PROCLAMATION NUMBER 101 JBE 2020

COVID-19 PUBLIC HEALTH EMERGENCY RENEWAL OF PHASE 2 OF RESILIENT LOUISIANA

WHEREAS, pursuant to the Louisiana Homeland Security and Emergency Assistance and Disaster Act, La. R.S. 29:721, *et seq.*, the Governor declared a public health emergency on March 11, 2020 in Proclamation Number 25 JBE 2020 in response to the threat posed by COVID-19;

WHEREAS, pursuant to the Louisiana Homeland Security and Emergency Assistance and Disaster Act, La. R.S. 29:721, *et seq.*, on March 11, 2020 in Proclamation Number 25 JBE 2020, the Governor declared that a statewide public health emergency existed in the State of Louisiana because of COVID-19 and expressly empowered the Governor's Office of Homeland Security and Emergency Preparedness and the Secretary of the Department of Health and/or the State Health Officer to take all actions authorized under state law;

WHEREAS, La. R.S. 29:761 provides that "[b]ecause the government must do all that is reasonable and necessary to protect the health and safety of its citizens; because new and emerging dangers, including emergent and resurgent infectious diseases . . . pose serious and immediate threats; because a renewed focus on the prevention, detection, management, and containment of public health emergencies is essential; and because emergency health threats . . . may require the exercise of extraordinary government powers and functions, the state must have the ability to respond, rapidly and effectively, to potential or actual public health emergencies";

WHEREAS, on March 22, 2020, in Proclamation Number 33 JBE 2020, the Governor issued a Stay at Home order that, among other things, ordered the people of Louisiana to stay at their homes unless taking essential trips or to travel to or from a place of employment, ordered some non-essential businesses to be closed, and placed limitations on other businesses that were allowed to remain open, which was ultimately extended until May 15, 2020;

WHEREAS, on April 16, 2020, the White House Coronavirus Task Force issued guidelines entitled "Opening Up America Again" that provided guidance to the states on how various parts of the economy could be re-opened;

WHEREAS, this guidance calls for the re-opening to occur in three phases, with the criteria for movement into the first phase being a 14-day downward trajectory in influenza-like and COVID-like symptoms, a 14-day downward trajectory in cases or positive tests as a percent of total tests, and the ability for hospitals to treat all patients without crisis care;

WHEREAS, the criteria also call for the state to have a robust testing program in place, including testing for at-risk healthcare workers;

WHEREAS, pursuant to Proclamation Number 58 JBE 2020, the State of Louisiana moved into Phase 1 of recovery on Friday, May 15, 2020;

WHEREAS, pursuant to Proclamation Number 74 JBE 2020, the State of Louisiana moved into Phase 2 of recovery on Friday, June 4, 2020;

WHEREAS, because of the alarming increases in the number of new COVID-19 positive tests, with increasing positivity rates, and hospitalizations, the original Phase 2 order was supplemented by Proclamation Number 89 JBE 2020 on July 13, 2020, which implemented a face mask order, closed bars for on-premises consumption, and restricted gatherings to 50 people or less;

WHEREAS, although Louisiana has exceeded over 127,246 total cases of COVID-19 to date, the mitigation efforts ordered in Proclamation Number 89 JBE 2020 and continued in Proclamation Number 96 JBE 2020 have resulted in a slight decrease in the number of positive cases reported over the last seven days and, although still greater than the red zone threshold established by the White House Coronavirus Taskforce, Louisiana's percent positivity rate for number of reported cases to number of tests reported have decreased from 13.1% on July 14, 2020 to 12% on August 2, 2020;

WHEREAS, the rise in new cases of COVID-19 leading to the measures taken in Proclamation Number 89 JBE 2020 is not uniform across age groups as it was in the initial weeks of the outbreak, with young adults aged 18-29 years and children under 18 accounting for the majority of new cases since entering Phase 2;

WHEREAS, this age-group has seen a significant increase in the number of cases per capita from 207 per 100,000 in March to 1635 per 100,000 in July;

WHEREAS, this age-group specific increase may reflect, in part, the effect of opening and expanding sectors related to amusement, with at least 40 known outbreaks across the state occurring in bars;

WHEREAS, the unanimous recommendation of the public health experts is that there be universal adoption of face coverings when strict social distancing is not possible, and the White House Coronavirus Task force has submitted a specific recommendation for Louisiana that a face covering mandate be implemented;

WHEREAS, there is an increased risk of infection at large gatherings, with a significant number of the new COVID-19 cases being traced back to such events, necessitating a reduction in the number of people who can gather in a single space at a single time, where strict social distancing is unable to occur;

WHEREAS, this restriction is based upon the White House Coronavirus Task Force guidance which recommends that any gatherings of over 50 people in Phase 2 be limited;

WHEREAS, this gradual re-opening is based upon the advice and expertise of medical experts at the Louisiana Department of Health;

WHEREAS, should there be an increase in the number of confirmed COVID-19 cases or should the number of COVID-19 related hospitalizations threaten the ability of the health care system to properly respond, it may be necessary to go back to the full restrictions in the Stay at Home order in Proclamation Number 52 JBE 2020; and

WHEREAS, these measures are necessary to protect the health and safety of the people of Louisiana.
