Governor Phil Murphy

Updated Quarantine Advisory Issued for Individuals Traveling to New Jersey, Bringing New Total to 41 States and Territories

10/27/2020

41 States and Territories Include Alabama, Alaska, Arizona, Arkansas, California, Colorado, Florida, Georgia, Guam, Iowa, Idaho, Indiana, Illinois, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Mississippi, Montana, North Carolina, North Dakota, Nebraska, New Mexico, Nevada, Ohio, Oklahoma, Puerto Rico, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, Wisconsin, West Virginia, and Wyoming

New Jersey Highly Discourages, to the Extent Practical, Non-Essential Interstate Travel Given Increased Spread of the Virus Nationwide

TRENTON – Today, Governor Phil Murphy advised individuals traveling to New Jersey from states or territories with significant community spread of COVID-19 to quarantine for a 14-day period from the time of last contact within the identified state or territory. The updated advisory includes the addition of California and Massachusetts, bringing the total to 41 states and territories. The travel advisory applies to any person arriving from a state or territory with a positive test rate higher than 10 per 100,000 residents or a state with a 10 percent or higher positivity rate over a 7-day rolling average.

As of Tuesday, October 27, there are currently 41 states and territories that meet the criteria stated above: Alabama; Alaska; Arizona; Arkansas; California; Colorado; Florida; Georgia; Guam; Iowa; Idaho; Indiana; Illinois; Kansas; Kentucky; Louisiana; Maryland; Massachusetts; Michigan; Minnesota; Missouri; Mississippi; Montana; North Carolina; North Dakota; Nebraska; New Mexico; Nevada; Ohio; Oklahoma; Puerto Rico; Rhode Island; South Carolina; South Dakota; Tennessee; Texas; Utah; Virginia; Wisconsin; West Virginia; and Wyoming.

Neighboring states Connecticut, Pennsylvania, and Delaware now meet the criteria for New Jersey's travel advisory. Due to the interconnected nature of the region and mode of transport between New Jersey and the three states, a 14-day quarantine is not reasonable in all instances. Non-essential travel to and from these states, however, is highly discouraged at this time. New York and Connecticut are also discouraging non-essential travel to and from New Jersey, but are not mandating that travelers quarantine due to the interconnected nature of the region and economy. Massachusetts will be included on New Jersey's advisory, but neither New York's or Connecticut's based on the same criteria.

"Cases have continued to increase at alarming rates, in our state and across the country and it is imperative that we keep the spread of COVID-19 under control." **said Governor Murphy.** "It remains our top priority to ensure the safety of New Jersey residents, and we ask individuals arriving from these 41 states to get tested for COVID-19 and self-quarantine for 14 days."

Travelers and those residents who are returning from impacted states should self-quarantine at their home, hotel, or other temporary lodging. Individuals should leave the place of self-quarantine only to seek medical care/treatment or to obtain food and other essential items.

It is expected that individuals will follow the public health advisory to self-quarantine. The list of states will be updated on a rolling basis and is accessible here (TRENTON – Today, Governor Phil Murphy advised individuals traveling to New Jersey from states or territories with significant community spread of COVID-19 to quarantine for a 14-day period from the time of last contact within the identified state or territory.
