PREFACE AND ACKNOWLEDGEMENT

This publication is the maiden edition of the Ghana Statistical Yearbook. It contains a wide range of themes, with each theme covering a series of statistics that were available to the Ghana Statistical Service in the 2010 - 2013 periods. The Ghana Statistical Yearbook was produced in recognition of the growing needs of among the diverse users of statistical data.

The Yearbook has been organized in three main parts: Demographic and Social, Economic, and Other Indicators. The first and second parts of this publication provide monthly and annual trends whereas the third part consists of data from sample surveys and censuses conducted periodically.

The demographic and social indicators were grouped under four thematic areas: population, education, health and crime. The economic indicators were also grouped under ten themes: production, prices, real sector, financial transactions, fiscal, inflation rates, interest rates, exchange rates, merchandise trade and postal activities. Classification of indicators covered in this publication followed international classification structures. The indicators covered have sector groupings, sex and regional distribution, where appropriate.

The production of this Statistical Yearbook was made possible following data providers continuous provision of statistics to the Ghana Statistical Service to compile this important source of reference on the economy of Ghana. The Ghana Statistical Service, therefore, acknowledges with gratitude, the initiative and effort of the Resource and Data Centre of the Service and the contributions of all organizations that complemented the effort of the Service in the compilation of the first edition of this publication.

Note:

Except for Number of vessels called at the port, all figures are in hours

1) Waiting Time = (pilot board date + time) - (arrival date + time at anchorage) + (time spent at anchorage on shifting)

2) PORT NAVIGATION TIME = ((vessel berth date+time) - (pilot board date + time)) for both inbound and outbound and any shifting

3) Time at Berth = (vessel unberth date + time) - (vessel berthed date + time)

4) Time in Port = Waiting time+ Port + Port Navigation + Time at Berth

Except for Number of vessels called at the port, all figures are in hours

1) Waiting Time = (pilot board date + time) - (arrival date + time at anchorage) + (time spent at anchorage on shifting)

2) PORT NAVIGATION TIME = ((vessel berth date+time) - (pilot board date + time)) for both inbound and outbound and any shifting

3) Time at Berth = (vessel unberth date + time) - (vessel berthed date + time)

4) Time in Port = Waiting time+ Port + Port Navigation + Time at Berth
