# Mills Longitudinal Study - Participation Summary

ADDITIONAL PARTICIPATION NOTES:

1066 was removed from the study at Age 21; data not used.

2007 asked for her data to be removed from the study in earlier years, but then completed limited Age 61 materials and expressed interest in the next follow-up. Only Age 61 data is included for this participant.

1013 started completing the Age 73 materials but then decided not to participate. She sent the materials back with a note stating that she no longer wanted to receive questionnaires. No Age 73 data was entered.
