ID	Questions (Q1-Q20)
Latent concept: Trust in State	
Imagine you found yourself in a long-term, difficult life situation (e.g., health problems or job loss). Whom would you expect to get material support from, knowing that you will be unable to pay it back? *	
And where, in your opinion, support like that should generally come from?	
Q1	State institutions
Q2	Charity organisations
Think about the following scenario. Your friend, who used to work illegally, got in an accident and will be unable to work for several years. Your friend has no savings. Whom should they ask for support?	
Q3	Non-government organizations (e.g. funds)
Q4	State institutions for sickness pension or social assistance benefits
Latent concept: Satisfaction with Welfare State	
Are you satisfied with the way the Polish state handles	
Q5	Health care
Q6	Support for elderly, including pensions
Q7	Support for children (nurseries, kindergartens, paid parental leaves)
Q8	Investment in residential real estate
Latent concept: Distrust in Market	
Do you agree with the following statements	
Q9	Government should set the prices of basic food products
Q10	When it comes to the development of new technologies state companies are more efficient than the private ones
Q11	Work conditions are better in state companies than in the private ones
Q12	Government should decide about strategic directions of the economic development
Latent concept: Trust in Public Institutions	
When considering public institutions, I trust	
Q13	Government
Q14	National social insurance fund
Q15	National social insurance fund for farmers
Latent concept: Pension Saving Propensity	
Q16	I have a plan how to save for retirement
Q17	I believe that I will be able to save the amount of money high enough to increase my pension in a significant way
Latent concept: Long-term Saving	
What are the saving goals of your household?	
Q18	To secure children's future
Q19	To secure the future (in old age)
Q20	To be able to leave a bequest

* The italicised fragment was part of the preceding question. However, presenting this phrase is necessary to form a context for subsequent questions.

All questions were answered on a 7-point scale (1 meant definitely no and 7, definitely yes). The only exceptions were the last three questions (Q18, Q19, and Q20) related to the saving goal, which took binary values: 0 when the respondents did not declare a given saving goal or 1 when they did.

ID	Description
Age	[in years]
Sex	0 - male, 1 - female
Higher_edu	0 - no, 1- yes
Personal_income	[in PLN]
