Soil Moisture, LV Watershed, raster, 2004-2013

Reference Information and Units:

GCS: SR-ORG:14 (http://spatialreference.org/)
Projection: Data has not been projected.
Resolution: ~0.25 degrees at the equator
Units: volume percentage of soil moisture content)m3/m3)

File Naming Convention:

LV_BasinSoilYYYY, where the YYYY refers to the years of the data

Data Origin:

Original SRTM dataset was downloaded from: http://www.esa-soilmoisture-cci.org/node/145

Sensor:

Various

Mapped worldwide annual soil moisture.

Code:

NA

Data Development/Processing:

NA
