MDHS Announces additional benefits for November

MDHS Announces additional benefits for November

Due to the Coronavirus (COVID-19) pandemic, households currently receiving Supplemental Nutrition Assistance Program (SNAP) benefits will be eligible for a supplemental benefit for November 2020. Similar benefits were provided for certified SNAP households for the previous months.

SNAP households that have been certified based on meeting income and resource requirements are eligible to receive the supplement benefits. These households will receive benefit supplements up to the maximum benefit amount, based on household size. For example, the maximum benefit for a 2-person household is $355. A 2-person household authorized to receive $200 for November will receive an additional $155, the total maximum amount the household could receive.

SNAP households already certified to receive the maximum benefit amount for November will not receive an additional supplement. For example, a 2-person household authorized to receive the maximum amount of $355 will not receive an additional supplement in November.

The November supplements will be available to currently certified SNAP households on November 2. For households newly approved in the month of November, the supplemental benefit will be available two (2) days after case approval.
