Governor Ron DeSantis: Booster Shots for Pfizer and Moderna Vaccines Necessary Regardless of Manner of Distribution

On January 14, 2021, in News Releases, by Staff

Tallahassee, Fla. – Today, as part of his ongoing efforts to put Florida's Seniors First, Governor Ron DeSantis released the following statement regarding booster shots for the Pfizer and Moderna vaccines:

Governor DeSantis said, "While there is talk at the federal level regarding how to distribute vaccine doses and whether booster shots should be 'held back,' Florida is committed to the two-dose regimen for both the Pfizer and Moderna vaccines. One dose seems to provide some protection, but the 95 percent efficacy has only been shown to be attained by taking the booster shot. This means that while the manner of distribution may change, the necessity of the booster shot will not. Florida wants all seniors to receive booster shots at the appropriate time."
