Fwd: Kobarah | New Colors Drop Today

Jessica Bray <jlb11@rice.edu> Wed, May 18, 2022 at 11:02 AM
To: Katie Ulrich <kmu@rice.edu>

For your sugarcane records!

Designed for Circularity

To reduce our dependence on virgin plastic, our Kobarah is made from a single piece of molded XL EXTRALIGHT® Organix™ with 30% bio-based sugarcane EVA, making it fully recyclable at the end of its life.

Reduced components and a simplified manufacturing process ensure production waste and energy consumption are kept to a minimum, promoting a more holistic and circular approach to shoemaking.

All the best,
Jessica Lauren Bray
Pronouns: she, her, hers
Ph.D. Candidate, Department of Anthropology, Rice University

Please know that I respect boundaries around personal time, well-being, caretaking, and rest. Should you receive correspondence from me during a time that you're engaging in any of the above, please feel free to protect your time and wait to respond when you are next engaged in intentional work.
