Readme

This folder contains all relevant datasets, codebooks, and do-files used for the replication of "Can Citizen Pressure Be Induced to Improve Public Service Provision?" by Pia Raffler, Daniel Posner, and Doug Parkerson.

Folder structure

The **1.Code and Codebooks** folder contains the do file generating the analysis, along with codebooks (one per dataset). It will outsheet all figures and tables in order of their appearance in the .pdf.

The **2.Datasets** folder contains the datasets used by the analysis do file. The main dataset is titled "chp_el_light_dataset.dta".

The **3.Tables and Figures** folder contains two folders with tables and figures generated by the analysis. Figures are in .png while Tables are outsheeted in .tex format.

The **4.Logs** folder contains the logs generated while running the analysis do file.
