Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR PROCESSING NOTES FOR #34315

The Irish Longitudinal Study on Ageing (TILDA), 2009-2011

1. **Undocumented Codes:** Several variables such as **SCQANXIETY1** and **SCQPSS2** contain undocumented codes for values such as "-812," "-823," and "-834" that do not follow the typical pattern for missing values and do not appear in the P.I. Questionnaire. These values have been labeled "UNDOCUMENTED CODE" by ICPSR. No additional information was provided.

2. **Variable Labels:** Several variable labels appear to be truncated versions of the variable question. Users should reference the P.I. Questionnaire for complete information.

3. **Related Data Collections:** This collection is related to TILDA Wave 2, ICPSR 37105, and TILDA Wave 3, ICPSR 37106. For similar study information and characteristics, please refer to all three studies.

4. **Additional Information:** For additional information on The Irish Longitudinal Study on Ageing, please visit the TILDA website.

ICPSR 34315

The Irish Longitudinal Study on Ageing (TILDA), 2009-2011

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, arithmetic mean, median, mode, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

CF001B: cf001b Has the respondent agreed to the longitudinal study?

[INTERVIEWER READ OUT:] As I explained earlier this is a longitudinal study which means that people who take part will be visited once every two years. Are you willing to be re-contacted to participate in a similar interview in the next 2 years? Again at this stage your participation will be voluntary. [NOTE: IF RESPONDENT SAYS NO, YOU SHOULD MAKE EVERY EFFORT TO PERSUADE THE RESPONDENT OF THE IMPORTANCE OF THE STUDY AND THE BENEFITS TO PEOPLE LIVING IN IRELAND. ALSO ATTEMPT TO UNDERSTAND REASONS FOR NOT WANTING TO BE RE-CONTACTED AND ADDRESS THESE I.E. GIVE ASSURANCES ON CONFIDENTIALITY AND ANONYMITY. IF RESPONDENT STILL SAYS THAT THEY DO NOT WISH TO BE RE-CONTACTED CODE 'NO' BUT YOU MAY CONTINUE WITH THIS INTERVIEW.]*

BH101: bh101 During the last 7 days, on how many days did you do vigorous physical activit?

[INTRO:] We are interested in finding out about the kinds of physical activities that people do as part of their everyday lives. The next set of questions will ask you about the time you spent being physically active in the last 7 days. Please answer each question even if you do not consider yourself to be an active person. Please think about the activities you do at work, as part of your house and garden work, to get from place to place, and in your spare time for recreation, exercise or sport. Think about all the vigorous activities that you did in the last 7 days. Vigorous physical activities refer to activities that take hard physical effort and make you breathe much harder than normal. Think only about those physical activities that you did for at least 10 minutes at a time. - During the last 7 days, on how many days did you do vigorous physical activities like heavy lifting, digging, aerobics, or fast bicycling?

Value	Label	Unweighted Frequency	%

BH103: bh103 During the last 7 days, on how many days did you do moderate physical activit?

Think about all the moderate activities that you did in the last 7 days. Moderate activities refer to activities that take moderate physical effort and make you breathe somewhat harder than normal. Think only about those physical activities that you did for at least 10 minutes at a time. During the last 7 days, on how many days did you do moderate physical activities like carrying light loads, bicycling at a regular pace, or doubles tennis? Do not include walking.

BH107: bh107 During the last 7 days, how much time did you spend sitting on a week day? HO?

The last question is about the time you spent sitting on weekdays during the last 7 days. Include time spent at work, at home, while doing course work and during leisure time. This may include time spent sitting at a desk, visiting friends, reading, or sitting or lying down to watch television. During the last 7 days, how much time (per day) did you spend sitting on a week day? (This question is looking for the usual number of hours spent sitting on a typical week day. If respondent has difficulty calculating, interviewer may suggest they approximate by subtracting time spent sleeping, walking, standing, exercising etc. from the 24 hours) - Hours per day

TP040: tp040 Not counting any shared housing or shared food, in the last two years, have you

Families sometimes help one another in a variety of ways, and each type of help can be important. The next questions are about help given or received by your parents. - Not counting any shared housing or shared food, in the last two years, have you (and your spouse/partner) given financial help to your parents/father/mother (deceased parents/father/mother)? Include help to pay costs such as rent, but exclude shared housing or food.

AS101: as101 If you added up all the deposit or saving accounts you currently own, about how

[INTRO:] We've already talked about your sources of income and I explained how important it is for us to obtain good information about people's financial situation. To complete the picture, I'd now like to ask some questions about your overall financial resources. This information is vital to our study. As I have already mentioned, your answers to these questions will, like all the information you give, be kept strictly confidential and will only be used for research purposes. They will not be passed on in an identifiable way to any other organisation or individual. - If you added up all the deposit or saving accounts you and/or your spouse/partner currently own, about how much would they amount to right now?
