FEBRUARY 10, 2021

JEFFERSON CITY — Today, Governor Mike Parson identified site locations for week three of the COVID-19 mass vaccination events in partnership with the Missouri National Guard, Department of Health and Senior Services (DHSS), State Emergency Management Agency (SEMA), and local health care systems.

"We are thankful for the Department of Health and Senior Services, Missouri National Guard, SEMA, and our local partners for their continued efforts," Governor Parson said. "Supply continues to be a limiting factor, but these mass vaccination events have been a great help in getting more vaccines into the arms of Missourians."

More than 38,400 Missourians have now received an initial COVID-19 vaccine dose at a mass vaccination site. The National Guard, DHSS, and SEMA teams will return to each site after 21 days for Pfizer vaccines and 28 days for Moderna vaccines to administer second doses. Unless otherwise notified of a location change, individuals should plan to return for their second dose at the same site that they received their first dose.

Mass vaccination site locations for week three can be found below. For event sign-up information, please visit MOStopsCOVID.com/events (https://covidvaccine.mo.gov/events/). Week four locations will be announced next week.

In addition to these mass vaccination events, DHSS recently announced partnerships with selected hospitals (https://health.mo.gov/news/newsitem/uuid/82fe19f5-9282-4e51-8c0c-a633c787010c/hospitals-to-support-high-throughput-vaccine-distribution-in-missouri) in each region of the state to support high throughput vaccine distribution.

The state is committing approximately 53 percent of weekly vaccine allocations to the selected hospitals and 23 percent to the regional mass vaccination events. The remaining 24 percent will go to local public health agencies, federally qualified health centers, and other enrolled community providers.

Please note that high throughput hospitals and other private providers may host their own vaccination events, but these events are not supported by the Missouri National Guard, DHSS, or SEMA. Information regarding vaccination events outside of those listed above must come directly from the host providers.

To date, providers throughout the state have administered more than 721,250 doses of COVID-19 vaccines. Missourians are encouraged to visit MOStopsCOVID.com (https://covidvaccine.mo.gov/) to view the latest vaccine updates, find out when they are eligible for the vaccine, and locate available vaccinators in their area.
