The enclosed data and code replicates all tables and figures in «**Left behind, but not immobile: Living arrangements of Mexican transnational households**» by Simone Bertoli, Elsa Gautrain and Elie Murard. Please cite this paper if you use this code.

All scripts may require modification of pathnames to match the user's file system.

1) Tables using the 2010 Mexican Census

replication_census2010.do is a Stata do-file (written for version 16) that reproduces the following tables: Table 1, Table 2, Table 3, and Table 6 as well as Table A.2 in the Appendix.

It uses the dataset **data_replication_census2010.dta**

2) Tables using the ENOE (Mexican Labor Force Survey)

replication_ENOE.do is a Stata do-file that reproduces Table 4 and Table 5 by using the dataset **ENOE_all_interviews.dta** and **ENOE_1stinterview.dta**

3) Tables using the ENDIREH 2016 survey

replication_ENDIREH.do is a Stata do-file that reproduces Table A.1 in the Appendix. It uses the dataset **ENDIREH2016_replication.dta**

4) Figures using the ACS dataset

replication_ACS.do is a Stata do-file that reproduces the figure A.1 and the figure A.2 in the Appendix. It uses the dataset **ACS_Mex_men.dta** and **ACS_Mex_women.dta**, as well as the aggregated dataset **Mexcensus_average_byage.dta** that provides the average co-residence status with children by age of Mexican women in the 2010 Mexican census.

The 2010 Mexican census, the ENOE and the ENDIREH 2016 surveys can be readily dowloaded on the webpage of the INEGI at https://www.inegi.org.mx/.
As to the ACS data, we have downloaded it from IPUMS USA at https://usa.ipums.org/usa/acs.shtml

For the details of the construction of the variables and of the final datasets, please see the published manuscript. For further details and questions, please do not hesitate to contact the authors.
