Folder: 2. Rapid Baseline Survey

This folder contains:

- Bangla Survey questionnaires used for the baseline rapid survey.

- Data layout for the baseline rapid survey.

- Raw data file.

- Stata do file with the codes for cleaning and labeling variables and values.

Note:

Data and identifiable information about participants not needed for replication purposes were removed from the raw data.

To-Do:

Open *Baseline_data_cleanup.do* and execute. This do file will prepare the rapid baseline survey and save in this current directory for later use.
