Replication files for "THE EFFECTS OF AUTOCRATIC CHARACTERISTICS ON PUBLIC OPINION TOWARDS DEMOCRACY PROMOTION POLICIES: A CONJOINT ANALYSIS"

Abel Escribà-Folch[1]
Lala H. Muradova
Toni Rodon

9 April 2020

This document describes the files needed to reproduce the results reported in:

Escribà-Folch, Muradova, Lala; Rodon, Toni "The Effects of Autocratic Characteristics on Public Opinion Towards Democracy Promotion Policies: A Conjoint Analysis", *Foreign Policy Analysis*

The reproduction files are as follows:

1. 01_clean&stack.R: an R script file to clean and prepare the dataset for empirical analysis.
2. 02_analysis.R: the main R analysis file used to produce the results reported in the article.
3. 03_appendix.R: an R script file used to produce the results reported in the online appendix.
4. conjoint-data-stacked.rds: the dataset created by 01_stack&clean.R and used in 02_analysis.R
5. data_analysis.xlsx: the raw data file extracted from Prolific.
6. socio_dem.xlsx: the raw data file with data on participants' sociodemographic characteristics, in Excel format (extracted from Prolific).
7. replication_FPA.html: an html file created in Markdown that shows the reproduction of figures in the manuscript step by step.
