Folder: 3. Endline Survey.

This folder contains:

- Bangla survey questionnaires used for the Endline Parent Survey.

- Bangla assessment questionnaires used for the Endline Child Assessment.

- Data layout for the Endline Parent Survey.

- Data layout for the Endline Child Assessment.

- *Anushilon-Endline-Parent-Survey.xlsx* --- Raw data file.

- *Anushilon-Endline-Assessment.xlsx* --- Raw data file.

- *Endline-data-clean-up.do* --- Stata do file for cleaning, and labeling variables and values.

Notes:

Identifiable information about participants has been removed from the raw data.

Survey questionnaires and assessment questions are stored in Bangla language, the original language in which the survey and assessment were conducted. English translation of this questionnaires can be found in the data layout file. Note that English versions of the assessment test and various scales used in this study are already available in the paper and/or online appendix.

To-Do:

Open *Endline-data-clean-up.do* and execute. This do file will prepare the endline survey and assessment and save both files in this current directory for later use.
