobbi

README

The dataset "**whid_bel.parquet**" (and "**whid_bel.dta**") contains all housing inequality estimates for Belgium at the census tract aggregation level and above.

The dataset "**whid_bel_lng.parquet**" (and "**whid_bel_lng.dta**") contains all Local Neighborhood Gini (LNG) estimates.

All datasets are stored in parquet and .dta (Stata) format.

All datasets are publicly available, but please cite the paper below if you use our data:

Domènech-Arumí, Gerard and Gobbi, Paula E., Housing inequality in Belgium: Novel estimates and a policy application (April 11, 2025). Available at SSRN.
http://dx.doi.org/10.2139/ssrn.4588122

Please see Appendix B of the paper cited above for all details on housing inequality estimates for Belgium.
