WHEREAS: Notwithstanding said broad instructions, the authority delegated to the Department of Public Health is subject to the limitations of Code Section 38-3-28(a), and such delegation did not lessen or relinquish the Governor's superior emergency management powers; and

WHEREAS: Georgia law grants the Department of Public Health other duties and authority for general and emergency disease prevention and control; and

WHEREAS: Code Sections 31-2A-4 and 31-12-4 vests the Department of Public Health with the power to segregate and isolate certain individuals with certain communicable diseases or conditions when said individuals' exposure to the general population is likely to endanger the health of others; and

WHEREAS: To ensure advance preparation for a public health emergency, the Georgia legislature has provided in Code Section 31-12-3(a) that the Department of Public Health may require vaccinations or other measures to prevent the conveyance of infectious matter from infected persons to other persons as may be necessary and appropriate, although this Code Section does not vest sole power in the Department to do so and the rules and regulations promulgated by the Department to provide for the implementation of such measures during a public health state of emergency must be adopted pursuant to Chapter 13 of Title 50, the "Georgia Administrative Procedure Act,"; and

WHEREAS: Code Section 38-12-2.1 provides that in the event of a public health emergency, the Department of Public Health shall carry out certain investigatory duties relating to the identification of the illness or health condition, the source thereof, and infected or potentially infected persons, and shall promulgate rules and regulations appropriate for management of any declared public health emergency; and

WHEREAS: In accordance with Georgia law, the Governor has ultimate authority over the State's emergency management procedures because, while other agencies and political subdivisions of the State may be directed or authorized to develop and implement emergency management plans, rules, regulations, and emergency rules and regulations, Code Section 38-3-28(a) clearly provides that no such rule, regulation, or order may be inconsistent with the Governor's own emergency management directives; and

WHEREAS: The State of Georgia implemented a COVID-19 vaccine distribution program in December of 2020;

WHEREAS: The vaccine distribution program has been successful in vaccinating a significant percentage of Georgia's healthcare workers, elderly population, first responders, educators, medically fragile population, and other hardworking Georgians;
