State of New Mexico

Michelle Lujan Grisham
Governor

EXECUTIVE ORDER 2020-030

RENEWING THE STATE OF PUBLIC HEALTH EMERGENCY INITIALLY DECLARED IN EXECUTIVE ORDER 2020-004, OTHER POWERS INVOKED IN THAT ORDER, AND ALL OTHER ORDERS AND DIRECTIVES CONTAINED IN EXECUTIVE ORDERS TIED TO THE PUBLIC HEALTH EMERGENCY

On December 31, 2019, several cases of pneumonia with an unknown cause were detected in Wuhan City, Hubei Province, China, and reported to the World Health Organization ("WHO"). The underlying virus giving rise to those reported instances of respiratory illness was later identified as a novel coronavirus disease which has been referred to as "COVID-19."

By the time the first COVID-19 cases had been confirmed in New Mexico, on March 11, 2020, COVID-19 had already spread globally and throughout the United States. At that time, more than 100,000 people had been infected globally and there were more than 1,000 cases in the United States, spread out over 39 states. The President of the United States declared a national state of emergency for COVID-19 on March 13, 2020.

On March 11, 2020, I issued Executive Order 2020-004, which declared a state of public health emergency under the Public Health Emergency Response Act and invoked powers provided by the All Hazards Emergency Management Act and the Emergency Licensing Act. That public health emergency was declared for a period of 30 days. The President approved a Major Disaster Declaration for the State of New Mexico on April 5, 2020. On April 6, 2020, I renewed and extended the public health emergency through April 30, 2020. On April 30, 2020, I renewed and extended the public health emergency through May 15, 2020.

Cases of COVID-19 and deaths related to COVID-19 continue to proliferate globally, nationally, and locally. The WHO reports more than 4.2 million worldwide infections and more than 292,000 related deaths. According to the United States Centers for Disease Control and Prevention ("CDC"), more than 1.3 million people have been infected in the United States, including confirmed cases in every state, with more than 83,000 related deaths. The numbers of reported cases and deaths are continuing to increase dangerously throughout the United States and in many parts of the world. It is also highly likely that there are many unreported cases and deaths.

Despite some hopeful signs in recent weeks, the numbers have also risen steadily in our State since I declared a public health emergency. As of May 14, 2020, the New Mexico Department of Health reported 5,503 confirmed cases of COVID-19 in New Mexico and at least 242 related deaths. Unfortunately, the number of deaths in our State has more than doubled since the last extension of the public health emergency approximately two weeks ago. There are confirmed cases of COVID-19 in 30 of New Mexico's 33 counties. Despite proactive measures taken by the State and our citizens, the increases in cases and deaths present a significant risk and COVID-19 is expected to continue its spread in New Mexico.

Public health organizations have implemented emergency measures intended to slow the spread of COVID-19. For example, on January 20, 2020, the CDC activated its Emergency Operations Center in response to the COVID-19 outbreak. The WHO declared a Public Health Emergency of International Concern shortly thereafter. Nearly all or our sister states have declared a state of emergency and implemented significant measures and deployed substantial resources to fight the spread of COVID-19.

New Mexico has taken aggressive measures to reduce the spread of COVID-19 and to mitigate its potentially devastating effects. I have been in frequent contact with federal and state

agencies and officials who are coordinating their efforts and resources to fight COVID-19. Various state agencies have been at the forefront of our State's response to COVID-19, particularly the New Mexico Department of Health.

Due to the continued spread of the COVID-19, it is necessary for all branches of State government to continue taking actions to minimize the spread of COVID-19 and to reduce its attendant physical and economic harms.

Therefore, for the reasons above, I, Michelle Lujan Grisham, Governor of the State of New Mexico, by virtue of the authority vested in me by the Constitution and the laws of the State of New Mexico, hereby ORDER and DIRECT:

1. In consultation with the New Mexico Department of Health, I have determined that the statewide public health emergency proclaimed in Executive Order 2020-004, and renewed in Executive Orders 2020-022 and 2020-026, shall be renewed and extended through May 31, 2020.

2. All other powers invoked, directives, and orders contained in Executive Order 2020-004 remain in effect.

3. All other Executive Orders with a duration that was tied to the COVID-19 public health emergency or that was not explicitly stated shall continue with the same effect, including any orders appropriating emergency funding and the following orders: Executive Order 2020-012; Executive Order 2020-013; Executive Order 2020-016; Executive Order 2020-017; Executive Order 2020-020; Executive Order 2020-021; Executive Order 2020-024; and Executive Order 2020-025.

This Order supersedes any previous orders, proclamations, or directives in conflict. This Executive Order shall take effect immediately and shall remain in effect until June 1, 2020 unless renewed or until the Governor rescinds it.

State Capitol • Room 400 • Santa Fe, New Mexico 87501 • 505-476-2200

ATTEST:

Maggie Toulouse Oliver

MAGGIE TOULOUSE OLIVER
SECRETARY OF STATE

DONE AT THE EXECUTIVE OFFICE
THIS 15TH DAY OF MAY 2020
