Project Code: JHOP0001
Project Name: A Survey of the Political and Foreign Policy Attitudes of Indian-Americans
Prepared for: Professor Devesh Kapur, Johns Hopkins University
Interviews: 1200
Field Period: September 02, 2020 - September 22, 2020
Project Manager: Ashley Grosse - 650.462.8016
==========

YouGov interviewed 1333 respondents who were then matched down to a sample of 1200 to produce the final dataset. The respondents were matched to a sampling frame on gender, age, race, and education. The frame was constructed by stratified sampling from the full 2018 American Community Survey (ACS) 1-year sample with selection within strata by weighted sampling with replacements (using the person weights on the public use file).

The matched cases were weighted to the sampling frame using propensity scores. The matched cases and the frame were combined and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender, race/ethnicity, years of education, and region. The propensity scores were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles.

The weights were then post-stratified on 2016 Presidential vote choice, and a four-way stratification of gender, age (4-categories), race (4-categories), and education (4-categories), to produce the final weight.
