Dear Dr. Schiff:

The Institutional Review Board (IRB) has carefully considered **amendment # 2** for protocol **H21005** referenced above. Your determination is effective as of **April 21, 2021**. The proposed procedures are exempt from further review by the Georgia Tech Institutional Review Board.

> ***Minimal risk research continues to qualify for exemption status under 45 CFR 46 104d.CATEGORY 2.***
> ***Amendment #2: increasing enrollment number to 2500.***

Thank you for allowing us the opportunity to review your plans. If any complaints or other evidence of risk should occur, or if there is a significant change in the plans, the IRB must be notified.

If you have any questions concerning this determination or regulations governing human subject activities, please contact me at 404.385.2175.

Sincerely,

Kelly Winn
