AMENDMENT OF EMERGENCY ORDER AUTHORIZING TEMPORARY PERSONAL CARE ATTENDANT POSITIONS AND TRAINING FOR RESIDENTIAL CARE FACILITIES

The Indiana State Department of Health's March 21, 2020 "Emergency Order Authorizing Temporary Personal Care Attendant Positions & Training for Residential Care Facilities" ("First PCA Order") is **AMENDED** as follows:

Effective March 16, 2020 through May 1, 2020, minors age 16 and 17 are also eligible for training and work as Personal Care Attendants ("PCAs"). This amendment is consistent with the Indiana Department of Labor's temporary suspension of enforcement of requirements for employers to have (1) on-file work permits for minor employees, and (2) permission letters from the school allowing minors (limited to those age 16 and 17) to work during restricted hours of 7:30 a.m. to 3:30 p.m. on E-Learning days. See https://www.in.gov/dol/childlabor.htm.

In all other respects, the First PCA Order is unchanged and remains in full effect.

SO ORDERED on the date set forth below.

Kristina Box, MD, FACOG
State Health Commissioner

By: _____
Matthew Foster, Assistant Commissioner
Consumer Services & Health Care Regulation

Date: April 2, 2020
