Contents of the replication materials for "*Women's Representation and Corruption: Evidence from Local Audits in Mexico*"

The following folder compiles replication materials for the paper.

1. A folder with the datasets (five in total) used in the main analyses and in the appendix. Datasets compile information on audits, elections, and municipality characteristics for Mexico (2000-2019).

2. A codebook describing the content and variables of all the datasets ("*Codebook*").

3. A folder with scripts for replicating the main findings ("*Main replication file*") and the appendix ("*Appendix (part 1)*" and "*Appendix (part 2)*").
