Codebook for:

The Roach to Reelection is Paved with Good Intentions

Talbot M. Andrews
Assistant Professor
University of Connecticut

Scott Bokemper
Independent Researcher

Correspondence to: talbot.andrews@uconn.edu

Overview:

Included here are the files necessary to replicate all figures and tables from "The Road to Reelection is Paved with Good Intentions: Experiments on the Role of Outcomes and Intentions in Voting Behavior," accepted at the *Journal of Politics.* Included are the files containing data from all five experiments, as well as legislator decisions Additionally, a .do file is included with code to replicate all figures and tables in Stata 16. In order to generate all figures and results included in all tables, please ensure you have revised the code to include your working directory where you have saved the data files.
