Vision Statement

To be a Centre of excellence in production and management of quality statistics

Mission Statement

To develop, provide and promote quality statistical information for evidence-based decision-making.

Core Values

- ***Professionalism*:** Strictly abides by professional considerations on the methods, standards and procedures for statistical production.
- ***Confidentiality*:** Guarantee confidentiality of data providers as provided in the Statistics Act 2006
- ***Collaboration:*** Collaborate with stakeholders so as to enhance the quality of statistical information
- ***Teamwork*:** To embrace teamwork as the hallmark of our success
- ***Customer focus*:** Commitment to meet the needs of our customers and always focus on customer satisfaction
- ***Accountability and Transparency*:** Conduct business and lend services to stakeholders in a transparent and accountable manner.
- ***Efficiency and effectiveness*:** Promote high productivity, competence and usefulness of resources at the national and county level.
- ***Innovation and Creativity*:** Committed to innovation, invention, creativity and resourcefulness in service delivery

Foreword

The implementation of the constitution created increased demand for comprehensive and disaggregated statistical information to inform evidence based policy formulation, budgeting process, monitoring and evaluation of various programmes both at the county and national levels. It is for this reason that the Kenya National Bureau of Statistics, being the principal agency of the Government for coordinating and supervising all official statistical programs undertaken within the National Statistical System, has undertaken to produce this Count Statistical Abstract (CSA) annually. The information published in this Abstract will address data gaps at the county level to supplement other periodic surveys conducted by the Bureau that equally provide useful indicators for various sectors.

The 2015 County Statistical Abstract is the first of its kind to be developed for Laikipia County and will subsequently be produced annually. This Abstract will be a single source of information covering various sectors of the economy at the county level. The Abstract has substantially benefited from the administrative data generated in the county. In addition, some indicators were compiled from various survey reports and population and housing censuses.

This Abstract is expected to provide a reliable source of information for planning, policy formulation, monitoring and evaluation processes. The data contained in this Abstract will, therefore, enable data users to gauge the performance of the county.

In conclusion, there is need for collaborative efforts between the National and County Governments in order to improve on the quality of statistical information, enhance dissemination, and accessibility of statistics at the county level.

Saitoti Torome
Principal Secretary
State Department of Planning and Statistics
Ministry of Devolution and Planning

Acknowledgement

The successful production of Laikipia County Statistical Abstract has been made possible through joint efforts of producers and users of statistics despite the challenges faced during the data collection. This collaboration is expected to improve timely compilation of reliable data from county data producers that will meet the expectations of both the users and suppliers in subsequent County Statistical Abstracts.

In this regard, therefore, I wish to express my gratitude to the Kenya National Bureau of Statistics Board of Directors for providing policy direction which has culminated in the preparation of this first County Statistical Abstract.

My sincere gratitude goes to H.E. Joshua Irungu, the Governor of Laikipia County for providing his support during the entire process in the production of this publication. I also want to thank the County Chief Officers, Directors and their staff who participated in the process of production of this abstract.

Special thanks goes to the County Commissioner for playing a pivotal role in coordinating the data collection process. I appreciate the contribution of departmental heads who provided timely data and also participated in the validation of information contained in this publication.

I acknowledge the contribution of the Laikipia County Statistical Officer and the County Working Committee for their tireless efforts in the successful compilation of data and production of this Statistical Abstract. I also thank all KNBS Directors, Editorial teams and County Statistical Abstract Secretariat at the headquarters for successfully planning, coordinating various departments, compiling and producing the 2015 County Statistical Abstract.

Finally, I wish to reiterate the Bureau's commitment in strengthening linkages with county stakeholders to improve the quality of the future Statistical Abstracts.

Zachary Mwangi
Director General
Kenya National Bureau of Statistics

Introduction

This County Statistical Abstract is a single source of information that provides a two year data series. It contains a comprehensive set of indicators that are useful for planning, monitoring and evaluation as well as providing useful information for research. The preparation of this Abstract has been coordinated by the Kenya National Bureau of Statistics in collaboration with the County Government, National Government Departments and other stakeholders represented in the county. The information was compiled mainly from the administrative records and partly from the recent surveys and censuses. The source of the statistical data is shown under each table.

The publication aims at providing statistical information on economic, demographic and social dimensions in Laikipia County. Being the first publication of its kind, its content may not meet detailed requirements of all users. In such a case, additional information, whenever available, will be supplied by the Bureau on request. All data request relating to statistical matters should be addressed to Director General, Kenya National Bureau of Statistics.

Structure of County Governments

The current Constitution was promulgated on 27th August 2010 providing for a two tier government structure with one National Government and forty seven (47) devolved County Governments.

County Governments consist of two arms, namely the County Assembly and the County Executive. The functions of County Governments as contained in the Fourth Schedule (Constitution 2010) include:- Finance and Economic planning; Roads, Public Works and Transport; Health and Sanitation; Education and ICT; Agriculture and Irrigation; Livestock, Fisheries and Veterinary Services; Trade, Industry and Cooperative Development; Land, Housing, Physical planning and Urban Development; Water Development, Environment and Natural Resources and Tourism, Culture, Sports and Social Development.

The County Assembly

The County Assembly is vested with the legislative authority of county laws, general oversight of the County Government and representation of the people. It consists of Members of County Assembly (MCAs) elected from different Assembly Wards in the county, nominated MCAs representing special interests such as persons with disability and the youth as prescribed by an Act of Parliament, and the Speaker who is an ex-officio. The head of the County Assembly is the Speaker, who is also the Chairman of the County Assembly Service Board. The composition of the County Assembly for Laikpia County is as follows:-

Speaker (ex-officio)	1
Elected MCAs	15
Nominated MCAs	8
Total	24

The County Executive

The Executive arm of the County Governments comprise of the Governor, the Deputy Governor, the County Executive Committee members and the County Public Service. The County Executive Committee members are appointed by the Governor with the approval of the County Assembly. The Governor and Deputy Governor are elected by registered voters in the county in a general election, for not more than two terms of five years each.

The County Governor and Deputy County Governor are the Chief Executive and Deputy Chief Executive of the county, respectively. Each county is run by an executive committee, consisting of:

- Governor, elected directly by the people
- Deputy Governor, elected as running mate of the successful candidate for Gubernatorial
- Committee members not exceeding a third (or ten where a county assembly has more than 30 members) of the members of the respective county assembly
- County Secretary nominated by the Governor and approved by the county assembly, who will double up as head of the county public service, and secretary to the county executive committee

For Laikipia County, the County Executive Committee comprises of:-

The Governor	1
The Deputy Governor	1
The County Secretary	1
The CEC Members	8
Total	**11**

Laikipia County Government

Vision
A Peaceful and Prosperous Model County

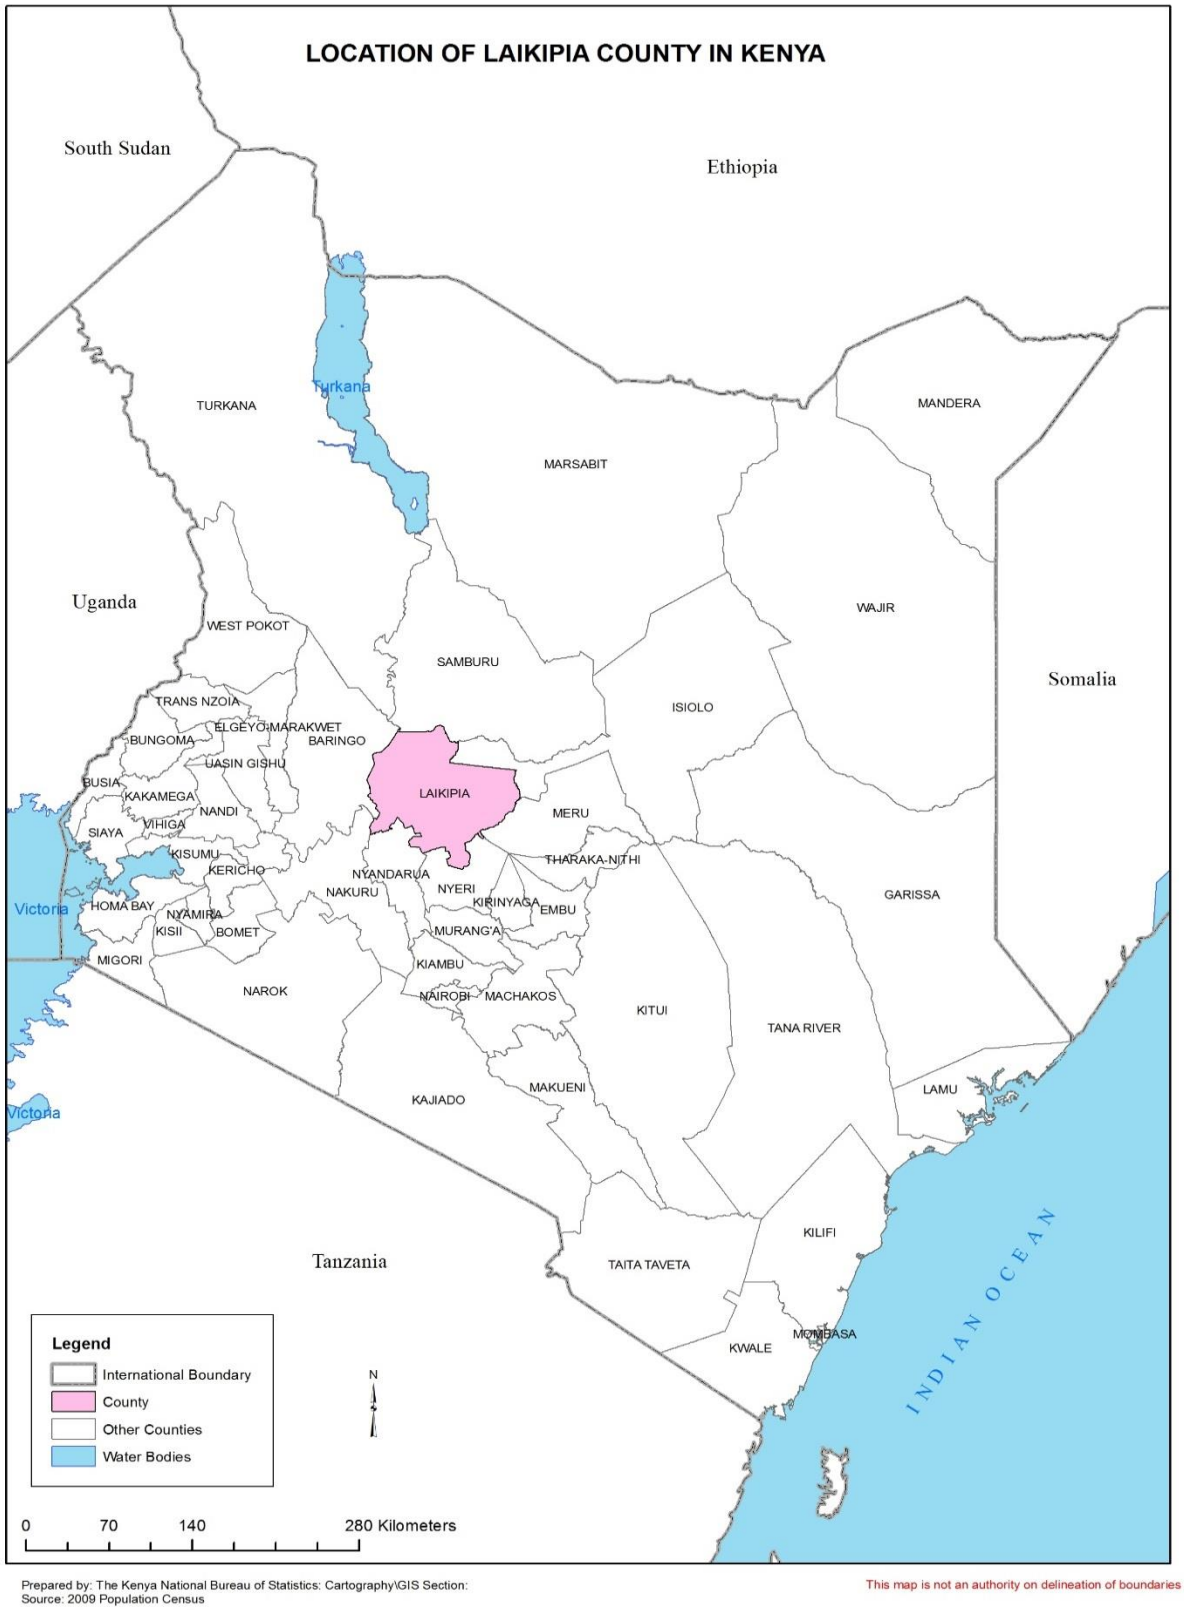
Mission
To facilitate equitable sustainable development through improved service delivery, technological adoption and advancement and effective resources management

Core Values
- People-centeredness
- Equity
- Accountability
- Efficiency
- Professionalism
- Integrity
- Innovativeness
- Passion

Overview of the County
Laikipia County is one of the 47 Counties in the Republic of Kenya within the Rift Valley Region. It borders Samburu County on the North, Isiolo County on the North East, Meru County on the East, Nyeri County on the South East, Nyandarua County on the South, Nakuru County on the South West and Baringo on the West. It covers an area of 9,462 km^2 and is ranked as the 15^{th} largest County in the Country by land and size.

The main economic activities in the county include: ranching, crop farming, dairy farming, tourism and trade. The main crops grown include wheat, maize, beans, potatoes and vegetables. The main livestock types are cattle, goats, sheep and poultry. Major tourist attractions in Laikipia include; wildlife, the unique Maa speaking cultural practices and the Thomson Falls. Proximity to Mt. Kenya, Meru, Aberdares and Samburu game parks have equally boosted tourism within the county through provision of hospitality services to the tourists. Most trading activities in the County are concentrated in urban centres of Nanyuki, Nyahururu, Rumuruti, Kinamba, Wiyumiririe, Lamuria, Dol dol, Sipili, Marmanet and Olmoran. Laikipia is a cosmopolitan County and largely rural in settlement.

Fig. 1: Map: Location of Laikipia County in Kenya



Administrative Units and Political Units

This section presents information on the administrative and political units in the county disaggregated by constituent sub-units. It gives the distribution of administrative units by sub-county, divisions and locations by political units in terms of constituencies and wards.

Notes and Definitions

County: It is an area that is demarcated as a devolved unit as stated under Article 6(1) of the Kenya's Constitution and specified in the First Schedule of the Constitution;

Sub County: Refers to both Administrative Units of National Government and County Government. In most areas it coincides with the Constituency area.

County Assembly: means an assembly constituted in the county in accordance with Article 177 of the Constitution.

Constituency: Is an area demarcated as stated under Article 89 of the Kenya's Constitution for the purpose electing a member of the National Assembly. There are 290 constituencies in Kenya

Ward: Is an electoral area within a county delimited in accordance with Article 89 of the Kenya's Constitution for the purpose of the electing a the member of the County Assembly. There are 1450 wards in Kenya

Table 1.1: Administrative Units by Sub-County

Sub-County	Area (Km^{2})	No. of Divisions	No. of Locations
Laikipia Central	1,107	4	8
Laikipia East	1,863	2	7
Laikipia North	2,600	2	9
Laikipia West	3,088	4	14

Land and Climate

This section contains data on Land Area, topography and climate.

Notes and Definitions

***Topography*:** refers to the geographic features of a location. The features includes the mountains, peaks valleys etc.

***Climate*:** The weather conditions prevailing in an area in general or over a long period or a region with particular prevailing weather conditions. It includes temperature, air pressure, humidity, precipitation, sunshine, cloudiness, and winds.

Rainfall: The amount of rain that falls on an area over a period of time. The rainfall data is for a weather station within each sub county.

Land Area: Refers to an area in square kilometres of the land-based portions of standard geographic areas.

***Temperature*:** Refers to a measure of the warmth or coldness of a place with reference to some standard value.

Table 2.1: Surface area by Category, 2014

Category	Area (Km^2)
Total Area	9,462.0
Arable Area	1,984.0
Non-Arable Land	7,456.0
Water Mass	22.0
Urban Area	243.3

Provisional

Population and Vital Statistics

This section provides information on population and vital statistics by census year, sex and constituency, and registration of births and deaths by place of occurrence in Laikipia County.

Notes and Definitions

Density: Refers number of persons per square kilometre, obtained by dividing the enumerated persons in a given area by the size of the area expressed in km^2

Area: Is the extent of a surface enclosed within a specified boundary, expressed in square kilometres. This excludes areas covered by water.

Birth: Birth is the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy.

Death: Death is the permanent disappearance of all evidence of life at any time after live birth has taken place (postnatal cessation of vital functions without capability of resuscitation). This definition excludes fetal deaths.

Expected Birth or Expected Death: Is derived from the prevailing fertility or mortality conditions and total female population of reproductive age or the total population. The number of expected births or deaths may be calculated using either crude birth and death rates or age-specific birth and death rates.

***Place of Occurrence*:** It is where birth or death occurs

Coverage rate: Coverage rate is basically the percentage of registered events out of the total number of expected events. Although the denominators ideally should be the total number of events which occurred, the actual number of such events is unknown and hence estimated as 'expected events'.

***Births or Deaths Registered at Health Facilities*:** Refer to births or deaths that occur at a health facility and a notification is issued by a health worker at the facility.

Births or Deaths Registered outside Health Facilities: Refer to births or deaths that occur at home and a notification is issued by an Assistant Chief.

Selected Age Groups: Refer to special age groups e.g. Children under one year, children of school going age ECDE (3-5 years), Primary (6-13 years) and secondary (14-17 years)), youth (18-35 years), Children (under 18 years), Voters or Adults (18+ years), Women of reproductive age (15-49 years), Active Labour force (15-64 years) and the elderly (65+ years).

Trade and Commerce

The section provides data on the number of trading centers and licensed businesses. Information on trade includes type of business outlets in the county trading centers.

Notes and Definitions

Data presented comprise of registered businesses, permits paid and penalties

Single Business Permit: The permit allows for the conduct of business or trade within the county. The permits are issued by the County Governments. All single business permits expire at the end of every year and there is a period within which renewal must be done.

Table 4.1: Revenue Collection from Single Business Permits, 2013-2014

Agriculture

This section provides information on agro–ecological zones, land potential by selected sub-counties, type of crops grown, the total area cropped, amount produced and their value. It also gives information on average retail prices for farm inputs, acreage under irrigation by type of crop grown.

Notes and Definitions

High potential: Clay-loam soil with sufficient manure and good drainage

Medium potential: Sandy-loam soil with high drainage

Low potential: Sandy soil with very high drainage and low manure content

Agro-Ecological Zones (AEZ): Refers to the Division of an area of land into smaller units, which have similar characteristics related to land suitability, potential production and environmental impact. The zone groups are temperature belts defined according to the maximum temperature limits within which the main crops in Kenya can flourish.

Reporting period: The data is reported on calendar year as opposed to seasonal basis. Therefore, for crops where planting and harvesting may take place more than once in the year, the production data is aggregated to get the annual data

Agricultural Area: refers to area under the crop or the area harvested. For a particular crop, the area reported is on what has been harvested

Arable land: Is the land under temporary agricultural crops (multiple-cropped areas are counted only once), temporary meadows and pastures (for less than five years), land under market and kitchen gardens, barnyards, and land temporarily fallow (for less than five years). The abandoned land resulting from shifting cultivation is not included in this category. Data for "Arable land" are not meant to indicate the amount of land that is potentially cultivable.

Crop production: Refers to the actual harvested production from the field and excludes threshing losses and that part of crop not harvested for any reason.

Farm gate Prices: The value of production given in this report uses farm gate prices as the basis of valuation of the production from the county. Farm gate price is the price paid to farmer at the farm level and hence excludes margins on transport.

Table 5.1: Agro-Ecological Zones and Sub-Zone/Patterns

AEZ	CROPS/ENTERPRISES	AREAS	PATTERNS
UH(2-3)	Wheat,Pyrethrum Zones	Nyahururu	With a very long croppping season
		Ndindika	Intermediate rains
		Igwamiti	Two variable cropping seasons
	Wheat,Barley,Maize	Igwamiti	Two rains seasons
	Potatoes	Marmanet	(Bimodal rainfal)
	Cattle,Sheep	Ngarua	Marginal areas with intermediate rains
	Barley Zone	Ngobit Ward	
	Ranching zones Lower Highlands (LH2-5)	Nanyuki	with weak short rain with bimodal to trimodial rainfall of Rumuruti & Nanyuki
		Ngarua	
		Rumuruti Ward	
		Umande	
Upper Midland zones (UM,&UM6)	Livestock & sorghum zones Beans & maize posture & forage areas	Segera Ward,	Weak to short cropping season
		Nanyuki areas	
		Segera Ward,	Very short to Intermediate rains
		Rumuruti	
		Lamuria	Also grown are other marginal crops-sorghum
		Mukogodo	
Lower Midland Zones (LM5-6)	Ranching zones but less stoking due to smaller rainfall & higher evaporations	Chumvi areas	Bimodal rainfall which is short with high evaporation rate

Co-Operatives

The section has data on the number of cooperatives by type, membership, share capital, turnover and sub county. The number of Savings and Credit Cooperatives (SACCOs) by Sub County and performance is also given.

Notes and Definitions

SACCOs: These are cooperatives that provide their members with convenient and secure means for saving money and obtaining credit at affordable interest rates.

Share Capital: Refers to the total of cooperatives' shares that are held by members. It is withdrawn only when one ceases to be a member of the cooperative.

Table 8.1: SACCOs by Type, Status, Membership and turnover as at December 2013, 2014

Energy

Electricity connections for domestic use, small commercial, industrial use and street lighting and the average annual pump prices and monthly pump prices of various petroleum products are presented in this section

Notes and Definitions

Domestic use: These are domestic customers. They are Low voltage level (240 /415kV) users

Small commercial: These are medium commercial and industrial customers. They are medium Voltage level (11&33 kV) users

Industrial use: These are large commercial and industrial customers. They are High Voltage level (66 & 132 kV) users

Street lighting: They are Low voltage level (240 /415kV) users

Pump prices: These are the maximum retail petroleum prices calculated by the Energy Regulatory Authority in accordance with Legal Notice No.196 of 2010.

Transport and Communication

This section presents information on the road coverage by type, class and length. It also covers the transport and communication network and the number of postal service outlets in the County.

Notes and Definitions

International Trunk (Class A) Roads: Class A roads comprise of international trunk roads linking centres of international importance and crossing international boundaries or terminating at international ports or airports e.g. Mombasa International Harbour.

National Trunk (Class B) Roads: Class B roads which link former provincial headquarters and other important centres to the capital, to each other or to the international road network.

Primary (Class C) Roads: Class C primary roads which link provincially important centres to each other or higher class roads; this has been reinterpreted more recently to mean linking district headquarters to each other and higher level roads or centres.

Secondary Roads (Class D): Roads which link locally important centres to each other, or to more important centres or to a higher class road (e.g. divisional headquarters).

Minor Roads (Class E): Roads which link to a minor centre

Education

Information on education enrolment by class for pre-primary (ECDE), Primary, Secondary, Technical, middle level colleges and University are given in this section. The indicators that have been computed are Gross Enrolment Rates and the Net Enrolments which provide information on access rate.

Notes and Definitions

Enrolment in Adult and Continuing Learning is mainly non formal

Schools maintained by the Central Government are classified as "Public" whereas those which receive no grant from the Central Government are classified as "Private" schools.

Net enrolment rate: Enrolment of the official age group for a given level of education expressed as a percentage of the corresponding population.

Gross enrolment rate: Total enrolment in a specific level of education, regardless of age, expressed as a percentage of the eligible official school-age population corresponding to the same level of education in a given school year.

Public Health

This section provides statistics on health facilities by type and ownership, hospital beds and cots, outpatient morbidity for persons who are under five years old and those who are aged five years and above, registered medical personnel, NHIF and medical students.

Notes and Definitions

Kenya's health system is broadly categorized into six levels of care, namely, Level 1 comprising of the community and outreach level of care, Level 2 representing the dispensaries, Level 3 of health centers

and clinics, Level 4 of the district hospitals, Level 5 of the County hospitals, and Level 6 of tertiary national referral hospitals

Health Facility: This is a defined a health service delivery structure from where services are provided e.g. Outpatient, pharmacy, laboratory. Government facilities are the ones which are gazetted and Non-Government facilities are registered with the regulator.

Level 1 – Community Health Unit: This is a health service delivery structure within a defined geographical area covering a population of approximately 5,000 people.

Level 2 – Dispensaries: Refers to the lowest point of contact with the public. These are run and managed by enrolled and registered nurses who are supervised by the nursing officer at the respective health centre.

Level 3 - Health Centres: They have a clinical officer as the in-charge and provide comprehensive primary care and mainly focus on preventive care such as childhood vaccination. They are medium-sized units which cater for a population of about 80,000 people.

Level 4 – Sub County hospitals: Are hospitals which are the coordinating and referral centre for the smaller units. They usually have the resources to provide comprehensive medical and surgical services. They are managed by medical superintendents.

Level 5 - County hospitals. These are regional centres which provide specialised care including intensive care and life support and specialist consultations. These are referral points for the sub county hospitals

Level 6 - National referral hospitals: Refers to National referral hospitals offering very specialized services such as Kenyatta National Hospital, Moi Teaching and Referral Hospital, Mathare Mental Hospital and Nairobi Spinal Injury

Public Finance

This section provides details of the County government's revenue and expenditure. This includes funds transferred from the county revenue fund to the county government, CDF allocation by constituency, and CDF beneficiaries in schools and colleges.

Notes and Definitions

Equalization Funds: These are Funds established under the Article 204 of the constitution in which shall be paid one half per cent of all the revenue collected by the national government each year calculated on the basis of the most recent audited accounts of revenue received, as approved by the National Assembly.

Appendix 1.1 Key Demographic, Health and Socio-Economic Indicators

Socioeconomic, Demographic and Health Indicators	National	County
Crude Birth Rate	38.4	36.3
Growth Rate	28	24.4
Crude Death Rate	10.4	11.9
Total Fertility Rate	4.7	3.9
Maternal Mortality Rate	495	221
Child Mortality Rate	79	53
Current use of any method of family planning(of currently married women aged 15-49)	58%	59.10%
Current use of any modern method of family planning(of currently married women aged 15-49)	58%	51.30%
Pregnant women who received antenatal care from a skilled provider	95.50%	93.70%
Pregnant women who received 4 +ANC visits	58%	51.70%
Births assisted by a skilled provider	61.80%	49.50%
Birth delivered in a health facility	61%	48%
Children 12-23 months fully vaccinated	74%	79%
Households with at least one insecticide-treated net (ITN)	59%	18%
Children under 5 who slept under an ITN the night before the survey	54%	14%
pregnant women who slept under an ITN the night before the survey	51%	40%
Pregnant women who received 3 + doses of SP/Fansidar to prevent	10%	2%
Children under 5 with fever in the 2 weeks before the survey	24%	20.90%
Among children under age 5 with fever ,percentage who took any ACT	23%	5.40%
Women 15-49 who know that HIV can be prevented by using condoms and limiting sex to one uninfected partner	77%	85%
Men 15-49 who know that HIV can be prevented by using condoms and limiting sex to one uninfected partner	84%	72%
Women 15-49 who have been tested for HIV in the past 12 months and received the results of the last test	53%	50%
Men 15-49 who have been tested for HIV in the past 12 months and received the results of the last test	46%	43%
In- Migration Rate	20.90%	39.80%
No. of In- Migration in Urban Sub. Loc.	5,463,800	61,900
General Sex Ratio(Female to Male)	1.02	1.02

Socioeconomic, Demographic and Health Indicators	National	County
Total Female Population	19,224,500	198,200
Total Male Population	18,888,800	193,400
General Sex Ratio in Urban Sub-Location	1.02	1.08
Percentage of Population Under Age of 18	50.10%	49.20%
No. of People Under 18	19,099,400	192,800
No. of 18-64 Years Old	17,685,900	183,000
Percentage of Population Over Age 64	3.50%	4.00%
Number of People Over Age 64	1,328,000	15,800
No. of 18 to 64 Years Old	17,685,900	183,000
Percentage of Orphans in Population Under Age 15	1.20%	1.00%
No. of Orphans Under Age 15	189,800	1,600
Total Population Under Age 15	16,438,500	166,700
Percentage of HHs of 1-3 People	42%	49.40%
No. of HHs of 1-3 People	3,685,800	50,900
No. of HHs 4-7 People	3,402,700	39,700
Percentage of HHs Over 7people	19.20%	12.10%
No. of HHs Over 7 People	1,679,500	12,500
Total Number of HHs	8,768,000	103,100
Percentage of Female Headed HHs	32.10%	35.90%
No. of Female Headed HHs	2,818,800	37,100
No. of Youth Headed HHs	42,000	600
No. of Catholics	8,924,700	130,300
Number of Protestants and Other Christians	22,676,600	220,800
Number of Muslims	4,292,300	7,100
