ENERGY STAR® STATE APPLIANCE REBATE PROGRAM

As part of the American Recovery and Reinvestment Act of 2009, the U.S. Department of Energy is providing funding to states and territories to support consumer rebate programs for ENERGY STAR qualified appliances. Under these programs, consumers can receive rebates to purchase energy-efficient appliances when they replace used appliances. Eligibility guidelines, covered products, and rebate amounts differ by state, so consumers should review program requirements carefully.

ELIGIBILITY

Rebates were available to residential consumers in the State of Washington. Customers must replace existing appliances with new appliances. Installation by a licensed contractor was required for some products. Please visit the Web site for the complete list of program and installation requirements. Each Washington State household was eligible for one rebate per product category. Rebates were for purchases made from Washington State Retailers or where evidence of payment of Washington State Sales tax is provided (exceptions include purchases made at military exchanges located in Washington or for purchases made by tribal members with delivery to residences on tribal lands in Washington State). Rebates were not retroactive for appliances purchased before purchase dates specified above.
