1 Steps to Replicate

1. Download all files in this replication file into your working directory.
2. Open R and open the file POQ Replication Code.R
3. Run the R script, which will generate each figure and the values for each table in the order that they appear in the article.

2 Description of Included Files

File	Description
gss.csv	GSS polling data
fig6data.dta	Survey data for Figure 6
fig7data	Survey data for Figure 7
tab2data	Survey data for Table 2
POQ Replication Code.R	Code for all figures and tables
Codebook.pdf	Codebook for each dataset
README.pdf	This file.

3 Software

R version 4.2.2 was used to produce all figures and tables. The primary operating system used was Microsoft Windows 11.
