ADULT INFORMED CONSENT FOR SURVEY

You are being invited to participate in a research study of the effects of reintegrating/reunifying with families for the child(ren), after living in an institution. You were selected as a participant because Changing the Way We Care, through one of its partners has been supporting your family - CCF (Child, Community, Family), P4EC (Partnership for every child) or Keystone.

You have been selected to participate in the statistical study ”Household Survey in the Republic of Moldova on the outcomes of reintegration and transition to family-based alternatives”. This survey aims to gather information about families with children reintegrating from residential care. This data will help build an understanding of how family reintegration affects families in order for professionals in Moldova to make appropriate decisions in the future. Additionally, the survey will produce valuable results for reporting in the Changing the Way We Care project, which will be combined with data collected from other countries, to inform global efforts to provide quality care and support to children and families.

The study is conducted by Magenta Consulting SRL and coordinated by Changing the Way We Care.

Participation in the study involves an approximately one-hour interview, during which the interviewer will ask you a series of questions and record your answers. If you choose not to answer certain questions, you have the freedom to do so. At any point during the discussion, you have the option to withdraw, and at the end of the interview, we will ask again if you agree to include in the study the information you have provided. The provided answers will be strictly confidential and will be used solely for scientific purposes by authorized researchers and professionals. However, if we believe that you or your child is in danger, we must share this information with the proper authorities. Personal data will be excluded from the data set to ensure confidentiality. We may share your research data with other researchers, but it will not contain information that could directly identify you.

The research will not expose you to any physical, psychological, legal, or social risks. If you experience any emotional or physical discomfort during the interview, you have the right to refuse to participate in the study or any part of it.

Your participation in this study is voluntary, and you have the right to withdraw from the research at any time.

If you have any queries about the survey please contact:

Magenta Consulting – Surdu Mircea, phone number: 078 88 11 20
