This version: January 24, 2020

This file contains information about the replication material for "How Partisanship and Sexism Influences Voters' Reactions to #MeToo Scandals."

ANALYSIS:
metoo_analysis.R: R code to reproduce all analyses and figures, including online Appendix

DATA FILE:
metoo_data.csv: data file to reproduce all analyses

Variables:

- id: subject ID
- senator_party: randomized party ID of senator in vignette (Democrat or Republican)
- condition: randomized experimental condition (1= jokes story, 2= assault story, 3= control)
- pid7: party identification on 7 point nominal scale
- pre_sexism_1: pretest agreement with statement "Most women interpret innocent remarks or acts as being sexist" on 5 point scale (1=Disagree strongly; 5=Agree strongly)
- pre_sexism_2: pretest agreement with statement "Women are too easily offended" on 5 point scale (1=Disagree strongly; 5=Agree strongly)
- pre_sexism_3: pretest agreement with statement "There are actually very few women who get a kick out of teasing men by seeming sexually available and then refusing male advances" on 5 point scale (1=Disagree strongly; 5=Agree strongly)
- pre_sexism_4: pretest agreement with statement "Women often exaggerate the problems they have at work" on 5 point scale (1=Disagree strongly; 5=Agree strongly)
- pre_favorability: favorability of senator in the pretest, 0-10
- pre_vote: likelihood to vote for the senator in the pretest, 0-10
- gender: gender (Man, Woman, Other, Prefer not to say)
- age: age group (18-24, 25-34, 35-44, 45-54, 55-64, 65 or over)
- newsinterest: reported frequency of following news (most of the time, some of the time, only now and then, hardly at all, don't know)

- post_favorability: favorability of senator in the posttest, 0-10
- post_vote: likelihood to vote for the senator in the posttest, 0-10
- punishment_1: agreement with statement "Frederickson does not need to do anything else regarding the allegations until there is more evidence" on 5 point scale (1=Disagree strongly; 5=Agree strongly)
- punishment_2: agreement with statement "Given the allegations against him, Frederickson should publicly apologize" on 5 point scale (1=Disagree strongly; 5=Agree strongly)
- punishment_3: agreement with statement "If the allegations are true, Frederickson should not have acted in that way towards the women, but it was a long time ago so he does not have to do anything else regarding the allegations" on 5 point scale (1=Disagree strongly; 5=Agree strongly)
- punishment_4: agreement with the statement "Given the allegations against him, Frederickson should resign from his seat in the Senate" on 5 point scale (1=Disagree strongly; 5=Agree strongly)
- punishment_5: agreement with the statement "If the allegations against Frederickson were credible, other prominent [Democrats/Republicans] in Congress would probably not have risen to his defense" on 5 point scale (1=Disagree strongly; 5=Agree strongly)
- post_sexism_1: posttest agreement with statement "Most women interpret innocent remarks or acts as being sexist" on 5 point scale (1=Disagree strongly; 5=Agree strongly)
- post_sexism_2: posttest agreement with statement "Women are too easily offended" on 5 point scale (1=Disagree strongly; 5=Agree strongly)
- post_sexism_3: posttest agreement with statement "There are actually very few women who get a kick out of teasing men by seeming sexually available and then refusing male advances" on 5 point scale (1=Disagree strongly; 5=Agree strongly)
- post_sexism_4: posttest agreement with statement "Women often exaggerate the problems they have at work" on 5 point scale (1=Disagree strongly; 5=Agree strongly)
