Informed Consent

CONSENT FORM

I agree to take part in this study on emotional and cognitive capabilities in daily life, which involves completing a **40 minute survey.**

The benefits that I may expect from the study are:

(a) financial compensation of $3

(b) an opportunity to contribute to scientific research

The questions posed to participants in the survey are minimally invasive and pertain to thoughts and feelings that I may commonly experience in daily life. I may choose to skip questions that I do not feel comfortable answering. I can withdraw from the study at any time and still receive compensation for the works that I have completed up to that point. If I wish to withdraw my responses from this study at any time, I will contact Chong He (Chong.He16@mail.rotman.utoronto.ca), and the researchers will discard my responses immediately. In addition, I can withdraw my responses even after completing the study. If I choose to withdraw, my data will be destroyed and not used by the researchers.

I realize my data will be treated in a secure manner, and that this web site will not covertly collect any information that could identify me (such as machine identifiers). Furthermore, I am aware that every effort will be made to ensure confidentiality of any information that is obtained in connection with this study. I will be asked to provide my Turk Prime ID on each of the surveys I will complete to enable the matching of my responses on the different surveys. My Turk Prime ID will be converted to a code number after all data have been matched and before data analyses. After any identifying information is removed, the researchers may post the dataset on research database sites for reviewers or colleagues to verify the analyses.

I understand that I may contact the principal investigator, Stéphane Côté, (Tel: 416-978-5704; Email: scote@rotman.utoronto.ca) or the University of Toronto's Ethics Review

office (Tel: 416-946-3273; email: ethics.review@utoronto.ca) if I have any concerns or questions about my involvement in the study.

Upon completion of my participation, I will receive a full written explanation about the purpose of this research. The research study I am participating in may be reviewed for quality assurance to make sure that the required laws and guidelines are followed. If chosen, (a) representative(s) of the Human Research Ethics Program (HREP) may access study-related data and/or consent materials as part of the review. All information accessed by the HREP will be upheld to the same level of confidentiality that has been stated by the research team.

I have read the information letter and the consent form and understand that participation in this study is completely confidential and voluntary.

- ○ No

Cognitive Task

PLEASE READ THESE INSTRUCTIONS.

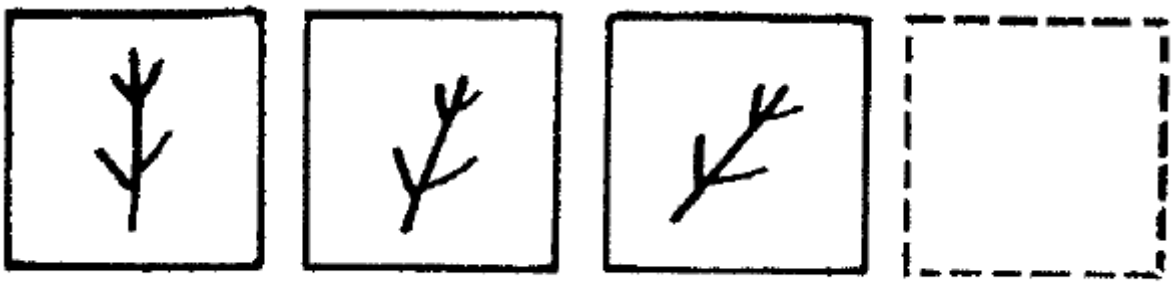
In the following task you will complete a cognitive task. The task is divided into **four tests** which are like different games or puzzles. There are no words in them -- only drawings. Each of the tests has some examples for you to practice on so that you can see how to do it.

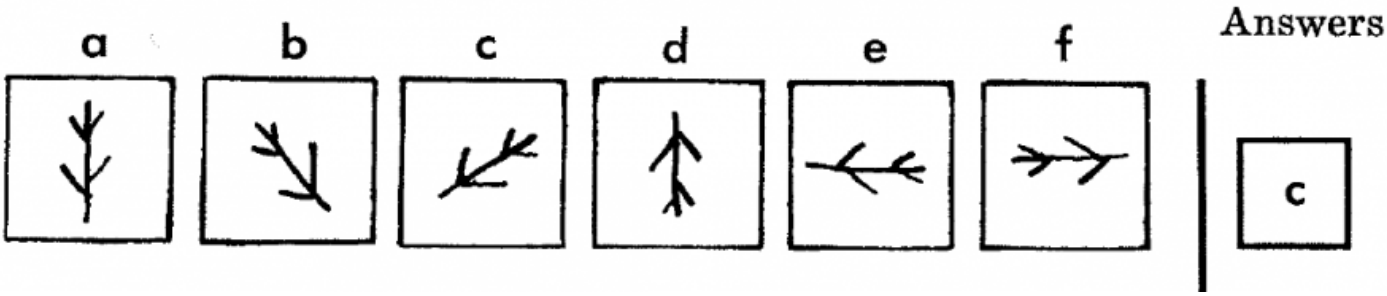
Some of the questions at the end of each test may be quite hard to do, but **try as many as you can**. Even when you're not sure mark the answer you think might be right, rather than none. It's perfectly alright to guess if you don't know the answer. You don't lose points for wrong guesses, and you might guess right.

In the first test, you will be asked to indicate **what image best fits the missing piece** in the question. You will be given **2.5 minutes** to complete the first test.

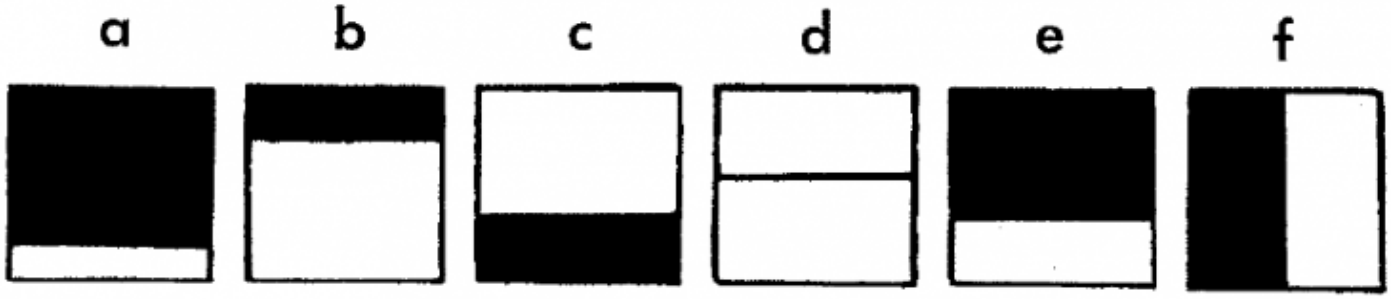
You will first be shown an example question, followed by two practice questions.

Example Question



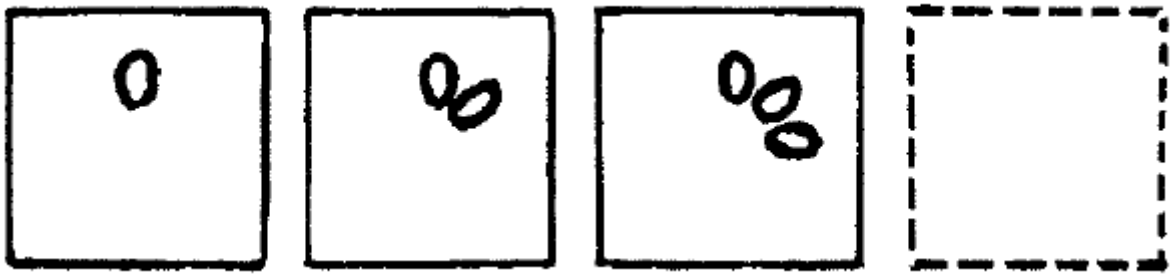


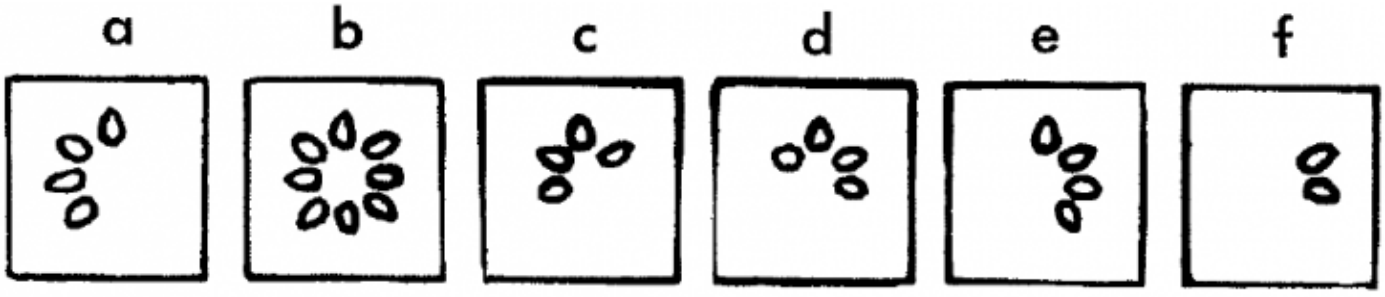
Practice Question 1



a b c d e f

Practice Question 2





a b c d e f

You have just completed the example and practice questions for Test 1.

In the following page, you will complete the real test. All the questions for Test 1 will appear on this page, and you can scroll down the screen to see all of them. Please click

on what you think is the correct answer for each question. Some of the questions at the end of each test may be quite hard to do, but **try as many as you can**.

Again, in the first test, you will be asked to indicate **what image best fits the missing piece** in the question. You will be given **2.5 minutes** to complete Test 1.

Please press the next arrow to move on to the real test.

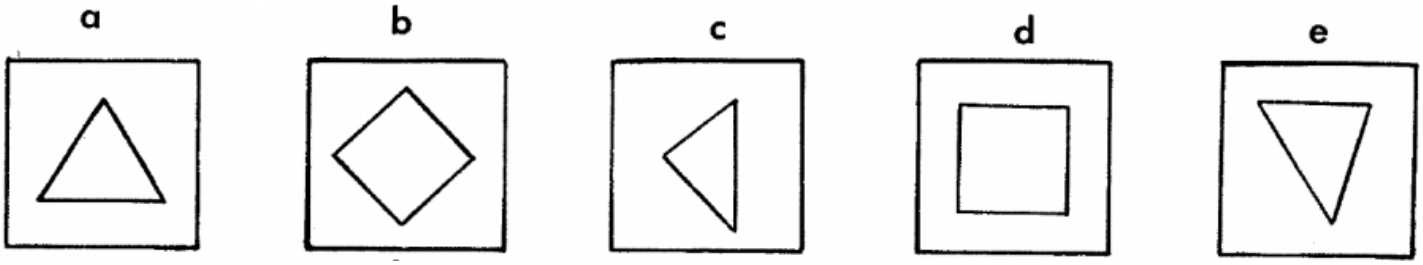
You have just completed Test 1.

Press the button to proceed to Test 2. In this test, three of the boxes in each example have shapes that are alike in some way, but the other two are different from these two. In each row, you are to **find the two boxes that are different from the others**. When you have found them, indicate the **TWO** boxes that are different from the others.

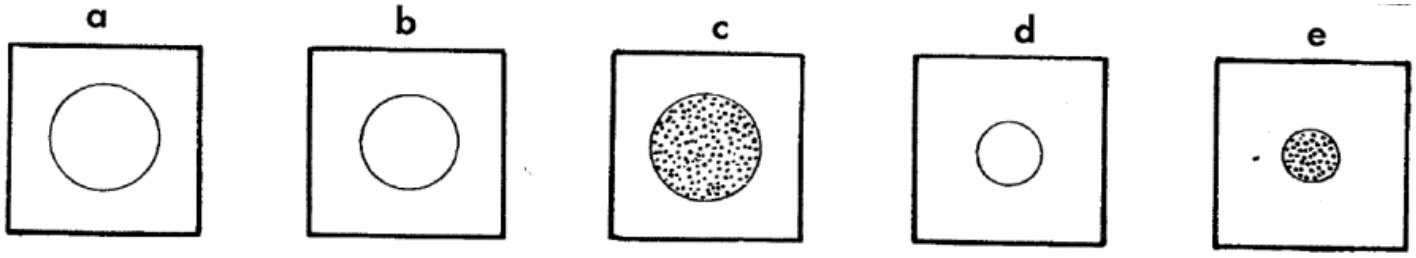
You will first see one example question and one practice question.

Example Question



Which two items do not fit with the other three items?

Practice Question



Which two items do not fit with the other three items?

a	b	c	d	e
☐	☐	☐	☐	☐

You have just completed the example and practice questions for Test 2.

In the following page, you will complete the real test. All the questions for Test 2 will appear on this page, and you can scroll down the screen to see all of them. Please click on what you think is the correct answer for each question. Some of the questions at the end of each test may be quite hard to do, but **try as many as you can**.

Again, in the second test, you will be asked to indicate **the two boxes that are different from the other three**. You will be given **4 minutes** to complete Test 2.

Please press the next arrow to move on to the real test.

You have just completed Test 2.

Press the button to proceed to Test 3. In this test, in the large square there are four little boxes. Three of the boxes have drawings in them, but the drawing for the other square is missing. One of the boxes in the row at the bottom fits correctly in the empty box. Please choose the right one and select the answer.

You will first see one example question and two practice questions.

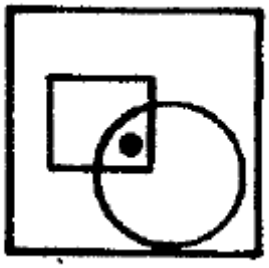
You have just completed Test 3.

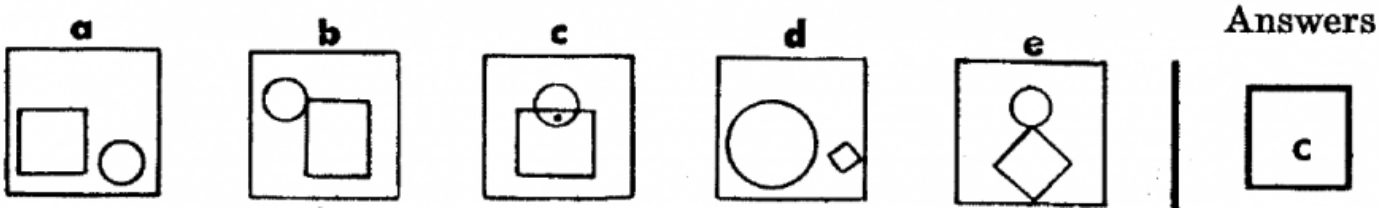
Press the button to proceed to Test 4. You will first see instructions, followed by an example question and two practice questions.

Example Question

PLEASE READ THESE INSTRUCTIONS.

In the separate box of this first example, there is a dot in ***both*** **the circle** ***and*** **the square**. In the answers, you must find a drawing where you could put one dot, again, in ***both*** **the circle** ***and*** **the square**. **C** is the correct answer here.

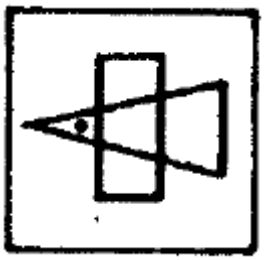


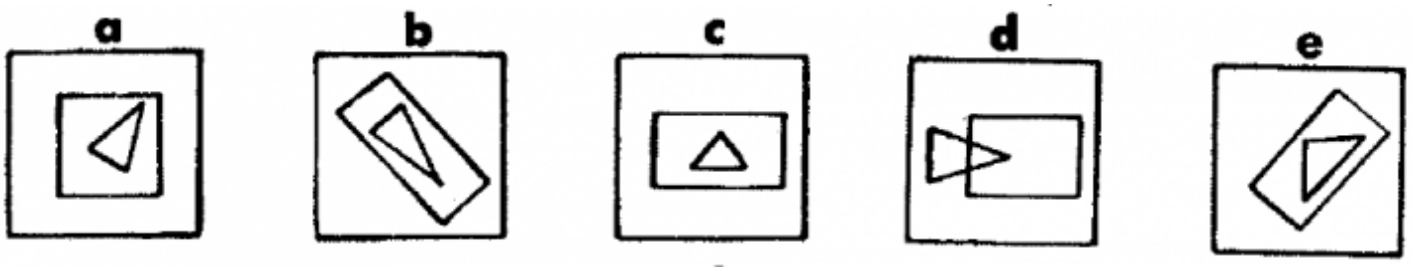


Practice Question 1

PLEASE READ THESE INSTRUCTIONS.

In the separate box of this second example, the dot is **inside the triangle but outside the rectangle**. In the answers, you must find a drawing where you could put one dot, again, where it will be **inside the triangle but outside the rectangle**. **D** is the correct answer here.



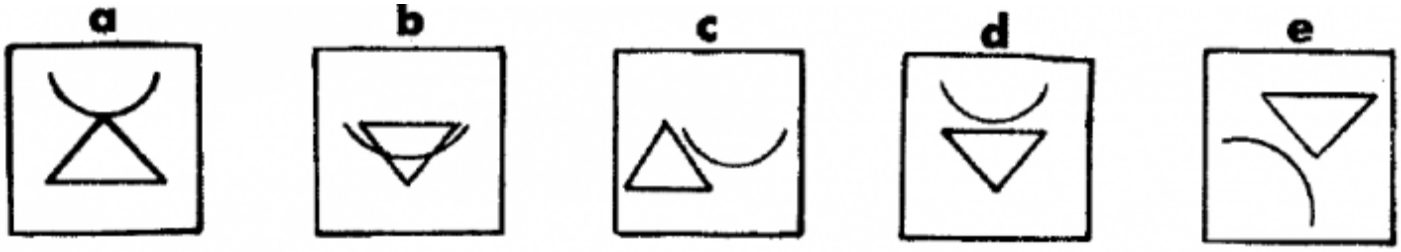


a b c d e

Practice Question 2

PLEASE READ THESE INSTRUCTIONS.

In the separate box of this third example, there is a dot **inside the triangle and above the curved line**. In the answers, you must find a drawing where you could put one dot, again, where it will be **inside the triangle and above the curved line**. **B** is the correct answer here.



a b c d e

You have just completed the example and practice questions for Test 4.

In the following page, you will complete the real test. All the questions for Test 4 will appear on this page, and you can scroll down the screen to see all of them. Please click on what you think is the correct answer for each question. Some of the questions at the end of each test may be quite hard to do, but **try as many as you can**.

You will be given **2.5 minutes** to complete Test 4.

Self-Assessment of Cognitive Ability

In the previous section, you were asked to complete 50 questions that measured your cognitive ability. How many questions do you believe you answered correctly? Choose a number between 0 and 50 that you believe is the number of question that you accurately answered.

Emotion Task - 60%

In the following task, you will be shown a series of 72 photographs. Each of the 72 photographs will appear for 2 seconds. After 2 seconds, the photograph will disappear, and you will be asked to indicate what emotion the person in the photograph was expressing.

On the next page, you will first be shown an **example** of a photograph and the response scale.
