General Note

One case with final disposition code 490 (break-off/partial interview) had all missing data for this section.

*__H4DA13 – H4DA16__
__H4DA19 – H4DA23__
__H4DA26, H4DA27__
Three pretest cases originally coded PRISON4 = 1 were actually not in prison during the survey. However, because the software used the prisoner code to drive the skip patterns, these cases followed the skip patterns that respondents coded as prisoners followed. Therefore, these cases had missing data for H4DA13 through H4DA16 (H4DA17 was not asked on the pretest so these cases were coded 995 for this variable), H4DA19 through H4DA23, H4DA26 and H4DA27.
