FALL 1980 ELEMENTARY AND SECONDARY SCHOOL CIVIL RIGHTS SURVEY

FILE DOCUMENTATION

I. INTRODUCTION

This documentation is designed to accompany the Fall 1980 Elementary and Secondary School Civil Rights Survey computer file as prepared by Opportunity Systems Incorporated and DBS Corporation under contract number 300-80-0739. A review of this documentation, prior to use of the file, should ensure minimal difficulty in obtaining accurate data.

The Fall 1980 Survey requested data from approximately 5,000 school districts and 51,000 individual schools. The file reflects the most accurate data obtainable from the respondents. However, for many reasons, some incomplete or inaccurate data items remain on the file. All of these problems have been noted on the file through use of an edit code system. This system will be discussed at length in the documentation.

For those users who are unfamiliar with the Elementary and Secondary School Civil Rights Survey, the following brief synopsis of the Survey history is provided.

The Elementary and Secondary School Civil Rights Surveys are conducted by OCR to fulfill its responsibilities under Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973. The survey has been conducted, on a national basis, since the 1967-1968 school year. It was conducted annually until the 1974-1975 school year. Beginning in 1976, it became a biennial survey.

Over the years, the survey underwent considerable changes in scope, coverage, content, and methodology. These changes reflected the expansion of OCR's responsibility as well as shifts in the civil rights issues of national concern. Initially the primary focus of the survey was to identify racially dual systems with an emphasis in the rural South. Since then, the scope of the survey has broadened to include discrimination on the basis of sex or handicap and to address such "second generation" problems as discriminatory discipline practices, tracking and ability grouping, student assignments within schools, etc.

The primary purpose of the survey is to collect data that can assist OCR in identifying school systems with potential problems. The survey, therefore, collects data which may be used, in conjunction with input from OCR regional staff, to select districts for on-site reviews. The data might also be used for a variety of other activities including:

- Pre-grant reviews: Up until recently, ESAA grant applications were reviewed and approved by OCR prior to funding. The survey provided data necessary for the initial analysis of eligibility under ESAA regulations.

- Complaint handling: OCR is mandated to focus considerable effort on responding to complaints. The survey data provides regional personnel with a "quick look" at schools which are the subject of a complaint.

- Litigation support: While survey data alone is not used to establish non-compliance, it may be used to support findings of OCR field investigators conducting on-site reviews. The data may, therefore, be used to support litigation activities resulting from on-site reviews.

- Policy analysis: The survey data may be used to assist OCR personnel in identifying those areas of the educational process which should be addressed by future policy statements.

- Research: The data collected by this survey may also be analyzed to provide OCR with information enabling them to redefine their data requirements.

The 1980 survey is the second in a series of three survey years (1978, 1980, 1982) using a rolling sample methodology. The survey methodology, designed for the 1978 survey, defined three categories of districts:

- Forced districts (ESAA districts, districts under court order, OCR high interest, etc.)

- A statistical sample of districts which provides valid sate and national projections

- A rolling sample which ensures that every district with an erollment of at least 300 will be surveyed at least once within the cycle.

Each sampled district was to complete a School System Summary Report (Form AS/CR 101). Each school within a sampled district was to complete an Individual School Report (Form AS/CR 102). Copies of both forms are presented in Appendix A.

II. TECHNICAL SPECIFICATIONS FOR USING THE FILE

The Fall 1980 Elementary and Secondary School Civil Rights Survey data is stored on a sequential file. The file was created using the DBS3A database maintenance system.

Every effort was made to obtain accurate, complete data from all schools. Some errors and inconsistencies do, however, remain and are indicated on the file by "edit flags".

The remainder of this section is divided into five sections:

A. File Structure - describing the contents of a record, the sort of the file, etc.

B. File Access - describing FORTRAN code required to read and use the file

C. Error Detection - describing the "error flags" and their use

D. Data projection - describing the method used to obtain state, regional and national projections

E. Summary Statistics - including number of records on file, JCL parameters required, etc.

A. File Structure

There are two record types in the file. The first is a district record which contains both the data from the AS/CR Form 101 and the associated error flags. The second is a school record which contains data from the AS/CR Form 102 and associated error flags.

The records are sorted in ascending order on district OE (Office of Education) code and school OE code within districts. The district OE code is a seven digit code, the first two digits of which are the state OE code. Exhibit A is a list of state OE codes. The last five digits uniquely identify each school district within a state. The district code within a state provides an approximate alphabetical order for district names. The school OE code is a one to five digit code which uniquely identifies each school within a district.

Data elements within the record are identified by a slot or word number. In general, a data element may take more than one slot. In particular, an alphanumeric data field may take several slots - e.g., the district name takes 8 slots. This results from the fact that one slot corresponds to one computer word and may therefore contain:

- An integer number (e.g., 1,7765, 7611523)
- A real number (e.g., 0.001, 7.6, 391.25, etc.)
- Any four alphanumeric characters (e.g., ABCD, AB2C, etc.).

Exhibit A

List of Office of Education (OE) State Codes

OE STATE NUMBER	STATE NAME	OE STATE NUMBER	STATE NAME
10	Alabama	35	Missouri
11	Alaska	36	Montana
12	Arizona	37	Nebraska
13	Arkansas	38	Nevada
14	California	39	New Hampshire
15	Colorado	40	New Jersey
16	Connecticut	41	New Mexico
17	Delaware	42	New York
18	District of Columbia	43	North Carolina
19	Florida	44	North Dakota
20	Georgia	45	Ohio
21	Hawaii	46	Oklahoma
22	Idaho	47	Oregon
23	Illinois	48	Pennsylvania
24	Indiana	49	Rhode Island
25	Iowa	50	South Carolina
26	Kansas	51	South Dakota
27	Kentucky	52	Tennessee
28	Louisiana	53	Texas
29	Maine	54	Utah
30	Maryland	55	Vermont
31	Massachusetts	56	Virginia
32	Michigan	57	Washington
33	Minnesota	58	West Virginia
34	Mississippi	59	Wisconsin
		60	Wyoming

The directory, given in Appendix B, describes the contents of each slot or word and indicates the corresponding item number from the survey form. In addition, for numeric data fields, the directory indicates:

- the number of non-zero responses

- the minimum (non-zero) and maximum value of the data field

- the total value of the data field when summed over all records.

Referring to Appendix B, the directory indicates that slot 47 of the district record contains the number of American Indians enrolled, as reported in Item 7.A of the AS/CR 101 form. There were 2,981 districts reporting non-zero American Indians enrolled. The number of American Indians in these districts ranged between 1 and 8,742. The total American Indian enrollment in these districts was 199,155.

B. File Access

As previously mentioned, the data is stored in a sequential file. Each record on the file contains all the information pertaining to one district or school. A record is identified as a district or school record by the contents of slot 2. A zero in slot 2, indicates a district record, non-zero indicates a school record.

Records may be easily accessed using a FORTRAN unformatted read. Exhibit B shows the FORTRAN code needed to read the file. Referring to Exhibit B, IVAL is the array into which each record is read. (Notice that IVAL is dimensioned to 660 which corresponds to the number of "slots" identified in Appendix B - Directory.) Whenever the READ statement is encountered, another record will be entered into the array. The data for a single record may now be processed by inserting the appropriate code in the section labelled "PROCESS DATA." To address a particular data element, simply subscript IVAL with the slot number, given in Appendix B, for the data element of interest. For example, if one wishes to examine only district records and print district name and minority enrollment, one would refer to Appendix B to determine:

Slots 3-11 = District name

Slot 47 = American Indian enrollment

Slot 48 = Asian enrollment

Slot 49 = Hispanic enrollment

Slot 50 = Black enrollment.

The following code might then be inserted in the section of code labelled "PROCESS DATA:"

```
IF (IVAL(2).NE.0) GO TO 1
```

EXHIBIT B
Sample FORTRAN Program to Access Survey File

```
                                    Comments
      DIMENSION IVAL  (660)         Array into which data are read
      .
      .
      .
    1 READ (10,END=500) IVAL        Read one record
      .
      .
      .
      .
C     PROCESS DATA                  User code to process one record
      .
      .
      .
      .
      GO TO 1                       Return to read next record
  500 CONTINUE                      Come here at end of file
      .
      .
      .
      .
C     WRAP UP PROCESSING            User code for end of file processing
      .                             if required
      .
      .
      .
      STOP
      END
```

```
      IMIN = IVAL(47) + IVAL(48) + IVAL(49) + IVAL(50)

      PRINT 101 (IVAL(I), I=3,11), IMIN

  101 FORMAT (1X,8A4,I10)
```

After processing all data, control of the program will go to 500. At this point any wrap-up processing, such as the printing of accumulated state or national totals, would be performed.

C. Error Detection

A total of 362 edit checks were defined for the processing of the Fall 1980 Elementary and Secondary School Civil Rights Survey. These edit checks are listed in Appendix C. A computer program was then used to make the checks on each record. Each time a data item failed to pass an edit check, a separate edit flag was turned "on". Respondents were then contacted to resolve the problems indicated by the edit flags.

It should be noted that failure to pass an edit check did not necessarily mean the data was wrong. Rather, many edit flags indicated possible data problems which warrented contact with respondent for clarification. In many cases, an apparent data inconsistency did, in fact, represent a true, existing situation. For example:

- For a given ethnicity, data indicated that the number of pupils receiving corporal punishment or suspended was greater than the number of pupils enrolled. This seemingly inconsistent data was due to the fact that discipline data referred to the previous year while enrollment data referred to the current year.

- Some schools reported zero enrollment. Upon investigation, it was determined that these schools were vocational programs having no indigenous enrollment. Students attending these schools also attended their home or sending school and were included in the enrollment figure reported by these base schools.

- Some schools reporting no classroom or pupil assignment data were determined to be homebound or hospital school programs.

Wherever possible, such apparent inconsistencies are explained in a comment field found on the file. The comment field is in slots 643-660 (see Appendix B).

In other cases, respondents either could not or would not provide corrections to erroneous or incomplete data fields. For example:

- Many schools surveyed from Massachusetts did not report data for Special Education Programs (Item 8) in the format requested on Form OS/CR 102. Special Education Programs on Massachusetts districts are largely not categorized according to the exceptionalities used on the 102 forms, hence their inabilty to respond in the requested

format.

- St. Louis (Missouri) School Districts experienced difficulty in reporting special education data with consistency because of the interface with the Special School District of St. Louis County. Some districts in St. Louis County reported all of their special education students as "Attending Elsewhere" (the Special School District), some report all special education pupils as serviced by the reporting district, and other districts have reported in a manner combining both methods.

- Los Angeles Unified School District (California) reported 190 data for Pupil Enrollment, and 1979 data for Special Education, leading to many conflicts between the data in these two items. Item 7 data conflict with Pupil Enrollment data by ethnicity as "...the result of visual identities taken by two independent faculty members." Enrollment in physical education classes conflicts with Pupil Enrollment due to duplication of registration and duplicate counts resulting from team teaching classes.

- Albuquerque Public Schools (New Mexico) consistently did not report the "Number of Accessible Classrooms" and did not provide race and sex breakdown in the required format for the "Emotionally Disturbed" and "Learning Disability" data items.

- Philadephia Public Schools (Pennsylvania) was unable to report grade equivalents for Special Education classes and Special Education Schools.

Exhibit C lists those districts having numerous or severe data problems which could not be resolved.

Finally, the user should keep in mind that the survey form is a legal document which cannot be changed without authorization from the respondent. Hence, even apparently simple arithmetic errors could not be corrected without authorization.

To detect which edit flags remain "on" for a given district or school record, it is first necessary to reference the Edit Check Directory given in Appendix C. In this directory, each edit check is assigned a unique number. The edit check number is followed by the item number of the survey question involved, the slot numbers involved, and a definition of the check being made. If the check detected an error, the associated edit flag was turned "on."

The edit flags are stored in a bit array, i.e., each edit check number corresponds to a single bit in a group of computer words. If the edit flag is "on" the bit is set to 1, if the error is "off" the bit is 0.

For example, if edit checks 3, 6, 8 are "on," the first word in the edit bit array would be as follows:

Exhibit C

Districts for Which Full Correction Unobtainable

01	Bering Strait, REAA	AK		1100020

Bits: 1 2 3 4 5 6 7 8 9 10 . . .

Value: 0 0 1 0 0 1 0 1 0 0 . . .

To determine if an edit flag is on, a special computer routine is necessary. Exhibit D is a listing of a FORTRAN subroutine ERRON which enables the user to determine if an edit flag is "on." Subroutine ERRON must be first initialized using the statement:

CALL INITEO (IVAL, ISTART)

where:

IVAL is the array containing the data

ISTART is the first word in the edit bit array (for this file ISTART = 489)

After initialization, ERRON is used to determine error flag status by the statement:

CALL ERRON (IERRON, ION)

where:

IERROR is the edit check number

ION is the flag which indicates error on or off
if ION = 1 edit flag is on
if ION = 0, edit flag is off.

Exhibit E is a listing of a sample program using both INITEO and ERRON.

Somewhat related to error flags are the condition codes contained in slots 521-642. For each data field, the associated condition code indicates whether input received was:

0 - blank or never entered
1 - valid data type (e.g., numeric data in field defined as numeric)
2 - invalid data type (e.g. alpha data in field defined as numeric).

For ease of processing, blank (0) and invalid (2) numeric data submissions were converted to zeros. Hence, the condition codes are used when it is necessary to distinguish between zero and blank or invalid data.

To access the condition codes, the user must invoke the function CCODE, listed in Exhibit F. The format of this function is:

CCODE (IVAL(ISTART), ISLOT)

EXHIBIT D

```

Exhibit F

Function Used to Access Condition Codes

```
FUNCTION CCODE(BYTE,NUM)
LOGICAL *1 BYTE(1),HOLD1 (4)
INTEGER HOLD
EQUIVALENCE (HOLD,HOLD1 (1))
DATA HOLD/0/
HOLD1 (4) =BYTE(NUM)
CCODE=HOLD
RETURN
END
```

where: IVAL = data array

ISTART = beginning slot number of condition codes (521 for this file)

ISLOT = slot number of data field of interest

The function returns a value of 0, 1, or 2 corresponding to the condition code for the specified data field.

D. Data projections

As stated previously, the sampling methodology for the 1980 survey defined three categories of districts:

- Forced districts
- A rolling sample of districts which ensures that each district (with enrollment over 300) is surveyed at least once within the three survey year cycle
- A statistical sample of districts designed to augment the above categories and thus provide state and national projections.

The forced districts included those applying for funds under the Emergency School Aid Act (ESAA) and those identified, on the basis of 1978 survey data, as having potential civil rights problems. In general, forced districts carry a sampling weight of one. The one exception is ESAA districts that would not otherwise been included in the survey (because they enroll less than 300 students or are a special district). Such districts as well as those that applied for ESAA funds after the sample was drawn, were assigned a sample weight of zero.

The two remaining categories of districts where then drawn by stratifying the remaining districts by:

- 1978 survey status (in or out of 1978 survey)
- state
- enrollment.

The first strata, 1978 survey status, enabled one to increase the selection probability of a district not previously surveyed relative to a district previously surveyed, and thereby implement the rolling sample requirement. A more detailed description of the samp;ling methodology is given in Sample Selection for the 1980 Elementary and Secondary School Civil Rights Survey by Killalea Associates, Inc. (June, 1980).

Once a district was selected for the survey, every school in the district was also surveyed. Hence, the sampling weight for the school is the same as the sampling weight for the district.

Survey data may be projected to the state, regional, or national level. All projections are to the universe of districts with enrollments of 300 or more. To project survey data, simply multiply the data elements of interest by the district sampling weight (IVAL slot 65) and aggregate to the desired level.

To obtain an estimate of the variance associated with a projected data element X, the following equation may be applied:

$$VAR(X) = {}_{s} X_j^2 W_j(W_j-1)$$

where:

s is all sampled districts

X_j^2 is the value of X in the jth sampled district

W_j is the sampling weight of the jth district.

Ideally, the variance should be computed for each strata. However, the file used to generate the sample was not maintained and stratification codes are therefore not available. The above method of computing variance will provide a slight overestimate of the actual variance.

E. Statistics

The following is a summary of some of the statistics of the 1980 Elementary and Secondary School Civil Rights Survey:

- Number of district records on file: 5,058
- Number of school records on file: 51,176
- Maximum IVAL slot number currently used: 660
- Number of edit checks: 362
- Data Set Name (DSN): OCR.ELSEC80.DATABASE
- DCB subparameters: RECFM = VBS
  LRECL = 2,644
  BLKSIZE = 10,580

The tape is a 6250 BPI IBM standard label.

APPENDIX A

1980 ELEMENTARY AND SECONDARY SCHOOLS

CIVIL RIGHTS SURVEY FORMS

(AS/CR 101 AND AS/CR 102)

Reporting Requirement

This report is required by the U.S. Department of Education pursuant to Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and under Section 504 of the Rehabilitation Act of 1973. Section 80.6(b) of HEW Regulations (45 CFR 80) issued to carry out the purposes of Title VI of the Civil Rights Act of 1964 provides:

Compliance Reports. Each recipient shall keep such records and submit to the responsible Department official or his designee timely, complete and accurate compliance reports at such times, and in such form and containing such information as the responsible Department official or his designee may determine to be necessary to enable him to ascertain whether the recipient has complied or is complying with this Regulation.

Form Approved
FEDAC R 168
Approval Expires 6/81

General Instructions and Definitions

Fall 1980 Elementary and Secondary School Civil Rights Survey
SCHOOL SYSTEM SUMMARY REPORT: Form AS/CR 101

Office for Civil Rights
U.S. Department of Education
Washington, D. C. 20202

Due October 15, 1980

GENERAL INSTRUCTIONS

- Please use a typewriter or print legibly in ink.
- Pupil membership should be reported as of October 1, 1980 or the nearest convenient date prior to October 1, 1980.
- If the answer for a given item is "none," enter "0" in the appropriate space or in the total column only in the case of a matrix. If a particular item is not applicable in your case, enter "N/A" (not applicable) in the appropriate space or in the total column only in the case of a matrix.
- Please complete items 1 and 2 only if the label is incorrect.

DEFINITIONS

SCHOOL: For the purposes of this report, a school is a division of the school system consisting of students comprising one or more grade groups or other identifiable groups, organized as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant of one or more buildings. More than one school may be housed in one school plant, as is the case when the elementary and secondary schools are housed in the same plant.

RACIAL/ETHNIC CATEGORIES: Racial/ethnic designations, as used by the U.S. Department of Education, Office for Civil Rights, do NOT denote scientific definitions of anthropological origins. For the purposes of this report, a pupil may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging to. However, no person should be counted in more than one racial/ethnic category. The manner of collecting the racial/ethnic information is left to the discretion of the institution provided that the system which is established results in reasonably accurate data.

- American Indian or Alaskan Native: A person having origins in any of the original peoples of North America and who maintains cultural identification through tribal affiliation or community recognition.
- Asian or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Pacific Islands or the Indian subcontinent. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.
- Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin - regardless of race.
- Black, Not of Hispanic Origin: A person having origins in any of the Black racial groups of Africa.
- White, Not of Hispanic Origin: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

"HANDICAPPED PUPILS" AND "PUPILS REQUIRING SPECIAL EDUCATION": A distinction is to be made between these terms. For the purposes of this report, a "handicapped pupil" is one who has one or more of the exceptionalities defined in the cover sheet of AS/CR 102 form. A "pupil requiring special education" is a handicapped pupil who has been identified, through evaluation, as requiring special education.

SPECIAL EDUCATION PROGRAMS: Special education programs are those designed to meet the needs of children with one or more of the exceptionalities defined in the cover sheet of the AS/CR 102 form.

INSTRUCTIONS FOR COMPLETING FORM AS/CR 101

Questions 1 through 4. Self-explanatory.

Question 5. Special Education. In responding to these questions, report on the basis of what is known to the school system at the time of reporting concerning children who are residents of the geographic area served by this system. Do not include children who are residents of other areas even if they are being served by your system. Do not include children who are socially maladjusted or are gifted or talented.

a. Children Who Require Special Education. A child who requires special education is one who has one or more of the exceptionalities described in the cover sheet of Form AS/CR 102 and who has been identified, through evaluation, as requiring full- or part-time special education.

(1) Total Identified As Requiring Special Education. Number of children through the age of 21 who have been identified as requiring special education, whether or not he or she is enrolled in a school. All children who require special education should be counted, including those who are sent outside this system.

(2) Total Participating in Special Education. Of the children included in (1), the number who are participating in a special education program or are receiving special education services provided either by this school system or by another system or other entity, including a private school or a State institution. (This number is the sum of children who are served outside this system plus the children reported in question 8 of the attached AS/CR 102 forms minus any children served in your schools who are legal residents of other school systems.)

(3) Pupils Attending Elsewhere for Special Education. Of the children included in (2) above, the number who, for the sole purpose of receiving full- or part-time special education, participate full time in education programs not operated by this school system.

(4) Pupils Supported by Other Than Public Funds. Of the pupils reported in (3) above, the number for whom full payment of the costs (tuition, non-medical care, or room and board) is not provided by this system, or by the State education agency, or from other public funds.

b. Evaluation and Placement

(1) Children Not Yet Evaluated. Number of children through age 21 who have been referred for evaluation to determine if they require special education but who have not yet been evaluated. Do not count here any children included in 5a above.

(2) Children Not Receiving Any Educational Services. Since the beginning of the 1980-81 school year, the number of children through the age of 21 who were being evaluated for special education or who have been identified as requiring special education and who were receiving no educational services either in school or through home-bound instruction for more than 10 school days.

Question 6. Self-explanatory.

Question 7. Pupil Statistics. Please review the definitions of racial and ethnic categories before you begin. Count each pupil as one, including those who attend less than a full day, such as kindergarteners. Leave no blanks; where the answer is "none," enter "0."

Continued on reverse side

Instructions for completing AS/CR 101 (continued)

a. Pupils in Membership. The total number of pupils in membership in this system on or about October 1, 1980. In each box, report total membership — not percentages, average daily membership, average daily attendance, or year-end enrollment.

- In columns 1 through 5, enter the total membership in each racial and ethnic category. Each entry must equal the sum of corresponding entries in item 5a of the attached AS/CR 102 forms.
- In column 6, enter the total membership in the system. This must equal the sum of column 6 in item 5a of the AS/CR 102 forms.
- In columns 7 and 8, enter the total male and female membership, respectively. Each entry must equal the sum of the corresponding entries in the AS/CR 102 forms.
- In column 9, enter the total number of handicapped pupils enrolled in the system. A handicapped pupil is one who has one or more of the exceptionalities described in the cover sheet of the AS/CR 102 form, whether or not he or she requires special education. These pupils will already have been included in columns 1 through 8. The entry in column 9 must equal the sum of the corresponding entries in the AS/CR 102 forms, item 5a.

b. Pupils Expelled. The number of pupils expelled from the school system during the 1979-80 school year, by racial and ethnic category, by sex, and for handicapped pupils. Expulsion is the exclusion of a student from school for disciplinary reasons that results in his or her removal from school attendance rolls or that meets the criteria for expulsion as defined by the appropriate State or local school authority. Do not enter suspensions.

Certification. After you have reviewed the data submitted on the AS/CR 101 form and on the AS/CR 102 forms to be attached for each school, please sign the certification and enter the telephone number to be used in the event that questions arise regarding this report.

Fall 1980 Elementary and Secondary School Civil Rights Survey
SCHOOL SYSTEM SUMMARY REPORT: AS/CR 101
Due October 15, 1980

Form Approved
FEDAC R 168
Approval Expires 6/81

1. NAME OF SCHOOL SYSTEM _____

2. ADDRESS _____
Number and P.O. Box
County
City/Town Office — State — ZIP

3. SCHOOLS Total number of schools in this system. For each school, attach a completed Form AS/CR 102 . . . ☐

4. COURT ORDER STATUS Is this school system currently subject to a Federal or State court order requiring it to develop or implement a plan for pupil desegregation? . . . . . Yes: ☐ Federal ☐ State; No: ☐

5. SPECIAL EDUCATION Please review the instructions on the cover sheet of this form before responding.

a. Children Who Require Special Education

(1) Total Identified As Requiring Special Education . . . . . ☐

(2) Total Participating in Special Education . . . . . ☐

(3) Pupils Attending Elsewhere for Special Education . . . . . ☐

(4) Pupils Supported by Other Than Public Funds . . . . . ☐

b. Evaluation and Placement

(1) Children Not Yet Evaluated . . . . . ☐

(2) Children Not Receiving Any Educational Services . . . . . ☐

6. PREGNANCY AND RELATED CONDITIONS

a. Does this school system have any policy or practice that restricts a pupil's participation in any educational program or activity during the course of her pregnancy or subsequent to childbirth? (Such a restriction would include requiring the pupil to receive education services at home or at a facility other than her regularly assigned school, prohibiting her participation in some or all extracurricular activities, or requiring her participation in an additional or substitute program.) . . . . . Yes ☐ No ☐

b. If the answer to a is Yes, does the restriction apply only to pupils who have medical certification that they are unable to participate in an education program or activity? . . . . . Yes ☐ No ☐

c. Does this school system offer pregnant pupils or pupils recovering from childbirth any separate programs as a substitute for regular programs? . . . . . Yes ☐ No ☐

d. If the answer to c is Yes, is participation in any of the programs mandatory? . . . . . Yes ☐ No ☐

7. PUPIL STATISTICS Please read carefully the instructions on the cover sheet of this form.

Columns 1 through 5 must equal column 6. Columns 7 and 8 must equal column 6.

	1	2	3	4	5	6	7	8	9

b. Pupils Expelled									

Please check the accuracy and completeness of each item reported here and on the accompanying AS/CR 102 forms. Errors or omissions may require a refiling of this report.

CERTIFICATION I certify that the information given on this form and on the attached AS/CR 102 forms is true and correct to the best of my knowledge and belief. (A willfully false statement is punishable by law (U.S. Code, Title 18, Section 1001)).

Signature of Superintendent or Authorized Agent _____ Title _____ (Area Code) Telephone No. _____ Date Signed _____

REPORTING REQUIREMENT:
This report is required by the U.S. Department of Education pursuant to Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and under Section 504 of the Rehabilitation Act of 1973. Section 80.6(b) of HEW Regulation (45 CFR 80) issued to carry out the purposes of Title VI of the Civil Rights Act of 1964 provides:
Compliance Reports. Each recipient shall keep such records and submit to the responsible Department official or his designee timely, complete and accurate compliance reports at such times, and in such form and containing such information as the responsible Department official or his designee may determine to be necessary to enable him to ascertain whether the recipient has complied or is complying with this Regulation.

Fall 1980
Elementary and Secondary School Civil Rights Survey
INDIVIDUAL SCHOOL REPORT: Form AS/CR 102

Office for Civil Rights
U.S. Department of Education

Due October 15, 1980

GENERAL INSTRUCTIONS

- This form is to be completed by each individual school.
- Please use a typewriter or print legibly in ink.
- Pupil membership should be reported as of October 1, 1980 or the nearest convenient date prior to October 15, 1980.
- If the answer for a given item is "none" or if all elements of a matrix are "0" enter "0" in the appropriate space or in the total column only in the case of a matrix. If an item is not applicable, enter "N/A" in the appropriate space or in the total column only in case of a matrix.

DEFINITIONS

SCHOOL: For the purposes of this report, a school is a division of the school system consisting of students comprising one or more grade groups or other identifiable groups, organized as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant of one or more buildings. More than one school may be housed in one school plant, as is the case when the elementary and secondary schools are housed in the same school plant.

RACIAL/ETHNIC CATEGORIES: Racial/ethnic designations, as used by the U.S. Department of Education, Office for Civil Rights, do not denote scientific definitions of anthropological origins. For the purposes of this report, a pupil may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging to. However, no person should be counted in more than one racial/ethnic category. The manner of collecting the racial/ethnic information is left to the discretion of the institution provided that the system which is established results in reasonably accurate data.

- American Indian or Alaskan Native: A person having origins in any of the original peoples of North America and who maintains cultural identification through tribal affiliation or community recognition.
- Asian or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Pacific Islands or the Indian subcontinent. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.
- Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin - regardless of race.
- Black, Not of Hispanic Origin: A person having origins in any of the Black racial groups of Africa.
- White, Not of Hispanic Origin: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

PROGRAMS FOR THE GIFTED OR TALENTED are those designed for pupils who by virtue of outstanding abilities are capable of high performance and who require differentiated educational programs and/or services beyond those normally provided by the regular school program. Such pupils include those with demonstrated achievement and/or potential ability in any of the following areas singly or in combination: (1) general intellectual ability, (2) specific academic aptitude, (3) creative or productive thinking, (4) leadership ability, (5) visual or performing arts, (6) psychomotor abilities. (Do not include honors, advanced placement or other enrichment programs for the gifted or talented that are not special programs.)

EXCEPTIONALITIES The following definitions of exceptionalities are to be used in preparing this report:

- Educable mentally retarded (or handicapped) - a condition of mental retardation which includes pupils who are educable in the academic, social, and occupational areas even though moderate supervision may be necessary.
- Trainable mentally retarded (or handicapped) - a condition of mental retardation which includes pupils who are capable of only very limited meaningful achievement in the traditional basic academic skills but who are capable of profiting from programs of training in self-care and simple job or vocational skills.
- Hard of hearing - a hearing impairment, whether permanent or fluctuating, which adversely affects a child's educational performance but which is not included under the definition of "deaf" in this section.
- Deaf - a hearing impairment which is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, which adversely affects educational performance.
- Speech impaired - a communication disorder, such as stuttering, impaired articulation, a language impairment, or a voice impairment, which adversely affects a child's educational performance.
- Visually handicapped - a visual impairment which, even with correction, adversely affects a child's educational performance. The term includes both partially seeing and blind children.
- Seriously emotionally disturbed - a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree, which adversely affects educational performance: an inability to learn which cannot be explained by intellectual, sensory, or health factors; an inability to build or maintain satisfactory interpersonal relationships with peers and teachers; inappropriate types of behavior or feelings under normal circumstances; a general pervasive mood of unhappiness or depression; or a tendency to develop physical symptoms or fears associated with personal or school problems. The term includes children who are schizophrenic or autistic.
- Orthopedically impaired - a severe orthopedic impairment which adversely affects a child's educational performance. The term includes impairments caused by congenital anomaly (e.g., clubfoot, absence of some member, etc.), impairments caused by disease (e.g., poliomyelitis, bone tuberculosis, etc.), and impairments from other causes (e.g., cerebral palsy, amputations, and fractures or burns which cause contractures).
- Other health impaired - limited strength, vitality, or alertness, due to chronic or acute health problems such as a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, or diabetes, which adversely affects a child's educational performance.
- Specific learning disability - a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations. The term includes such conditions as perceptual handicaps, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. The term does not include children who have learning problems which are primarily the result of visual, hearing, or motor handicaps, of mental retardation, or of environmental, cultural, or economic disadvantage.
- Deaf-blind - concomitant hearing and visual impairments the combination of which causes such severe communication and other developmental and educational problems that they cannot be accommodated in special education programs solely for deaf or blind children.
- Multihandicapped - concomitant impairments (such as mentally retarded-blind, mentally retarded-orthopedically impaired, etc.), the combination of which causes such severe educational problems that they cannot be accommodated in special education programs solely for one of the impairments. The term does not include deaf-blind children. For the purposes of this report, this category should include those pupils who are severely or profoundly mentally retarded.

Instructions continued on reverse side

HANDICAPPED PUPILS and SPECIAL EDUCATION PUPILS For purposes of this report, a "handicapped pupil" is one who has one or more of the exceptionalities defined above, whether or not he or she requires special education. A "special education pupil" is one who has one or more of the exceptionalities defined above and who has been identified, through evaluation, as requiring special education.

SPECIAL EDUCATION PROGRAMS Special education programs are those designed to meet the needs of children with one or more of the exceptionalities defined above.

INSTRUCTIONS FOR QUESTIONS ON AS/CR 102

Questions 1 through 4. Self-explanatory.

Question 5. Pupil Statistics. Complete the chart for racial and ethnic categories and, where indicated, for males and females and for handicapped pupils. Refer to the definitions above of racial and ethnic categories and of the term "handicapped." Leave no blanks; where the answer is "none," enter "0." Handicapped pupils counted in column 9 will also be included in columns 1 - 8, as appropriate.

a. Pupils in Membership. The total number of pupils in membership on or about October 1, 1980, for each racial and ethnic category, for males and females, and for handicapped pupils. In each box report total membership — not percentages, average daily attendance, average daily membership, or year-end enrollment. Count each pupil as one, including any who attend less than a full day, such as kindergarteners.

b. Pupils in Need of Bilingual Education. Enter in b(1) the number of pupils who have limited or no ability to understand, speak, or read English and who have a primary or home language other than English. Enter in b(2) the number of such pupils who are currently enrolled in a bilingual program, High-Intensity Language Training, an English-As-A-Second-Language program, or any non-language class taught in a language other than English. Do not count pupils enrolled in a class to learn a language other than English. It is not necessary to complete columns 7, 8, or 9 for items b(1) and b(2).

c. Pupils in Programs for the Gifted or Talented. The number of pupils enrolled in programs for the gifted or talented. Count pupils once regardless of the number of programs in which they are enrolled.

d. Pupils Who Received Corporal Punishment. The number of pupils who received corporal punishment during the 1979-80 school year. Corporal punishment is the infliction of physical punishment to the body of a student by a school employee for disciplinary reasons. Count pupils once regardless of the number of times they were punished.

e. Pupils Suspended. The number of pupils who were suspended from this school for at least one day during the 1979-80 school year. Suspension is the temporary exclusion of a student from school for disciplinary reasons for one full school day or longer. This would also include in-school suspensions that remove a student from his or her regular classes for one full school day or longer. Count pupils once regardless of the number of times they were suspended.

Question 6. Accommodations for Physically Handicapped Pupils

a. Indicate, by checking the Yes or No box, whether any school buildings, normally used by pupils, have an "accessible" entrance, that is, an entrance that is at ground level or which has ramps with handrails and has doors, both exterior and interior, that are wide enough for (at least 32 inches wide) and operable by pupils in wheelchairs.

b. Indicate, by checking the Yes or No box, whether any accessible school buildings, normally used by pupils, have accessible restroom facilities, at least one for males and one for females, that have a toilet stall wide enough for wheelchairs and that are equipped with grab bars.

c. Indicate, by checking the Yes or No box, whether any accessible school buildings, normally used by pupils, have accessible science laboratories, for all science laboratory courses offered, that contain work tables, sinks, and other equipment useable by persons in wheelchairs. The box labeled "N/A" should be checked only if this school has no science laboratories.

d. Enter the number of accessible regular classrooms/teacher stations that contain desks or tables useable by persons in wheelchairs.

e. Enter the total number of regular classrooms/teacher stations currently in use (whether or not accessible to pupils in wheelchairs).

f. Enter the total number of pupils in wheelchairs in this school.

Question 7. Pupil Assignment to Class or Instructional Grouping. The purpose of this question is to obtain data on the pupil composition of classes in this school. Instructions differ depending on the grades served in each school.

a. All Schools. Calculate the percent white membership in this school (that is, divide the number of pupils in column 5 of question 5a by the number in column 6 of question 5a, and multiply the result by 100). If the result is less than 5 or more than 95, check box 7.

b. Schools That Serve No Grade Higher Than 6. If you checked box 7, you need not complete this question at all; turn to the next page to answer question 8. If you did not check box 7, follow the instructions in e below; you need not supply data for columns 11 and 12.

c. Schools That Serve No Grade Lower Than 7. If you checked box 7, you must complete this table, but you are exempt from submitting data for columns 5 - 9. If you did not check box 7, you must complete the table in its entirety. Follow the instructions in e below.

d. Schools That Serve Any Grade 7 or Higher AND Any Grade 6 or Lower. (Such schools include those that serve grade spans K-8, K-12, 5-8, etc.) If you checked box 7, you must complete this table, but you are exempt from submitting data for columns 5 - 9; moreover, you need supply data for the remainder of the table only for classes that serve pupils in grade 7 or higher. If you did not check box 7, you must complete all columns of the table; but data for columns 11 and 12 need be supplied only for classes that serve pupils in grade 7 or higher. Follow the instructions in e below.

e. Completing the response to question 7 requires three steps: Step 1 selects teachers whose classrooms are to be reported; Step 2 determines for each selected teacher the particular class that is to be reported; and Step 3 specifies the data to be reported.

Step 1. Select the Teachers. Make an alphabetic list of all full-time classroom teachers in this school on or about October 1, 1980. From this list, select the teachers according to the method below that corresponds to the number of teachers in this school.

- If this school has 35 or fewer teachers, enter each teacher's initials (or identifying number) down column 1, beginning with the teacher at the top of the list. If you have 18 or more teachers, all 18 rows of column 1 will have an entry, and there will be some teachers whose initials do not appear in column 1. If you have fewer than 18 teachers, one or more of the rows of column 1 will have no entries; just leave these rows blank.
- If this school has at least 36 teachers but not more than 54 teachers, select every second teacher on the alphabetic list (second, fourth, sixth, etc.) and enter their initials down column 1 until you have filled all 18 rows.
- If this school has at least 55 teachers but not more than 72 teachers, select every third teacher on the list (third, sixth, ninth, etc.) on the alphabetic list and enter the teacher initials or identifying number down column 1 until you have made an entry in all 18 rows.
- If this school has more than 72 teachers, select every fourth teacher on the list (fourth, eighth, twelfth, etc.) on the alphabetic list and enter the teacher initials or identifying number down column 1 until you have made an entry in all 18 rows.

Step 2. Select the Classes to be Reported. For each teacher listed, column 2 specifies which class is to be reported. For instance, if M.S. is listed in the 18th row of column 1, M.S.'s last class is to be reported.

- If the teacher sees the same pupils all day, ignore column 2.
- If the teacher meets less than three classes a day, list the second class whenever the "third" or "last" class is specified in column 2.
- If the teacher has different schedules for different days, use the schedule for Wednesday.

NOTE: If this school serves some grades 6 and below and also some grades 7 or higher, counts of male and female pupils need to be provided only for classes that include pupils at the 7th grade or higher. For example, if this school serves grades 5 through 8, you will need to provide a count of male and female pupils only for those classes in which there are 7th or 8th grade pupils. However, if a class (such as physical education) includes pupils not only in grades 7 or higher but also pupils in some lower grades, a count of male and female pupils must be provided for all pupils in the class.

Step 3. Report the Required Data

(1) GRADE (column 3) In column 3, enter the grade or grade span of the pupils in the reported class. If the class is ungraded, enter the equivalent grade or grade span.

(2) CLASS SUBJECT OR TYPE (column 4) In column 4, enter a code from the list below that most accurately describes the material being taught in this class.

01 Art	10 Natural Sciences
02 Elementary Education (general, self-contained)	11 Office Occupations or Business (including personal typing)
03 English Language Arts	12 All Other Vocational Education
04 Foreign Language	13 Social Studies/Social Science
05 Health/Physical Education	14 Special Education
06 Home Economics	15 Compensatory or Remedial Instruction (e.g., Title I)
07 Industrial Arts	16 Bilingual/High-Intensity Language Training (HILT)/ English-As-A-Second-Language
08 Mathematics	17 Other
09 Music	

(3) PUPILS (columns 5 through 12). In columns 5 through 9, enter the number of pupils in this class who belong to the racial or ethnic category shown at the top of each column (if box 7 was checked, the school is exempt from reporting racial/ethnic data in this table). In column 10 enter the total number of pupils in this class. In each row, the sum of the pupils reported in columns 5 through 9 should equal the number of pupils reported in column 10. In columns 11 and 12, enter the number of male and female pupils, respectively. The sum of the male and female pupils should equal the number of pupils reported in column 10.

Question 8. Special Education Programs. Please read the definitions of exceptionalities (above) before you begin.

- Count pupils participating in special education programs operated at this school only. Include those pupils who receive special education services in their regular classrooms as well as those who receive such services in special classrooms.
- If any child participates in one or more programs, include him or her in the one program in which he or she spends the most time. Example: John Doe spends 10 hours per week in a program for the educable mentally retarded (EMR) and 5 hours per week in a program for the orthopedically impaired; he would be reported in line (a) for EMR, since he spends most of his time in that program.

  In column 1, enter in each row the total number of pupils participating in each program, for rows a through j. In row m, enter the total of rows a through l.
- In columns 2 through 6, enter the number of pupils in each racial/ethnic category in rows a, b, e, g, and j (racial/ethnic data is not needed for the other rows). For each row in which data must be entered, the entries in columns 2 through 6 must sum to the entry in column 1.
- In columns 7 and 8, enter the number of male and female pupils in the special education programs defined in rows a, b, e, g, and j. For each of these programs, the sum of columns 7 and 8 must equal the entry in column 1.
- In column 9, enter for the programs defined in rows a, b, e, g, and j, the number of pupils who have also been identified in item 5b(1) as requiring bilingual education services. Any such pupils will already have been counted in columns 2 through 8.
- In columns 10 through 12, enter for each program the number of pupils by the amount of time (excluding lunch and recess) that each spends in all special education programs. In the example above, John Doe would be reported in column 11 because the total amount of time he spends in special education is 16 hours; and he would be entered in row a because that is the program in which he spends the most time.
- Do not leave any rows completely blank. If there are no pupils in a category, enter "0" in the total column for that program.

Question 9. Selected Course Enrollment. Complete the chart for pupils enrolled in all-male classes, all-female classes, and for males and females in mixed classes in (a) home economics, (b) industrial arts, and (c) physical education.

- In a and b, enter the number of pupils enrolled in grades 7 through 9. For example, if this school serves grades 6-7-8, include only those pupils in grades 7 and 8. In a, include occupational home economics courses.
- In c, enter data for pupils in grades 7 through 12.

Question 10. Interscholastic Athletic Teams. Complete the chart for any school-sponsored interscholastic athletic teams (any teams that compete with teams outside this school, including junior varsity, varsity, club teams, etc.)

- Include all interscholastic teams organized or operating during the period October 1, 1979 to October 1, 1980, including summer.
- Count each pupil's participation on a team once for each team. That is, a pupil should be counted twice if he/she participates on two teams.
- Include all students who participated in organized team practice or games.

Question 11. High School Graduates. Complete the chart for those who received a regular high school diploma during the 1979-80 school year. For purposes of this question, a high school diploma is a diploma granted upon the successful completion of a prescribed secondary program of studies. This includes, where required as a prerequisite, the successful completion of a minimum competency test.

- This question is not to be answered by elementary schools, middle schools, and junior high schools.
- Do not include those who received other than a high school diploma, such as those who received a special diploma, a certificate of attendance, or a certificate of completion.
- Provide the information by racial/ethnic categories in columns 1 through 5, the total in column 6, and by sex in columns 7 and 8.
- In column 9, enter the number of handicapped pupils who received a high school diploma. A handicapped pupil is one who has one or more of the exceptionalities defined in the cover sheet, whether or not he or she requires special education. These pupils should already have been reported once in columns 1 through 5, in column 6, and again in column 7 or 8.

Please check the completeness and accuracy of each item reported. Errors or omissions may require a refiling of this form.

Fall 1980 Elementary and Secondary School Civil Rights Survey
INDIVIDUAL SCHOOL REPORT: Form AS/CR 102

Due October 15, 1980

Form Approved
FEDAC R 168
Approval Expires 6/81

SECTION I — TO BE COMPLETED BY ALL SCHOOLS

1. School System Name _____

2. School Name _____

3. School Address _____
Street or P.O. Box

_____ City/Post Office _____ County _____ State _____ Zip

4. **GRADES OFFERED** In the boxes below, check all grades offered in this school. If this school is totally or partially ungraded, check here ☐ and also check below the grade equivalents.

☐ Pre-K ☐ K ☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5 ☐ 6 ☐ 7 ☐ 8 ☐ 9 ☐ 10 ☐ 11 ☐ 12

5. **PUPIL STATISTICS** . Before you begin, please review the definitions and instructions on the cover sheet of this form.

Columns 1 through 5 must equal column 6

Columns 7 and 8 must equal column 6

	1 AMERICAN INDIAN OR ALASKAN NATIVE	2 ASIAN OR PACIFIC ISLANDER	3 HISPANIC	4 Not of Hispanic Origin: BLACK	5 Not of Hispanic Origin: WHITE	6 TOTAL	7 Total MALE	8 Total FEMALE	9 Total HANDICAPPED
a Pupils in Membership									
b(1) Pupils in Need of Bilingual Education									
b(2) Pupils Enrolled in Bilingual Education									
c Pupils in Programs for the Gifted or Talented									
d Pupils Who Received Corporal Punishment									
e Pupils Suspended									

6. **ACCOMMODATIONS FOR PUPILS IN WHEELCHAIRS** Please read the instructions on the cover sheet of this form.

a. Accessible Entrance(s) ☐ Yes ☐ No

b. Accessible Restrooms ☐ Yes ☐ No

c. Accessible Science Labs ☐ Yes ☐ No ☐ N/A

d. Number of accessible regular classrooms/teacher stations ☐

e. Total number of regular classrooms/teacher stations ☐

f. Number of pupils in wheelchairs ☐

7. **PUPIL ASSIGNMENT** Instructions for responding to this question differ according to the racial/ethnic composition of the school and the grades served. First, calculate the percent white membership in this school. If the percent white membership in the school is less than 5 or more than 95, check here ☐ (box 7). Now turn to the cover sheet and read carefully the instructions as they pertain to this school.

Schools that checked box 7 above need not supply data in columns 5 through 9

Data in columns 11 & 12 need be supplied only for classes serving students in grades 7 or higher

SECTION II — TO BE COMPLETED BY ALL SCHOOLS OFFERING ANY SPECIAL EDUCATION PROGRAM

8. **SPECIAL EDUCATION PROGRAMS** If this school offers any special education programs, the table below must be completed. If no special education programs are offered, proceed to Section III. The cover sheet of this form defines the exceptionalities and provides instructions for this question.

Special Education Programs	1	2	3	4	5	6	7	8	9	10	11	12
	PUPILS PARTICIPATING IN SPECIAL EDUCATION									Places in Amount of Time Exclusive Lunch/Recess Social ... All Special Ed. Programs in Which they Participate		
	Total	BY RACIAL ETHNIC CATEGORY					BY SEX		Limited or None English Speakers	Less than 10 hrs per week	10 hrs or more per week but less than full time	Full Time
		American Indian or Alaskan Native	Asian or Pacific Islander	Hispanic	Not of Hispanic Origin: Black	Not of Hispanic Origin: White	Total Male	Total Female				
(a) Educable Mentally Retarded												
(b) Trainable Mentally Retarded												
(c) Hard of Hearing												
(d) Deaf												
(e) Speech Impaired												
(f) Visually Handicapped												
(g) Seriously Emotionally Disturbed												
(h) Orthopedically Impaired												
(i) Other Health Impaired Impaired												
(j) Specific Learning Disability												
(k) Deaf-Blind												
(l) Multihandicapped												
(m) Total of lines (a) through (l)												

SECTION III — TO BE COMPLETED BY ALL SCHOOLS OFFERING ANY GRADE 7 - 12

- This section need not be completed by schools whose highest grade offered is 6 or below.
- If this school is totally or partially ungraded, this section should be completed if any secondary-level courses are offered.

9. **SELECTED COURSE ENROLLMENT**
Please read the instructions on the cover sheet of this form.

	Pupils Enrolled in				Total Enrollment
	All-Male Classes	All-Female Classes	Mixed Classes		
			Male	Female	
a. Home Economics Courses - Grades 7 through 9					
b. Industrial Arts Courses - Grades 7 through 9					
c. Physical Education Courses - Grades 7 through 12					

10. **INTERSCHOLASTIC ATHLETIC TEAMS**
Please read the instructions on the cover sheet of this form.

	Female Participants	Male Participants	Number of Teams
a. All-Female Teams			
b. All-Male Teams			
c. Teams with Both Sexes			

11. **HIGH SCHOOL GRADUATES** Refer to the instructions on the cover sheet of this form.

	Columns 1 through 5 must equal column 6					6	Columns 7 and 8 must equal column 6		9
	1	2	3	4	5		7	8	
	AMERICAN INDIAN OR ALASKAN NATIVE	ASIAN OR PACIFIC ISLANDER	HISPANIC	Not of Hispanic Origin: BLACK	Not of Hispanic Origin: WHITE	TOTAL	Total MALE	Total FEMALE	Total HANDICAPPED
Persons Receiving High School Diploma									

Please check the completeness and accuracy of each item reported. Errors or omissions may require a refiling of this form.

CERTIFICATION I certify that the information given above is true and correct to the best of my knowledge and belief. (A willfully false statement is punishable by law (U.S. Code, Title 18, Section 1001).)

Signature of Principal or Authorized Agent | Title | (Area Code) Telephone Number | Date Signed

APPENDIX B

DIRECTORY

For each data field, directory indicates:

SLOT - slot(s) or word(s) position on file

ITEM - item number on survey form

TYPE - data type: alpha (A), integer numeric (N), real (R), bit (B)

DESCRIPTION - description of data field

In addition, for numeric fields, the following is displayed:

NUMBER NON 0 - number of records with non-zero entries

MIN - minimum non-zero entry

MAX - maximum entry

TOTAL - total of data field summed over all records
