i. Protective Plans pursuant to the *Alaska Essential Services and Critical Infrastructure Order:* Critical infrastructure is vital to keeping Alaska safe, and, as a result, businesses and employees of critical infrastructure industries must take special care to protect their staff and operations during this pandemic.

If your business is included in the Cyber and Infrastructure Security Agency (CISA) "Guidance on the Essential Critical Infrastructure Workforce," and your workers must travel to enter Alaska, you must submit a plan or protocol for maintaining critical infrastructure to the akcovidplans@ak-prepared.com. This plan must outline how you will avoid the spread of COVID-19 and not endanger the lives of the communities in which you operate, of others who serve as a part of that infrastructure, or the ability of that critical infrastructure to function.

Companies that have previously submitted plans do not need to submit another; they can proceed under their current plans that have been reviewed by the State.

ii. Arriving commercial fishing vessel crewmembers, independent harvesters, and arriving seafood processing workers, must follow the procedures in COVID-19 Outbreak Health Order No 5.

The voucher allows for a free follow up test at airport testing sites.
