Governor Kevin Stitt today signed **Executive Order 2021-07** to continue the State of Oklahoma's COVID-19 response.

The new order replaces Ninth Amended Executive Order 2020-20 and streamlines directives to state agencies and Oklahomans while still maintaining the various provisions necessary to manage the pandemic.

"I've said for the last year that I will follow the data and make the right decisions at the right time for Oklahoma," said Gov. Stitt. **"This new Executive Order continues to protect the health and lives of Oklahomans while keeping our businesses open safely and getting our kids back in school."**
