This document describes the replication files associated with the paper:
"Why Do Citizens Prefer High-Skilled Immigrants to Low-Skilled Immigrants? Identifying Causal Mechanisms of Immigration Preferences with a Survey Experiment."
Research and Politics

The following files are contained herein:
replication_data.csv (data collected through the main survey experiment)
additional_data.csv (data collected through the additional survey experiment)
replication_code.R (R code for replication)
replication_log.html (output of the analyses)
explanatory_memo.pdf (explanation of variables and software information)

Instructions:
1. Put replication_data.csv and additional_data.csv in your working directory.
2. Run replication_code.R.

If you have any questions or concerns with the files, please feel free to contact the authors.
