U.S. DEPARTMENT OF ENERGY | Energy Efficiency & Renewable Energy

ENERGY STAR® STATE APPLIANCE REBATE PROGRAM

As part of the American Recovery and Reinvestment Act of 2009, the U.S. Department of Energy is providing funding to states and territories to support consumer rebate programs for ENERGY STAR qualified appliances. Under these programs, consumers can receive rebates to purchase energy-efficient appliances when they replace used appliances. Eligibility guidelines, covered products, and rebate amounts differ by state, so consumers should review program requirements carefully.

OKLAHOMA

Oklahoma State Energy Office, Department of Commerce

REBATES AVAILABLE - PROGRAM CLOSED

Rebates began on May 5, 2010 and closed May 26, 2010 when funds were depleted. Before making a purchase, confirm funding and requirements with the program sponsor listed in the HOW TO APPLY section.

PROGRAM CLOSED

PRODUCT		REQUIREMENTS	AMOUNT
AIR CONDITIONERS	Central	ENERGY STAR qualified. Split systems must have a Seasonal Energy Efficiency Ratio (SEER) of at least 14.5, and an Energy Efficiency Ratio (EER) of at least 12. Single-package equipment must have a SEER of at least 14, and an EER at least 11.	$100
	Room	ENERGY STAR qualified.	$50
Clothes Washers		ENERGY STAR qualified.	$200
Furnaces (Gas)		ENERGY STAR qualified. Has an Annual Fuel Utilization Efficiency (AFUE) of at least 90%.	$100
HEAT PUMPS	Air-Source	ENERGY STAR qualified. Split systems must have a heating seasonal performance factor of at least 8.2, a Seasonal Energy Efficiency Ratio (SEER) of at least 14.5, and an Energy Efficiency Ratio (EER) of at least 12. Single-package equipment must have a heating seasonal performance factor of at least 8, a SEER of at least 14, and an EER of at least 11.	$250
	Ground-Source	ENERGY STAR qualified. Open loop systems must have a coefficient of performance of at least 3.6, and an Energy Efficiency Ratio (EER) of at least 16.2. Closed loop systems must have a coefficient of performance at least 3.3, and an EER of at least 14.1. Direct expansion (DX) systems must have a coefficient of performance of at least 3.5, and an EER of at least 15.	$250

continued >

Refrigerators		ENERGY STAR qualified.	$200
WATER HEATERS	Electric Heat Pump	ENERGY STAR qualified. Has an Energy Factor (EF) of at least 2.0.	$100
	Solar, Electric Backup	ENERGY STAR qualified. Has a Solar Fraction (SF) of at least 0.5.	$100

*Exceeds current ENERGY STAR criteria.

HOW TO APPLY

Beginning 9 a.m. Central Time on May 8, 2010, consumers could purchase qualifying appliances from participating Oklahoma retail stores. No advanced reservation was needed before going to the store—the retailer reserved the rebate for the consumer at point of sale to ensure that funds were available. To receive the rebate, consumers must provide proof of purchase and proof of removal of the old appliance, in addition to the rebate form with a unique ID number provided by the retailer at point of sale. Rebate forms must be postmarked by June 30, 2010. Rebate checks will be mailed to consumers within four to six weeks of submission. Consumers will have unique rebate ID numbers and will be able to check the status of their rebates via an online system anytime.

For more information: www.OKCommerce.gov/recovery

ELIGIBILITY

Limited to Oklahoma residents and military personnel with current Oklahoma addresses. Consumers must provide proof of haul away and disposal of old units. Maximum one rebate per product type and two rebates total per household. Online purchases are not eligible for rebates.
