Project Code: WASU0003
Project Name: Empathizing/Systematizing Study
Prepared for: Jacob Montgomery and Erin Rossiter
Interviews: 1500
Field Period:  June 07, 2018 - June 27, 2018
Project Manager: Ashley Grosse  - 650.462.80
================================================================================
YouGov interviewed 1722 respondents who were then matched down to a
sample of 1500 to produce the final dataset. The respondents were
matched to a sampling frame on gender, age, race, and education. The
frame was constructed by stratified sampling from the full 2016 American
Community Survey (ACS) 1-year sample with selection within strata by weighted
sampling with replacements (using the person weights on the public use
file).

The matched cases were weighted to the sampling frame using propensity
scores. The matched cases and the frame were combined and a logistic
regression was estimated for inclusion in the frame. The propensity
score function included age, gender, race/ethnicity, years of education,
and region. The propensity scores were grouped into deciles of the
estimated propensity score in the frame and post-stratified according to
these deciles.

The weights were then post-stratified on 2016 Presidential vote choice, and
a four-way stratification of gender, age (4-categories), race (4-
categories), and education (4-categories), to produce the final weight.

EQ_1                            Agree/Disagree: I can easily tell if someone else
                                wants to enter a conversation
EQ_2                            Agree/Disagree: I find it difficult to explain to
                                others things that I understand easily, when they
                                don't understand it the first time
EQ_3                            Agree/Disagree: I really enjoy caring for other
                                people
EQ_4                            Agree/Disagree: I find it hard to know what to do
                                in a social situation
EQ_5                            Agree/Disagree: People often tell me that I went
                                too far in driving my point home in a discussion
EQ_6                            Agree/Disagree: It doesn't bother me too much if
                                I am late meeting a friend
EQ_7                            Agree/Disagree: Friendships and relationships are
                                just too difficult, so I tend not to bother with
                                them
EQ_8                            Agree/Disagree: I often find it difficult to
                                judge if something is rude or polite
EQ_9                            Agree/Disagree: In a conversation, I tend to
                                focus on my own thoughts rather than on what my
                                listener might be thinking
EQ_10                           Agree/Disagree: When I was a child, I enjoyed
                                cutting up worms to see what would happen
EQ_11                           Agree/Disagree: I can pick up quickly if someone
                                says one thing but means another
EQ_12                           Agree/Disagree: It is hard for me to see why some
                                things upset people so much
EQ_13                           Agree/Disagree: I find it easy to put myself in
                                somebody else's shoes
EQ_14                           Agree/Disagree: I am good at predicting how
                                someone will feel
EQ_15                           Agree/Disagree: I am quick to spot when someone
                                in a group is feeling awkward or uncomfortable
EQ_16                           Agree/Disagree: If I say something that someone
                                else is offended by, I think that that's their
                                problem, not mine
```
