Kenya National Bureau of Statistics

Vision Statement

To be a Centre of excellence in production and management of quality statistics

Mission Statement

To develop, provide and promote quality statistical information for evidence-based decision-making.

Core Values

- **Professionalism:** Strictly abides by professional considerations on the methods, standards and procedures for statistical production.
- **Confidentiality:** Guarantee confidentiality of data providers as provided in the Statistics Act 2006
- **Collaboration:** Collaborate with stakeholders so as to enhance the quality of statistical information
- **Teamwork:** To embrace teamwork as the hallmark of our success
- **Customer focus:** Commitment to meet the needs of our customers and always focus on customer satisfaction.
- **Accountability and Transparency:** Conduct business and lend services to stakeholders in a transparent and accountable manner.
- **Efficiency and effectiveness:** Promote high productivity, competence and usefulness of resources at the national and county level.
- **Innovation and Creativity:** Committed to innovation, invention, creativity and resourcefulness in service delivery.

Foreword

The implementation of the constitution created increased demand for comprehensive and disaggregated statistical information to inform evidence based policy formulation, budgeting process, monitoring and evaluation of various programmes both at the county and national levels. It is for this reason that the Kenya National Bureau of Statistics, being the principal agency of the Government for coordinating and supervising all official statistical programs undertaken within the National Statistical System, has undertaken to produce this Count Statistical Abstract (CSA) annually. The information published in this Abstract will address data gaps at the county level to supplement other periodic surveys conducted by the Bureau that equally provide useful indicators for various sectors.

The 2015 County Statistical Abstract is the first of its kind to be developed for Nakuru County and will subsequently be produced annually. This Abstract will be a single source of information covering various sectors of the economy at the county level. The Abstract has substantially benefited from the administrative data generated in the county. In addition, some indicators were compiled from various survey reports and population and housing censuses.

This Abstract is expected to provide a reliable source of information for planning, policy formulation, monitoring and evaluation processes. The data contained in this Abstract will, therefore, enable data users to gauge the performance of the county.

In conclusion, there is need for collaborative efforts between the National and County Governments in order to improve on the quality of statistical information, enhance dissemination, and accessibility of statistics at the county level.

Saitoti Torome
Principal Secretary
State Department of Planning and Statistics
Ministry of Devolution and Planning

Acknowledgement

The successful production of Nakuru County Statistical Abstract has been made possible through joint efforts of producers and users of statistics despite the challenges faced during the data collection. This collaboration is expected to improve timely compilation of reliable data from county data producers that will meet the expectations of both the users and suppliers in subsequent County Statistical Abstracts.

In this regard, therefore, I wish to express my gratitude to the Kenya National Bureau of Statistics Board of Directors for providing policy direction which has culminated in the preparation of this first County Statistical Abstract.

My sincere gratitude goes to H.E. Kinuthia Mbugua, the Governor of Nakuru County for providing his support during the entire process in the production of this publication. I also want to thank the County Chief Officers, Directors and their staff who participated in the process of production of this abstract.

Special thanks goes to the County Commissioner for playing a pivotal role in coordinating the data collection process. I appreciate the contribution of departmental heads who provided timely data and also participated in the validation of information contained in this publication.

I acknowledge the contribution of the Nakuru County Statistical Officer and the County Working Committee for their tireless efforts in the successful compilation of data and production of this Statistical Abstract. I also thank all KNBS Directors, Editorial teams and County Statistical Abstract Secretariat at the headquarters for successfully planning, coordinating various departments, compiling and producing the 2015 County Statistical Abstract.

Finally, I wish to reiterate the Bureau's commitment in strengthening linkages with county stakeholders to improve the quality of the future Statistical Abstracts.

Zachary Mwangi
Director General
Kenya National Bureau of Statistics

Introduction

This County Statistical Abstract is a single source of information that provides a two year data series. It contains a comprehensive set of indicators that are useful for planning, monitoring and evaluation as well as providing useful information for research. The preparation of this Abstract has been coordinated by the Kenya National Bureau of Statistics in collaboration with the County Government, National Government Departments and other stakeholders represented in the county. The information was compiled mainly from the administrative records and partly from the recent surveys and censuses. The source of the statistical data is shown under each table.

The publication aims at providing statistical information on economic, demographic and social dimensions in Nakuru County. Being the first publication of its kind, its content may not meet detailed requirements of all users. In such a case, additional information, whenever available, will be supplied by the Bureau on request. All data request relating to statistical matters should be addressed to Director General, Kenya National Bureau of Statistics.

Structure of County Governments

The current Constitution was promulgated on 27th August 2010 providing for a two tier government structure with one National Government and forty seven (47) devolved County Governments.

County Governments consist of two arms, namely the County Assembly and the County Executive. The functions of County Governments as contained in the Fourth Schedule (Constitution 2010) include:- Finance and Economic planning; Roads, Public Works and Transport; Health and Sanitation; Education and ICT; Agriculture and Irrigation; Livestock, Fisheries and Veterinary Services; Trade, Industry and Cooperative Development; Land, Housing, Physical planning and Urban Development; Water Development, Environment and Natural Resources and Tourism, Culture, Sports and Social Development.

The County Assembly

The County Assembly is vested with the legislative authority of county laws, general oversight of the County Government and representation of the people. It consists of Members of County Assembly (MCAs) elected from different Assembly Wards in the county, nominated MCAs representing special interests such as persons with disability and the youth as prescribed by an Act of Parliament, and the Speaker who is an ex-officio. The head of the County Assembly is the Speaker, who is also the Chairman of the County Assembly Service Board. The composition of the County Assembly for Nakuru County is as follows:-

Speaker (ex-officio)	1
Elected MCAs	55
Nominated MCAs	19
Total	**75**

The County Executive

The Executive arm of the County Governments comprise of the Governor, the Deputy Governor, the County Executive Committee members and the County Public Service. The County Executive Committee members are appointed by the Governor with the approval of the County Assembly. The Governor and Deputy Governor are elected by registered voters in the county in a general election, for not more than two terms of five years each. The County Governor and Deputy County Governor are the Chief Executive and Deputy Chief Executive of the county, respectively. Each county is run by an executive committee, consisting of:

- Governor, elected directly by the people.
- Deputy Governor, elected as running mate of the successful candidate for Gubernatorial.
- Committee members not exceeding a third (or ten where a county assembly has more than 30 members) of the members of the respective county assembly.
- County Secretary nominated by the Governor and approved by the county assembly, who will double up as head of the county public service, and secretary to the county executive committee.

For Nakuru County, the County Executive Committee comprises of:-

The Governor	1
The Deputy Governor	1
The County Secretary	1
The CEC Members	13
Total	**16**

Nakuru County Government

Vision

A secure, cohesive and industrialized county.

Mission

To formulate citizen oriented policies, promote sustainable socio economic and technological development.

Core Values

We are dedicated to espousing these core values as the guiding principles for our operations:

Customer-focused: We consistently endeavour to create enduring relationships with our customers; in so doing our approach goes beyond standard people participation methods and makes their input an integrated, formalized part of setting county projects/program goals, performance measures, and standards. At the heart of our activities is a county ready to provide solutions in the short and long term.

Professionalism: Competency and uncompromising service delivery is exuded in every facet of our work. We reward merit amongst colleagues while applying the most appropriate skills and competencies to serve our constituents. We apply the same ethics and ethos with our stakeholders.

Integrity: Truthfulness and uprightness defines are an integral part of our operations. The county shall advocate these firmly to the ethical practices in every undertaking to our society.

Equity and Equality: We do not regard status or personal preferences but approach our work as guided by principles of fairness and non-bias.

Transparency and Accountability: The County endeavors to act in a transparent, unambiguous, predictable and understandable manner in all its businesses. We will remain accountable to our stakeholders and will acknowledge responsibility for our actions and decisions.

Team work: Every person is important and has a part in county development. We endeavour to build a workplace environment that cultivates person‘s uniqueness, encourages staff participation, collaboration and integration of diverse skills and capabilities.

Creativity and Innovativeness: We promote an innovative culture and attitude. We think differently and strive to apply innovative thinking and creativity to everything we do. Our county is open to new ideas and methods and we encourage individuals to explore new opportunities and improve performance and results.

Overview of the County

Nakuru County is located in the middle of the Rift Valley region of Kenya. The County covers an area of 7,496.5 square kilometers. It borders seven counties: Laikipia to the north east, Kericho and Bomet to the east, Narok and Kajiado to the south, Baringo to the north, and Nyandarua to the east.

Nakuru and Naivasha towns are the major urban centres in the County. The County headquarter is located in Nakuru town which is about 157km North of Nairobi. Nakuru town also serves as the regional headquarter. Other towns spread across the county include Molo, Njoro, Gilgil, Mai Mahiu, Subukia, Salgaa and Rongai. The name Nakuru means 'a dusty place' in the Maasai language – in reference to frequent whirlwinds that engulf the area with clouds of dust.

According to the 2009 census population and Housing Census, Nakuru County had a population of 1, 603, 325 people out of whom 50.2% were male and 49.8% were female. Nakuru is a cosmopolitan county, with its population consisting of all the major tribes of Kenya.

Nakuru is an agriculturally-rich county blessed with various tourist attractions such as Menengai Crater and several lakes which include Lake Nakuru, Lake Naivash and Lake Elementeita.

The County has predictable weather patterns with temperatures ranging between 10°C during the cold months (July and August) and 20°C during the hot months (January to March). The county receives between 700mm and 1200mm of rainfall annually, with average annual rainfall of approximately 800mm. Nakuru has two rainy seasons: April, May and August (long rains) and October and December (short rains).

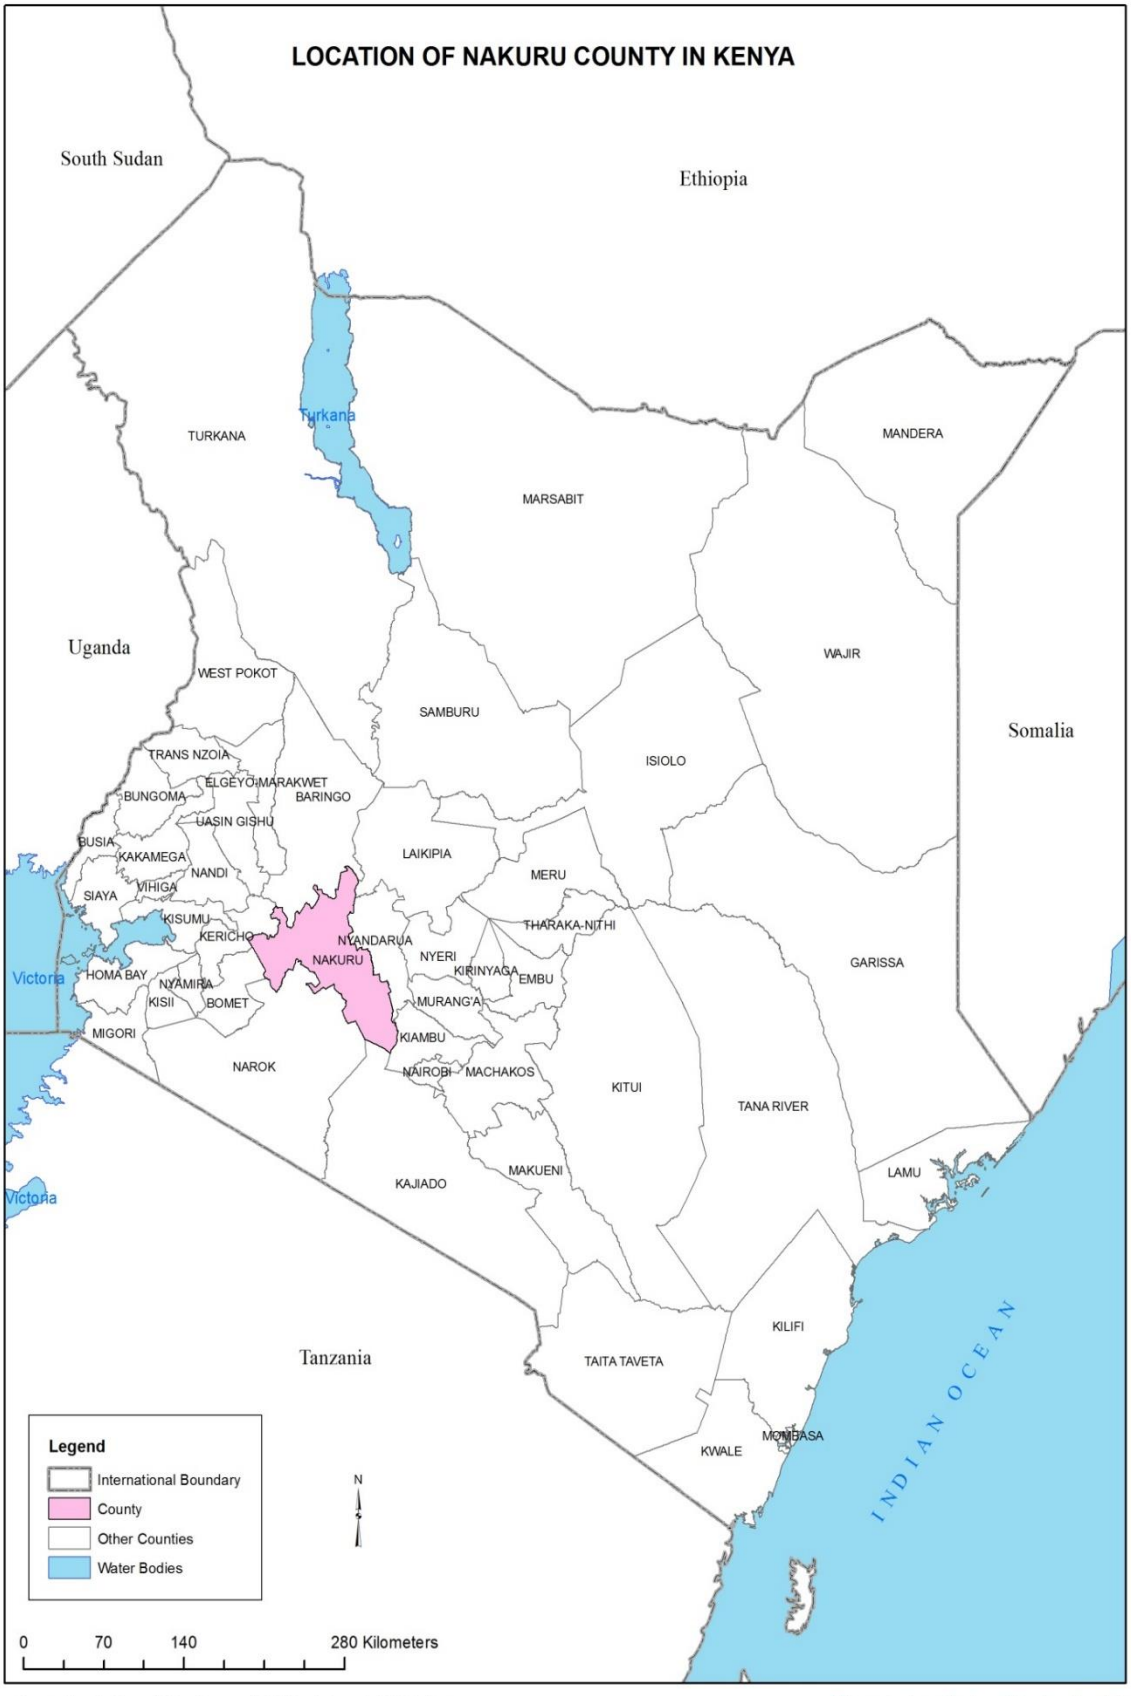
Agriculture is the mainstay of Nakuru's economy. The county's weather is conducive for large-scale farming, horticulture and dairy farming. Food crops grown in Nakuru include maize, wheat, beans, peas, cabbages, tomatoes, kales and carrots. Most of the agricultural produce such as maize, wheat and milk is processed within the county and sold to consumers in neighboring towns and cities.

Tourism is also a major economic activity in Nakuru county due to the numerous tourist attractions that include Lake Nakuru National Park, Lake Naivasha, Hell's Gate and the Menengai crater.

Lake Nakuru National Park, situated just 4km from Nakuru town, is one of Kenya's most popular tourist destinations. The park's ecosystem, which comprises Lake Nakuru and surrounding grasslands, supports over 50 species of mammals including white rhino and about 450 species of birds including the lesser flamingos.

Other tourist destinations include Lake Naivasha with over 350 species of birds'; Hell's Gate National Park, which, is ideal for rock climbing'; biking and wildlife, including cheetahs, leopards and lions. The 2,490 meters-high Menengai Crater 10km north of Nakuru town is also a tourist attractions.

Map: Location of Nakuru County in Kenya



Administrative and Political Units

This section presents information on the administrative and political units in the county disaggregated by constituent sub-units. It gives the distribution of administrative units by sub-county, divisions and locations by political units in terms of constituencies and wards.

Notes and Definitions

County: It is an area that is demarcated as a devolved unit as stated under Article 6(1) of the Kenya's Constitution and specified in the First Schedule of the Constitution.

Sub County: Refers to both Administrative Units of National Government and County Government. In most areas it coincide with the Constituency area.

County Assembly: Means an assembly constituted in the county in accordance with Article 177 of the Constitution.

Constituency: Is an area demarcated as stated under Article 89 of the Kenya's Constitution for the purpose electing a member of the National Assembly. There are 290 constituencies in Kenya.

Ward: Is an electoral area within a county delimited in accordance with Article 89 of the Kenya's Constitution for the purpose of the electing a the member of the County Assembly. There are 1450 wards in Kenya.

Population and Vital Statistics

This section provides information on population and vital statistics by census year, sex and constituency; registration of births and deaths by place of occurrence in Nakuru County.

Notes and Definitions

Density: Refers number of persons per square kilometre, obtained by dividing the enumerated persons in a given area by the size of the area expressed in Km^2.

Area: Is the extent of a surface enclosed within a specified boundary, expressed in square kilometres. This excludes areas covered by water.

Birth: Birth is the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy.

Death: Death is the permanent disappearance of all evidence of life at any time after live birth has taken place (postnatal cessation of vital functions without capability of resuscitation). This definition excludes fetal deaths.

Expected Birth or Expected Death: Is derived from the prevailing fertility or mortality conditions and total female population of reproductive age or the total population. The number of expected births or deaths is calculated using age-specific birth and death rates.

***Place of Occurrence*:** It is where birth or death occurs.

***Coverage rate*:** Coverage rate is basically the percentage of registered events out of the total number of expected events. Although the denominators ideally should be the total number of events which occurred, the actual number of such events is unknown and hence estimated as 'expected events'.

***Births or Deaths Registered at Health Facilities*:** Refer to births or deaths that occur at a health facility and a notification is issued by a health worker at the facility.

***Births or Deaths Registered outside Health Facilities*:** Refer to births or deaths that occur at home and a notification is issued by an Assistant Chief.

***Selected Age Groups*:** Refer to special age groups as follows:

- Children under one year
- ECDE (3-5 years),
- Primary (6-13 years)
- Secondary (14-17 years)
- Youth (18-35 years),
- Children (under 18 years),
- Voters or Adults (18+ years),
- Women of reproductive age (15-49 years),
- Active Labour Force (15-64 years)
- Elderly (65+ years).

Trade and Commerce

Introduction

The section provides data on the number of trading centers and licensed business. Information on trade includes type of business outlets in the county trading centers.

Notes and Definitions

Data presented comprise of registered businesses, permits paid and penalties.

Single Business Permit: The permit allows for the conduct of business or trade within the county. The permits are issued by the County Governments. All single business permits expire at the end of every year and there is a period within which renewal must be done.

Agriculture

This section provides information on agro–ecological zones, land potential by selected sub-counties, type of crops grown, the total area cropped, amount produced and their value. It also gives information on average retail prices for farm inputs, acreage under irrigation by type of crop grown.

Notes and Definitions

High potential: Clay-loam soil with sufficient manure and good drainage.

Medium potential: Sandy-loam soil with high drainage.

Low potential: Sandy soil with very high drainage and low manure content.

Agro-Ecological Zones (AEZ): Refers to the Division of an area of land into smaller units, which have similar characteristics related to land suitability, potential production and environmental impact. The zone groups are temperature belts defined according to the maximum temperature limits within which the main crops in Kenya can flourish.

Reporting period: The data is reported on calendar year as opposed to seasonal basis. Therefore, for crops where planting and harvesting may take place more than once in the year, the production data is aggregated to get the annual data.

Agricultural Area: Refers to area under the crop or the area harvested. For a particular crop, the area reported is on what has been harvested.

Arable land: Is the land under temporary agricultural crops (multiple-cropped areas are counted only once), temporary meadows and pastures (for less than five years), land under market and kitchen gardens, barnyards, and land temporarily fallow (for less than five years). The abandoned land resulting from shifting cultivation is not included in this category. Data for "Arable land" are not meant to indicate the amount of land that is potentially cultivable.

Crop production: Refers to the actual harvested production from the field and excludes threshing losses and that part of crop not harvested for any reason.

Farm gate Prices: The value of production given in this report uses farm gate prices as the basis of valuation of the production from the county. Farm gate price is the price paid to farmer at the farm level and hence excludes margins on transport.

Table 6.1: Agro-Ecological Zones for the County, 2014

Zone	description	Sub county	Enterprises	Area(Sq.Km)

Retail and Wholesale Prices

This section presents statistics relating to retail and wholesale commodity prices for selected commodities in the County.

Notes and Definitions

Retail and wholesale prices are collected every week from the retail and wholesale markets, respectively, to determine the variation in both retail and wholesale prices. Weighing scales are used to measure the quantity of the commodity to convert non-standard units to standard units.

Table 7.1: Annual Average Retail Prices of key Consumer Goods 2013-2014

KSh

Item	Unit of Measure	2013	2014*
Beef with bones	1 kg	333	341
Bread, white	400 gms	42	44
Cabbages	1 kg	42	48
Cigarettes	1 pkt	105	105

Fishing

The quantity and value of fish that landed in Lake Naivasha and aquaculture from fish ponds are covered in this section.

Notes and Definitions

Inland Fish: Refers to fish captured from the inland water surface bodies e.g Lakes, rivers etc

Culture fish: Refers to fish captured from the ponds.

Table 9.1: Fish Landed, 2013 - 2014

Cooperatives

The section has data on the number of cooperatives by type, membership, share capital, turnover and sub county. The number of Savings and Credit Cooperatives (SACCOs) by Sub County and performance is also given.

Notes and Definitions

SACCOs: These are cooperatives, which provide their members with convenient and secure means for saving money and obtaining credit at affordable interest rates.

Share Capital: Refers to the total of cooperatives' shares that are held by members. It is withdrawn only when one ceases to be a member of the cooperative.

Energy

Electricity connections for domestic use, small commercial, industrial use and street lighting and the average annual pump prices and monthly pump prices of various petroleum products are presented in this section

Notes and Definitions

Domestic use: These are domestic customers. They are Low voltage level (240 /415kV) users.

Small commercial: These are medium commercial and industrial customers. They are medium Voltage level (11&33 kV) users.

Industrial use: These are large commercial and industrial customers. They are High Voltage level (66 & 132 kV) users.

Street lighting: They are Low voltage level (240 /415kV) users.

Pump prices: These are the maximum retail petroleum prices calculated by the Energy Regulatory Authority in accordance with Legal Notice No.196 of 2010.

Transport and Communication

This section presents information on the road coverage by type, class and length. It also covers the transport and communication network and the number of postal service outlets in the County.

Notes and Definitions

International Trunk (Class A) Roads: Class A roads comprise of international trunk roads linking centres of international importance and crossing international boundaries or terminating at international ports or airports e.g. Mombasa International Harbour.

National Trunk (Class B) Roads: Class B roads link former provincial headquarters and other important centres to the capital, to each other or to the international road network.

Primary (Class C) Roads: Class C primary roads link provincially important centres to each other or higher-class roads. This has been reinterpreted more recently to mean linking district headquarters to each other and higher-level roads or centres.

Secondary Roads (Class D): Roads, which link locally important centres to each other, or to centres that are more important or to a higher-class road (e.g. divisional headquarters).

Minor Roads (Class E): Roads, which link minor centres

Education

Information on education enrolment by class for pre-primary (ECDE), Primary, Secondary, Technical, middle level colleges and University are given in this section. The indicators that have been computed are Gross Enrolment Rates and the Net Enrolments which provide information on access rate.

Notes and Definitions

Enrolment in Adult and Continuing Learning is mainly non formal.

Schools maintained by the Central Government are classified as "Public" whereas those which receive no grant from the Central Government are classified as "Private" schools.

Net enrolment rate: Enrolment of the official age group for a given level of education expressed as a percentage of the corresponding population.

Gross enrolment rate: Total enrolment in a specific level of education, regardless of age, expressed as a percentage of the eligible official school-age population corresponding to the same level of education in a given school year.

Public Health

This section provides statistics on health facilities by type and ownership, hospital beds and cots, outpatient morbidity for persons who are under five years old and those who are aged five years and above, registered medical personnel, NHIF and medical students.

Notes and Definitions

Kenya's health system is broadly categorized into six levels of care, namely, Level 1 comprising of the community and outreach level of care, Level 2 representing the dispensaries, Level 3 of health centers
and clinics, Level 4 of the district hospitals, Level 5 of the County hospitals, and Level 6 of tertiary national referral hospitals

Health Facility: This is a defined a health service delivery structure from where services are provided e.g. Outpatient, pharmacy, laboratory. Government facilities are the ones which are gazetted and Non-Government facilities are registered with the regulator.

Level 1 – Community Health Unit: This is a health service delivery structure within a defined geographical area covering a population of approximately 5,000 people.

Level 2 – Dispensaries: Refers to the lowest point of contact with the public. These are run and managed by enrolled and registered nurses who are supervised by the nursing officer at the respective health centre.
Level 3 - Health Centres: They have a clinical officer as in-charge and provide comprehensive primary care and mainly focus on preventive care such as childhood vaccination. They are medium-sized units which cater for a population of about 80,000 people.

Level 4 – Sub County hospitals: Are hospitals which are the coordinating and referral centre for the smaller units. They usually have the resources to provide comprehensive medical and surgical services. They are managed by medical superintendents.

Level 5 - County hospitals. These are regional centres which provide specialised care including intensive care and life support and specialist consultations. These are referral points for the sub county hospitals

Level 6 - National referral hospitals: Refers to National referral hospitals offering very specialized services. They are Kenyatta National Hospital, Moi Teaching and Referral Hospital, Mathare Mental Hospital and Nairobi Spinal Injury.

Public Finance

This section provides details of the County government's revenue and expenditure. This includes funds transferred from the county revenue fund to the county government, CDF allocation by constituency, and CDF beneficiaries in schools and colleges.

Notes and Definitions

Equalization Funds: These are funds established under Article 204 of the constitution in which shall be paid one half per cent of all the revenue collected by the national government each year calculated on the basis of the most recent audited accounts of revenue received, as approved by the National Assembly.

County Indicators

Table 22.1: Socio Economic County Indicators

Indicator	County	National	Source
Socio-Economic Indicators			
Dominant Land Cover(Agriculture)	36.1		Economic Atlas
Poverty Index	33.5	45.2	Economic Atlas
HHs Acess to safe water (%)	61.6	56.1	Economic Atlas
HHS Acess to improved sanitation (%)	76.9	64.7	Economic Atlas
HHs using solid biofuels for cooking(%)	85.8	82.5	Economic Atlas
HHs using paraffin for lighting(%)	61.9	69.5	Economic Atlas
HHS using Electricity for lighting(%)	34.0	22.7	Economic Atlas
Employed labour force in Agriculture(%)	26.7	32.8	Economic Atlas
HHS Owning livestock(%)	32.4	46.3	Economic Atlas
Employed labour force in informal sector(%)	40.5	44.3	Economic Atlas
Unemployed people in active labour force(%)	10.0	9.7	Economic Atlas
Economically inactive people in total labour force(%)	21.5	22.9	Economic Atlas
Education			
Gender Parity Index(Primary School attendance)	0.98	0.97	Economic Atlas
Gender Parity Index(Secondary School attendance)	0.94	0.91	Economic Atlas
Secondary Gross Enrolment Rates			BES Booklet
Net Enrolment rates			BES Booklet
Pre-primary Gross Enrolment Rate			BES Booklet
Pre-primary Net Enrolment Rates			BES Booklet
Primary Gross Enrolment Rates			BES Booklet
Primary Net Enrolment Rates	85.8	77.1	Economic Atlas
Secondary Gross Enrolment Rates			BES Booklet
Secondary Net Enrolment rates	32.2	23.5	Economic Atlas
Water & Sanitation Facilities			
Households with acess to safe water	61.1	56.1	Economic Atlas
Households with acess to Improved Sanitation	64.7	76.9	Economic Atlas
HH's using Sewer/Septic /cess pool	11.6	11.1	Economic Atlas
HH's using VIP Latrine/Covered latrine	64.5	53.6	Economic Atlas
HH's using Uncovered Latrine	20.3	21.2	Economic Atlas
HH's using Bush	2.7	13.6	Economic Atlas

Table 22.2: Demographic and health Indicators

Indicator	County	National	Source
Population			
Population Growth Rate	28.4	28.0	Economic Atlas
Percentage Population Under Age 18	49.1	50.1	Economic Atlas
Percentage Population Under Age 64	3.0	3.5	Economic Atlas
Percentage of Households of 1-3 people	50.0	42.0	Economic Atlas
Percentage of Households of over 7 people	13.5	19.2	Economic Atlas
Percentage of Female headed Households	31.4	32.1	Economic Atlas
Household Size		4.4	KPHC 2009,Vol 1B
Demographic Indicators			
Crude Birth Rate(per 1000 people)	40.2	38.4	Economic Atlas
Crude death Rate(per 1000 people)	11.8	10.4	Economic Atlas
Growth rate(per 1000 people)	28.8	28.0	Economic Atlas
Maternal Mortality rate(100,000 births)	374.0	495.0	Economic Atlas
Child Mortality rate(1000 live births)	80.0	79.0	Economic Atlas
In-migration rate	36.9	20.9	Economic Atlas
Fertility and Family Planning:			
Total Fertility Rate	3.7	3.9	KDHS 2014
Current use of any Family Planning method-married women 15-49 (%)	36.8	58.0	KDHS 2014
Use of any modern Family Planning method (%)	53.5	53.0	KDHS 2014
Maternity care:			
Pregnant women received antenatal care from skilled provider(%)	95.6	96.0	KDHS 2014
Pregnant women received 4+ ANC visits(%)	61.4	58.0	KDHS 2014
Births assisted by skilled provider(%)	69.5	62.0	KDHS 2014
Births in health facility(%)	69.7	61.0	KDHS 2014
Child vaccination and Nutrition			
Children 12-23 months fully immunized %	72.0	68.0	KDHS 2014
Children under 5years stunted(moderate or severe) %	27.6	26.0	KDHS 2014
Children under 5years wasted (moderate or severe) %	4.5	4.0	KDHS 2014
Children under 5years underweight %	10.2	11.0	KDHS 2014
Children under 5years overweight or obese(%)	5.7	4.0	KDHS 2014
Malaria Prevention and Treatment:			
Households with at least one insecticide-treated net (ITN)(%)	37.7	59.0	KDHS 2014
universal coverage)(%)	22.7	34.0	KDHS 2014
Children under age 5 who slept under an ITN the night before the survey(%)	30.7	54.0	KDHS 2014
Pregnant women who slept under an ITN the night before the survey(%)	35.0	51.0	KDHS 2014
malaria during pregnancy,{at least one dose was received during an ANC visit (IPTp)(%)}	4.2	10.0	KDHS 2014
Children under age 5 with fever in the 2 weeks before the survey	15.5	24.0	KDHS 2014
Among children under age 5 with fever, percentage who took any ACT	11.0	23.0	KDHS 2014

Table 22.3: Demographic and health Indicators Continued

Indicator	County	National	Source
HIV/AIDS- related Knowledge:			
Women 15-49 who know HIV can be prevented by condoms and limiting sex to one unifected partner (%)	80.9	77.0	KDHS 2014
Men 15-49 who know HIV can be prevented by use of condoms and limiting sex to one uninfected partner (%)	91.4	85.0	KDHS 2014
Women 15-49 who have been tested for HIV in the past 12 months and received the results of the last test (%)	50.3	53.0	KDHS 2014
Men 15-49 who know HIV can be prevented by use of condoms and limiting sex to one uninfected partner (%)	48.9	46.0	KDHS 2014
HIV Prevalence (15-64) Years		5.6	KAIS 2012
Water & Sanitation Facilities			
Households with acess to safe water	61.1	56.1	Economic Atlas
Households with acess to Improved Sanitation	64.7	76.9	Economic Atlas
HH's using Sewer/Septic /cess pool	11.6	11.1	Economic Atlas
HH's using VIP Latrine/Covered latrine	64.5	53.6	Economic Atlas
HH's using Uncovered Latrine	20.3	21.2	Economic Atlas
HH's using Bush	2.7	13.6	Economic Atlas
Distance Covered by Hholds to health facilities(%):			
0 – 1 KM			MOH, Nakuru
1.1 – 4.9KM			MOH, Nakuru
5KM and more			MOH, Nakuru
Average distance to health facility (KM)			MOH, Nakuru
Vitamin A supplement coverage rates %			MOH, Nakuru
Contraceptive acceptance (percent)		74.0	2014 KDHS
Antenatal care (ANC)		56.0	2014 KDHS
