Data Availability Statement The datasets generated and analyzed during the current study are openly available in the Harvard Dataverse repository. All dataset files have been fully anonymized to remove direct and indirect identifiers, following international ethical standards and the principles of the Declaration of Helsinki, as well as Brazilian Resolutions CNS 466/2012 and 510/2016. The repository includes: • Anonymized dataset files (Excel format) • Codebook and variable dictionary • README documentation • Statistical scripts used for data processing and analysis • Supporting study documentation All materials are released under the CC0 1.0 Universal Public Domain Dedication, allowing unrestricted reuse, redistribution, and analysis. A permanent DOI will be added upon final publication of the dataset.
