1 Variable Naming Scheme

The TAPS survey labels variables with a suffix denoting the survey in which each question was used. Under this scheme, PARTYID1S10 is the first question of the PartyID module and it was used in the 10th monthly survey. PARTYID1S11 is the first party id question in the 11th monthly survey, etc. The following table lists which survey corresponds to which month.

The unique identifying variable used for each respondent is their WUSTLID. They break down into the following three waves for 2012-13

- Wave 1 WUSTL IDs 989870 through1020238, Total n=2128
- Wave 2 WUSTLIDs 1053279 through 1062372 Total n=329
- Wave 3 WUSTLIDs 1096137 through 1115273 Total n=329
