WHEREAS, these Directives were promulgated to reduce interpersonal contact and promote social distancing to flatten the curve; and

WHEREAS, data showed that Nevada was one of the top five states in the United States for social distancing; and

WHEREAS, Nevada's medical experts indicate that the rate at which COVID-19 is spreading in the State of Nevada has effectively slowed to a level that does not jeopardize the state's healthcare system due, in part, to Nevadans following strict social distancing measures individually and pursuant to Directives I issued pursuant to the March 12, 2020, Declaration of Emergency; and

WHEREAS, although the danger to Nevadans from the COVID-19 disease has abated, the disease has not been eliminated and measures that protect safety, wellbeing, and public health of Nevadans must remain in effect; and
