EXECUTIVE ORDER NO. 222

WHEREAS, on March 9, 2020, through Executive Order No. 103, the facts and circumstances of which are adopted by reference herein, I declared both a Public Health Emergency and a State of Emergency throughout the State due to the public health hazard created by Coronavirus disease 2019 ("COVID-19"); and

WHEREAS, Executive Order No. 103 (2020) described both the symptoms and dangers presented by COVID-19 and the likelihood of community spread across the State, and it recognized the need to use all available statewide authorities to prepare for and respond to COVID-19 cases in New Jersey, to implement appropriate measures to mitigate the spread of COVID-19, and to prepare in the event of an increasing number of individuals requiring medical care or hospitalization; and

WHEREAS, as COVID-19 continued to spread across New Jersey and an increasing number of individuals required medical care or hospitalization, I issued a series of Executive Orders pursuant to my authority under the New Jersey Civilian Defense and Disaster Control Act and the Emergency Health Powers Act ("EHPA"), to protect the public health, safety, and welfare against the emergency created by COVID-19, including Executive Order Nos. 104-133, 135-138, 140-166, 168-173, 175, 177-181, 183, 187, 189-198, 200, 203-204, 207, and 210-211 (2020) and Nos. 214-216, and 219-220 (2021), the facts and circumstances of which are all adopted by reference herein; and

WHEREAS, N.J.S.A. 26:13-3(b) establishes that a Public Health Emergency declared by the Governor shall automatically terminate after 30 days, unless renewed for an additional 30 days through a declaration of the Governor; and

WHEREAS, on May 6, 2020, I issued Executive Order No. 138, which declared that the Public Health Emergency declared in Executive Order No. 103 (2020) continues to exist; and

WHEREAS, on June 4, 2020, I issued Executive Order No. 151, which declared that the Public Health Emergency declared in Executive Order No. 103 (2020) continues to exist; and

WHEREAS, on July 2, 2020, I issued Executive Order No. 162, which declared that the Public Health Emergency declared in Executive Order No. 103 (2020) continues to exist; and

WHEREAS, on August 1, 2020, I issued Executive Order No. 171, which declared that the Public Health Emergency declared in Executive Order No. 103 (2020) continues to exist; and

WHEREAS, on August 27, 2020, I issued Executive Order No. 181, which declared that the Public Health Emergency declared in Executive Order No. 103 (2020) continues to exist; and

WHEREAS, on September 25, 2020, I issued Executive Order No. 186, which declared that the Public Health Emergency declared in Executive Order No. 103 (2020) continues to exist; and

WHEREAS, on October 24, 2020, I issued Executive Order No. 191, which declared that the Public Health Emergency declared in Executive Order No. 103 (2020) continues to exist; and

WHEREAS, on November 22, 2020, I issued Executive Order No. 200, which declared that the Public Health Emergency declared in Executive Order No. 103 (2020) continues to exist; and

WHEREAS, on December 21, 2020, I issued Executive Order No. 210, which declared that the Public Health Emergency declared in Executive Order No. 103 (2020) continues to exist; and

WHEREAS, on January 19, 2021, I issued Executive Order No. 215, which declared that the Public Health Emergency declared in Executive Order No. 103 (2020) continues to exist; and

WHEREAS, on April 7, 2020, I issued Executive Order No. 119, which declared that the Public Health Emergency declared in Executive Order No. 103 (2020) continues to exist; and

WHEREAS, through Executive Order Nos. 119, 138, 151, 162, 171, 181, 186, 191, 200, and 210 (2020), and No. 215 (2021) I declared that all Executive Orders and Administrative Orders adopted in whole or in part in response to the COVID-19 Public Health Emergency remained in full force and effect; and

WHEREAS, due to the significant emergency measures the State has taken in response to COVID-19, in the summer and fall of 2020 there was a decrease in the rate of reported new cases of COVID-19 in New Jersey, in the total number of individuals being admitted to hospitals for COVID-19, and in the rate of reproduction for COVID-19 infections in New Jersey; and

WHEREAS, given the progress the State had made based on these emergency measures and after consultation with officials from the Department of Health ("DOH"), I announced a multi-stage New Jersey's Road Back Plan (the "Plan") for the methodical and strategic reopening of businesses and activities based on scientific data and metrics concerning the level of disease transmission risk and essential classification; and

WHEREAS, in line with the Plan, the State had been able to relax a number of restrictions, each time tailored to the relative risk the activity presents, and additional restrictions on outdoor and indoor recreational and entertainment businesses were lifted over the past several months; and

WHEREAS, the fact that the spread of COVID-19 had been limited by the State's emergency measures did not in any way suggest that the ongoing Public Health Emergency had dissipated, because absent social distancing

measures, public health experts anticipated that the spread of COVID-19 would again significantly increase; and

WHEREAS, since the Public Health Emergency was renewed on January 19, 2021, at which time there were over 432,592 positive cases of COVID-19 in New Jersey, the COVID-19 outbreak has continued to present a public health hazard in New Jersey, in the region, and across the United States; and

WHEREAS, as of January 19, 2021, according to the World Health Organization, there were over 109,068,745 confirmed cases of COVID-19 worldwide, with over 2,409,011 of those cases having resulted in death; and

WHEREAS, as of February 16, 2021, according to the Centers for Disease Control and Prevention (CDC), there were over 27,542,421 confirmed cases of COVID-19 in the United States, with over 485,070 of those cases having resulted in death; and

WHEREAS, as of February 16, 2021, there were over 669,481 positive cases of COVID-19 in New Jersey, with at least 20,251 of those cases having resulted in death; and

WHEREAS, there have been positive cases of COVID-19 in every county in New Jersey, and there have been deaths relating to COVID-19 in every county in New Jersey; and

WHEREAS, the rate of reported new cases across all counties has remained high, demonstrating the need for many of the State's current measures to remain in place, both to reduce additional new infections and to save lives; and

WHEREAS, in the past eleven months, we have gained critical knowledge regarding COVID-19, including a better understanding of the risks associated with certain activities, the activities that are most conducive to spread of the virus, and the safeguards that can be implemented to mitigate those risks; and

WHEREAS, this information, together with expanded access to testing, personal protective equipment, and other materials necessary to protect individuals from spread of the virus, as well as the ongoing COVID-19 Vaccination Plan, allows for certain activities to continue subject to more limited restrictions; and

WHEREAS, the statewide rate of transmission and the number of new hospital admissions, current hospitalized patients, ventilators in use, and patients in intensive care have all decreased over the past few weeks; and

WHEREAS, given the decrease in these key statistics, the State can take cautious, incremental steps to lift certain restrictions that were designed to limit person-to-person contact; and

WHEREAS, even with these improvements and the rapid expansion of the State's capacity to vaccinate large numbers of individuals each day, it is still necessary to maintain strict mitigation protocols to ensure spread is limited while dissemination of the vaccine continues; and

WHEREAS, the renewal of the declaration of the ongoing Public Health Emergency is necessary to allow the State to continue with the Plan to allow for the methodical and strategic reopening of the State, consistent with the State's authority under the EHPA; and

WHEREAS, the renewal of the declaration of the ongoing Public Health Emergency is also necessary to ensure that the State can swiftly respond to take all appropriate actions should the rate of reported new cases of COVID-19 in New Jersey, number of individuals being admitted to hospitals for COVID-19, or rate of reproduction for COVID-19 infections in New Jersey again increase, as we have seen in numerous states across the country; and

WHEREAS, the spread of COVID-19 has greatly strained the resources and capabilities of county and municipal governments, including public health agencies, that provide essential services for containing and mitigating the spread of contagious diseases, and the situation is too large in scope to be handled entirely by the normal county and municipal operating services; and

WHEREAS, the facts as set forth above and in consultation with the Commissioner of DOH confirm that the spread of COVID-19 in New Jersey constitutes an ongoing public health hazard that threatens and presently endangers the health, safety, and welfare of the residents of one or more municipalities or counties of the State, and it is necessary and appropriate to take action against this public health hazard to protect and maintain the health, safety, and welfare of New Jersey residents and visitors; and

WHEREAS, the facts as set forth above and in consultation with the Commissioner of DOH confirm that there exists a Public Health Emergency in the State; and

WHEREAS, the Constitution and statutes of the State of New Jersey, particularly the provisions of N.J.S.A. 26:13-1 et seq., N.J.S.A. App. A: 9-33 et seq., N.J.S.A. 38A:3-6.1, and N.J.S.A. 38A:2-4 and all amendments and supplements thereto, confer upon the Governor of the State of New Jersey certain emergency powers, which I have invoked;

NOW, THEREFORE, I, PHILIP D. MURPHY, Governor of the State of New Jersey, by virtue of the authority vested in me by the Constitution and by the Statutes of this State, do hereby DECLARE and PROCLAIM that the Public Health Emergency declared in Executive Order No. 103 (2020) pursuant to the EHPA, N.J.S.A. 26:13-1, et seq., continues to exist throughout the State of New Jersey,

and I hereby ORDER and DIRECT:

1. All Executive Orders adopted in whole or in part based on the authority under the EHPA to respond to the Public Health Emergency presented by the COVID-19 outbreak remain in full force and effect.

2. All actions taken by any Executive Branch departments and agencies in whole or in part based on the authority under the EHPA to respond to the Public Health Emergency presented by the COVID-19 outbreak, or in whole or in part based on authority delegated by any Executive Orders described in Paragraph 1 of this Order, including but not limited to any Administrative Orders, remain in full force and effect.

3. For purposes of this Order, "Executive Branch departments and agencies" shall mean any of the principal departments in the Executive Branch of State government and any agency, authority, board, bureau, commission, division, institution, office, or other instrumentality within or created by any such department, and any independent State authority, commission, instrumentality, or agency over which the Governor exercises executive authority, as determined by the Attorney General.

4. This Order shall take effect immediately.

GIVEN, under my hand and seal this 17th day of February, Two Thousand and Twenty-one, and of the Independence of the United States, the Two Hundred and Forty-Fifth.

[seal]

/s/ Philip D. Murphy

Governor

Attest:

/s/ Parimal Garg

Chief Counsel to the Governor
