Data Prepared by: Governance and Local Development Institute

Last Updated: February 02, 2023

Purpose of the Dataset

In March 2020, Zambia and Malawi reported their first cases of Covid-19, with both governments restricting non-essential travel, banning large public gatherings, and establishing emergency committees to spearhead efforts to contain the pandemic at a national level. GLD implemented a study in 2020 in both Malawi and Zambia to generate a better understanding of citizens' responses to such measures, and the impact of the pandemic on their individual lives and communities. In order to generate as complete a picture as possible of the local situations over time, we conducted three survey rounds in Malawi and two rounds in Zambia. These rounds provided a total of 17,643 observations, gathering information on issues including knowledge of Covid-19; attitudes and fears surrounding health and economic impacts; social, economic, and health vulnerabilities; social distancing practices and other preventative measures. Particular attention was paid to the local variation in concerns over the social stigma, levels of enforcement, and engagement of different authorities.

This study has two primary objectives:

1. To generate information and actionable insights for government officials, CSOs, donors, other stakeholders and the public
2. To provide insights for academics and practitioners concerned with understanding the relationships between individual, household, and community vulnerabilities and resilience in the face of crises.

Infographics summarizing these variables can be found here: http://gld.gu.se/en/projects/completed-projects/developing-a-locally-rooted-approach-to-covid-19-response/

Scope of Data

Data Collection Round 1: July 2, 2020 to August 13, 2020

Data Collection Round 2: November 26, 2020 to January 22, 2021

Respondents primarily from the Lusaka region and along the Zambia-Malawi border.Respondents were drawn disproportionately from Central, Eastern, Lusaka, and Muchinga provinces.

Respondents had to be able to be reached by phone.

Overview of Sampling

The sampling frame for the first round of the panel was comprised of respondents who took the LGPI 2019 survey, consented to follow up contact, and provided a phone number. A detailed description of the sampling plan of the LGPI 2019 survey can be found http://gld.gu.se/media/1946/lgpi-2019-guide.pdf. Trained enumerators from Ubuntu Research and Rural Development Company Ltd. contacted respondents via phone and recorded responses in the SurveyToGo app. Enumerators were trained to first try to contact the previous LGPI respondent, but if that was not possible, a replacement respondent was allowed.

Response Rate

Number of Observations Round 1: 2142

Response Rate Round 1: 50%

Number of Observations Round 2: 1783

Response Rate Round 2: 44%

Acknowledgements

This dataset was supported by the Swedish Research Council Recruitment Grant (Swedish Research Council - E0003801), PI: Pam Fredman; Social Institutions and Governance: Lessons from Sub-Saharan Africa (Swedish Research Council - 2016-01687), PI: Ellen Lust; The Governance Challenge of Urbanization (FORMAS – 2016-00228), PI: Ellen Lust. The authors would like to thank Dr. Erica Ann Metheney and Kirk Ammerman for data support and Rose Shaber-Twedt for administrative support.

Consent Statement

Round 1

We are currently conducting a survey on Covid-19 and would like to talk to you today. Participation is voluntary, and your answers will be confidential. They will be put together with about 3500 other people we are talking to, to get an overall picture. It will be impossible to pick you out from what you say, so please feel free to tell us what you think. This interview will take about 30 minutes. There is no penalty for refusing to participate.

We would like your opinion with the knowledge that there are no right or wrong answers to these questions and that you may ask for clarification or stop the survey at any time. You are also free to skip questions you consider personal or invasive without penalty.

We are able to offer you 20 Kwacha in airtime for completing the survey. 10 Kwacha will be credited immediately after the survey and the remaining 10 Kwacha will be credited 1 month later due to administrative restrictions.

If you have any questions, please contact:

Marja Hinfelaar SAIPAR, 22 Busuma Rd, Sunningdale, Lusaka +260 977751317 marja.hinfelaar@saipar.org

UNZABRECP.O. Box 50110, Ridgeway Campus, Lusaka+260-1-256067 unzarec@unza.zm

Are you willing to participate in this survey, either now or at another time?

Round 2

Participation in our Covid-19 survey is voluntary, and your answers will be confidential. They will be put together with about 3500 other people we are talking to, to get an overall picture. It will be impossible to pick you out from what you say, so please feel free to tell us what you think. This interview will take about 30 minutes. There is no penalty for refusing to participate. We would like your opinion with the knowledge that there are no right or wrong answers to these questions and that you may ask for clarification or stop the survey at any time. You are also free to skip questions you consider personal or invasive without penalty.

We are able to offer you 20 Kwacha in airtime for completing the survey. 10 Kwacha will be credited immediately after the survey and the remaining 10 Kwacha will be credited 1 month later due to administrative restrictions.

If you have any questions, please contact: Marja Hinfelaar SAIPAR, 22 Busuma Rd, Sunningdale, and Lusaka 260 977751317 marja.hinfelaar@saipar.org UNZABRECP.O. Box 50110, Ridgeway Campus, Lusaka+260-1-256067 unzarec@unza.zm

Are you willing to participate in this survey, either now or at another time?
