Update on Clinical Exam Requirement

May 11, 2020

UPDATE on clinical exam requirement for Dental Hygiene applications for Initial Licensure received in 2020 only

The Minnesota Board of Dentistry passed a motion on 4/21/2020 to allow a Dental Hygiene student to apply for a "conditional license", if they had not yet passed a board approved clinical exam. The DH applicant would need to have passed the written component of the WREB or CDCA exam to apply for a licensure, with the condition of passing either the WREB or CDCA's patient or manikin component within six months of the date the license was issued. The applicant also needs to comply with the other requirements of the application process.

UPDATE on clinical exam requirement for Dental applications for Initial Licensure received in 2020 only

The Minnesota Board of Dentistry passed motions on 4/21/2020 and 5/5/2020 to allow Dental students who have passed the written and manikin components of the CDCA's exam, and will take the CompeDont Tooth component, to apply for licensure, and that the Board will also accept the Central Regional Dental Testing Services (CRDTS) all manikin exam; the Southern Regional Testing Agency (SRTA) manikin-based exam; or the Western Regional Examining Board (WREB) manikin simulation exam. The applicant also needs to comply with the other requirements of the application process.
