Statement of Reasons for Issuing Emergency Rules
Pursuant to Ala. Code § 41-22-5(b)(1)

On March 13, 2020, the Governor of the State of Alabama declared the existence of a state public health emergency based on the appearance of the Severe Adult Respiratory Syndrome-Coronavirus-2 (SARS-CoV-2) and the disease known as COVID-19. On March 18, 2020, the Governor proclaimed the existence of conditions that warrant the implementation of extraordinary measures and relief during the existing state health emergency to guard public health and protect human life. The Governor extended the state of emergency on May 8, 2020, and again on July 2, 2020. The state of emergency is currently set to expire on September 9, 2020.

Notably, the Governor's Thirteenth Supplemental State of Emergency Proclamation found that the "continuing impact of COVID-19" has created "conditions of disaster or extreme peril to the safety of persons and property" that justifies the extension of the state of emergency. The Governor further stated that "it is impossible to predict how long the COVID-19 pandemic will require the existence of a state of emergency." The State Board of Medical Examiners agrees with this finding and assessment of the pandemic. Further, the State Board of Medical Examiners finds that the disruption to Alabama's healthcare system by COVID-19 is unprecedented and unforeseeable; accordingly, the State Board of Medical Examiners finds that the need to reissue these emergency rules was not foreseeable when they were originally issued in March 2020.

The State Board of Medical Examiners hereby finds that the continued need for qualified physicians, physician assistants, and anesthesiologist assistants to provide medical services in Alabama warrants the emergency adoption of these rules to provide for the issuance of emergency certificates of qualification to physicians licensed in other states and emergency licenses to physician and anesthesiologist assistants licensed in other states who may assist with this health emergency. The intent of these rules is to provide for the expedited issuance of certificates of

qualification to qualified physicians and licenses to qualified physician and anesthesiologist assistants who desire to provide health care to citizens of Alabama suffering from and affected by SARS-CoV-2 and the disease known as COVID-19. The State Board of Medical Examiners hereby finds that physician applicants who satisfy the requirements of Ala. Admin. R. 540-X-3-.25 are eligible for emergency certificates of qualification by endorsement; physician assistant applicants who satisfy the requirements of Ala. Admin. R. 540-X-7-.69 and .70 are eligible for emergency licenses; and anesthesiologist assistant applicants who satisfy the requirements of Ala. Admin. R. 540-X-7-.71 and .72 are eligible for emergency licenses.

Before promulgating these rules, Board leadership consulted with Dr. Scott Harris, State Health Officer, and members of the Medical Licensure Commission, reviewed similar measures implemented by other states and state medical boards, and received input from interested stakeholders, including institutions representing license holders. As a result, the Board determined that relaxing the licensure process for physicians, physician assistants, and anesthesiologist assistants during this state of emergency is necessary to protect the imminent threat to the health, safety, or welfare of the citizens of Alabama.

NEW

540-X-7-.71ER Applicants for Emergency License to Practice as an Anesthesiologist Assistant.

(1) Preamble. On March 13, 2020, the Governor of the State of Alabama declared the existence of a state public health emergency based on the appearance of the Severe Adult Respiratory Syndrome-Coronavirus-2 (SARS-CoV-2). On March 18, 2020, the Governor proclaimed the existence of conditions that warrant the implementation of extraordinary measures and relief during the existing state health emergency to guard public health and protect human life. On July 2, 2020, the Governor extended the state of emergency for a second time to last until September 9, 2020. The Governor found that "it is impossible to predict how long the COVID-19 pandemic will require the existence of a state of emergency." Accordingly, the State Board of Medical Examiners hereby finds that the need for qualified anesthesiologist assistants to provide medical services in Alabama warrants the emergency adoption of this rule to provide for the issuance of an emergency license to practice as an anesthesiologist assistant to anesthesiologist assistants licensed in other states who may assist with this health emergency. The intent of this rule is to provide for the expedited issuance of a license to practice as an anesthesiologist assistant to qualified anesthesiologist assistants who desire to provide health care to citizens of Alabama suffering from and affected by SARS-CoV-2 and the disease known as COVID-19. The State Board of Medical Examiners hereby finds that anesthesiologist assistant applicants who satisfy the requirements of this rule are eligible for an emergency license to practice as an anesthesiologist assistant.

(2) The State Board of Medical Examiners may issue an emergency license to practice as an anesthesiologist assistant on behalf of a person who presents evidence satisfactory to the Board showing all of the following:

(a) Possession of a full and unrestricted license to practice as an anesthesiologist assistant issued by the appropriate licensing board of another state, the District of Columbia, a territory of the United States, or a province of Canada;

(b) Provide evidence, satisfactory to the Board, of successful completion of a training program accredited by the Committee on Allied Health Education and Accreditation (CAHEA), or the Commission on Accreditation of Allied Health Education Programs (CAAHEP), or their successor agencies;

(c) Completion of the Certifying Examination for Anesthesiologist Assistants (CEAA) as administered by the National Commission for Certification of Anesthesiologist Assistants (NCCAA);

(d) Has never been convicted, received adjudication, community supervision, or deferred disposition of any felony offense or any crime related to fraud, violence, sexual violations, or related to health care;

(e) Has never had his or her license to practice as an anesthesiologist assistant subjected to discipline by a licensing agency in any state, federal, or foreign jurisdiction, excluding any action related to the non-payment of fees related to a license;

(f) Has never had a controlled substance license or permit suspended or revoked by a state or the United States Drug Enforcement Administration;

(g) Is not currently under investigation by a licensing agency or law enforcement authority in any state, federal, or foreign jurisdiction; and

(h) Is a United States citizen, a national of the United States, or an alien lawfully present in the United States.

(3) An emergency license to practice as an anesthesiologist assistant issued under this rule shall expire one hundred twenty (120) days after the effective date of this rule. The effectiveness of this rule, and any licenses issued under it, may be extended by order of the Governor.

(4) An anesthesiologist assistant applying for an emergency license shall certify to the State Board of Medical Examiners that he or she intends to provide health care to citizens of Alabama suffering from and affected by SARS-CoV-2 and the disease known as COVID-19.

(5) Applicants for an emergency license to practice as an anesthesiologist assistant shall not be required to pay a fee.

(6) Applicants shall be entitled to the expedited issuance of an emergency license to practice as an anesthesiologist assistant upon certification of the applicant's satisfaction of this rule by the Executive Director or Associate Executive Director of the State Board of Medical Examiners, or his or her designee.

(7) The emergency license to practice as an anesthesiologist assistant shall clearly indicate that it is an emergency license.
