Replication Data Files for "Media Coverage of the Senate Filibuster and Its Effects on Public Opinion"

1) FBmedia.dta contains media coding data for cloture-vote coverage in the 102nd-112th Congresses.
2) FBmedia_congress_pcts.dta contains summary information by Congress on filibuster detail in media coverage. This data set is used for generating Figure 1 in the text. See the media replication do file for details on this data.
3) FBmedia_replication.do contains Stata code necessary for generating Figures 1-3, and Figure A1 and Tables A1-A3 in the online appendix.
4) FBsurvey.dta contains original survey variables from the October 2022 YouGov survey described in the article.
5) FBsurvey_replication.do contains the Stata code necessary to generate the variables from the survey results as used in the analysis, and the code necessary to generate Figures 4-9 and Tables 3-4 in the text, as well as Figures A2-A5 and Tables A5-A6 in the online appendix.
