**WHEREAS,** since October 9, 2020, and as of October 30, 2020, during the State of Emergency, the Governor issued emergency orders that, among other things, (i) allows EMS providers to transport a patient in an EMS land or water vehicle with only one provider attending to the patient through the issuance of Exhibit T to Emergency Order #29; ii) continued during the state of emergency certain emergency rulemaking actions relating to the Office of Professional Licensure and Certification, the Board of Barbering, Cosmetology, and Esthetics, the Board of Medicine, the Board of Mental Health Practice, the Board of Nursing, the Board of Pharmacy, and the Family Mediator Certification Board through the issuance of Exhibit U to Emergency Order #29; iii) exempted part-time police officers from working-hour limitations to ensure adequate staffing during the ongoing pandemic through the issuance of Exhibit U to Emergency Order #29; and iv) modified the public meeting requirements of the Current Use Board to include Webex and telephonic meetings, and to condense the public meeting requirements from three meetings to one through the issuance of Exhibit W to Emergency Order #29; and

**WHEREAS,** as of October 26, 2020, the Centers for Disease Control and Prevention (CDC) reports that every U.S. state continues to have reported cases of COVID-19 to the CDC, and that 8,617,022 confirmed cases of COVID-19 have occurred in the United States and territorial partners with 224,601 deaths; and

**WHEREAS,** as of October 26, 2020, the New Hampshire Department of Health and Human Services, Division of Public Health reports 10,397 cases of COVID-19; 475 deaths; 768 hospitalizations; approximately 4,450 individuals being monitored; and all 10 counties in the State have been impacted; and

**WHEREAS,** as of October 26, 2020, New Hampshire continues to have positive cases of COVID-19 each day; and

**WHEREAS,** as of October 26, 2020, states neighboring New Hampshire have reported significant numbers of COVID-19 cases: Massachusetts has reported 148,336 confirmed positive cases and 9,657 deaths, Rhode Island has reported 31,024 positive cases and 1,184 deaths, and Connecticut has reported 68,099 positive cases and 4,589 deaths; and

**WHEREAS,** as of October 26, 2020, the New Hampshire counties experiencing the highest number of COVID-19 cases are those that border Massachusetts; and

**WHEREAS,** New Hampshire State Epidemiologist Dr. Benjamin Chan has determined that, while the State's mitigation strategy has been effective in controlling the spread of COVID-19, community mitigation has been and continues to be critically important; and

**WHEREAS,** Dr. Chan advises that relaxing community mitigation efforts risks additional COVID-19 outbreaks; and

**WHEREAS,** guidance from the United States' and New Hampshire's leading public health experts, evidence of New Hampshire's effective mitigation efforts, and known features of the COVID-19 pandemic, such as its significant community transmission rate, require continued mitigation efforts within the State to ensure the safety of New Hampshire's citizens; and

**WHEREAS,** the COVID-19 pandemic continues to affect New Hampshire residents and to require continued preventative measures, with necessary and appropriate modification as more becomes known about the virus, for the purpose of stopping the spread of COVID-19 and maintaining the progress our State has made in fighting the pandemic; and

**WHEREAS,** the COVID-19 pandemic has necessitated dramatic and unprecedented preventative measures within state and federal governments in the United States, as well as within communities, homes, offices, and individual lifestyles; and

**WHEREAS,** on May 29, 2020, the U.S. Supreme Court observed that "[t]he precise question of when restrictions on particular social activities should be lifted during the [COVID-19] pandemic is a dynamic and fact-intensive matter subject to reasonable disagreement," and stated that "[o]ur Constitution principally entrusts the safety and health of the people to the politically accountable officials of the States to guard and protect," *South Bay United Pentecostal Church, et al.,*

*Applicants* v. *Gavin Newsom, Governor of California, et al.*, No. 19A1044, 590 U.S. __ (2020), at 3 (Roberts, C.J., concurring); and

**WHEREAS,** New Hampshire's courts have recognized that the COVID-19 pandemic justifies the Governor's declaration of a State of Emergency and the restrictions placed on New Hampshire's citizens, businesses, and other organizations through the Emergency Orders. *See Binford, et. al. v. Sununu,* Merrimack Cty. Super. Ct., 217-2020-CV-00152 (March 25, 2020) (Kissinger, J.), at 7-9; *Devine v. Sununu,* Rockingham Cty. Super. Ct., 218-2020-CV-00602 (June 18, 2020) (Schulman, J.); *Cooper v. Sununu,* Hillsborough Cty. Super. Ct., Southern Dist., 2020-CV-00266 (July 13, 2020) (Colburn, J.), at 15; *Athens v. Sununu*, Cheshire Cty. Super. Ct., 213-2020-CV-00104 (July 14, 2020) (Ruoff, J.), at 6–7; and

**WHEREAS,** New Hampshire courts have recognized that the outbreak and death toll in New Hampshire would likely be higher without the Governor's initial order declaring a State of Emergency, and that, given the alarming number of cases in neighboring states and the national and international coordination required to sufficiently control the spread of the disease, COVID-19 is a "disaster of major proportions" that lies "beyond local control." *BAMP Track Operations, LLC v. Sununu*, Merrimack Cty. Super. Ct., 214-2020-CV-00046, at 13; and

**WHEREAS,** the Governor has determined that it is in the interest of the health and safety of Granite Staters to extend the State of Emergency so as to continue to prevent the spread and infection of COVID-19 to New Hampshire's citizens; and

**WHEREAS,** state and local health and emergency response organizations must continue to use all available preventative measures to combat the spread of COVID-19, which will require access to services, personnel, equipment, facilities, and other resources, potentially including resources beyond those currently available, to prepare for and respond to any potential cases and the spread of the virus; and

**WHEREAS,** although there is a continued need to take significant precautions, New Hampshire's actions to date appear to have succeeded in stabilizing the rate of increase in cases of COVID-19; and

**WHEREAS,** it is imperative to continue to prepare for and respond to suspected or confirmed COVID-19 cases in New Hampshire, implement measures to mitigate the spread of COVID-19, and prepare to respond to an increasing number of individuals requiring medical care and hospitalization; and

**WHEREAS,** New Hampshire's sacrifices and actions, thus far, have enabled the State to continue to take steps to gradually re-open New Hampshire's economy in multiple phases; and

**WHEREAS,** the outbreak of COVID-19 has confronted the State with an unprecedented public health emergency and with financial and economic devastation resulting therefrom, which require the State to continue to respond rapidly to ensure that necessary supplies, economic infrastructure, and other appropriate emergency responses are provided immediately; and
