THERMPO		**Post thermometers**			
D1		Please look at page 3 of the booklet. I'd like to get your feelings toward some of our political leaders and other people who are in the news these days. I'll read the name of a person and I'd like you to rate that person using something we call the feeling thermometer. Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the person. Ratings between 0 degrees and 50 degrees mean that you don't feel favorable toward the person and that you don't care too much for that person. You would rate the person at the 50 degree mark if you don't feel particularly warm or cold toward the person. If we come to a person whose name you don't recognize, you don't need to rate that person. Just tell me and we'll move on to the next one.

Q1	Please turn to page 8 of the booklet. Now I have some questions about different groups in our society. I'm going to show you a seven-point scale on which the characteristics of the people in a group can be rated. In the first statement a score of 1 means that you think almost all of the people in that group tend to be "hard-working." A score of 7 means that you think most people in the group are "lazy." A score of 4 means that you think that most people in the group are not closer to one end or the other, and of course, you may choose any number in between.			
Q1a	Where would you rate WHITES in general on this scale?		1 = Hard-working 2 3 4 5 6 7 = Lazy	
Q1b	Still looking at 8 of the booklet. Where would you rate BLACKS on this scale?		1 = Hard-working 2 3 4 5 6 7 = Lazy	(random order of groups after whites)
