STATE PARK LODGING, CABINS TO BE CLOSED TEMPORARILY

Jerry Kane March 25, 2020

LINCOLN, Neb. – In a proactive effort to prevent the potential for spread of the coronavirus disease (COVID-19), the Nebraska Game and Parks Commission temporarily will close state park lodging in April.

Game and Parks will close park lodging facilities and cabin rentals April 1-30. A possible extension period may be implemented if conditions do not improve. Tent camping and RV camping are available and will be evaluated regularly, following state and federal directives, as well as local health department guidelines.

Public shower buildings are closed through April 30, but park bathrooms, which are sanitized regularly, remain open. The agency is taking proactive measures to protect its customers and employees, including using approved cleaning and disinfecting regiments per Centers for Disease Control recommendations.

Game and Parks will continue to look at other ways to self-limit occupancy and reduce congregations of people to prevent the spread of the virus. Nebraska state parks and recreation areas currently remain open for day use, hiking, camping, fishing, and recreation while maintaining social distancing.

Keep up to date on all cancellations, postponements and closures for Game and Parks at OutdoorNebraska.org/healthinfo. Guests impacted by the closure should contact Reservations at 402-471-1414, online at Nebraskastateparks.reserveamerica.com, or contact the parks directly for refund information.
